Heller's Revenge J.D. Nixon

Tilly Chalmers' sexy boss, Heller, has a talent for making enemies. Not a forgive-and-forget kind of man, he has a few scores to settle - including one with Tilly's brother. Tilly is kept busy juggling that constant worry with managing three new assignments as a rookie security officer - crowd control at a lingerie parade, babysitting an immature, sex-starved IT billionaire, and an unusual and emotional job with a famous environmental activist. But as usual, Tilly's assignments don't go quite to plan. All this, as well as trying to keep her vow not to sleep with her beautiful and enigmatic boss, no matter how much of a temptation he proves.

I'm so frustrated with this book right now, I don't know if I'm able to write a review. Let me start by saying that I loved the first book. It was very funny, with both happy moments and sad ones... basically everything a good book needs. Also, the second book started out great, I was laughing at the very first line.

But then... disaster struck!

And I mean it, because the rest of the book was just that... *a fucking disaster*! Matilda almost dying basically every week, and if it's not her than someone else is surely dying. And what happened to morals, because both Heller and Matilda did some things that left me speechless and outraged.

It was a complete mess! It's like these books weren't written by the same author. I'm sad to say I was very disappointed by the second book and I will not continue reading this series. It was nice meeting both Heller and Matilda, and we had some great times together:), but afterwards their behaviour left me... disgusted. I know it's a harsh word... but that's just how it was.

The *unhappy* end!

No time for reviews!!! I'm onto the next one in this series. YAY!

Kay... I made time- lol!

Damn I am loving this series!!

After reading Heller and being totally gobsmacked at the originality, hilarity, emotional shockers and general kick ass experience of book one, I sat back removed the toothpicks from my eye-lids at 4:35 AM and downloaded Heller's Revenge.

Without a thought..... not even contemplating that I might want to read something else from my extensive list of must reads like I usually do... you know? Give it a break and read something else between books?

Oh hell no! I am all over this like a bear on a honey pot. There is nothing else I'd rather be reading right now.

2.5 stars.

EDIT : Im knocking it down to 2 stars. After thinking about it more. Im just stunned. I dont understand why this book has high ratings! first book was amazing.. This one? No. Just.. No.

That might be a little harsh, I know. I love this series, but this book left me so frustrated with a WTF DID I JUST READ?! look on my face.

I'm not sure where the author is trying to go with this series. The most important relationship in this book, is Heller and Tilly. Nothing... Ever...happens. Ever. No progress, nothing! He is a big scary but sexy man. We all know his moral compass isn't exactly pointing north, but the things he does is absolutely terrible and disgusting... He sleeps with her brothers wife, ruins his family-including the two little girls and later kidnaps a teen son from a rival security team and beats him, films it and sends it to the mom and dad to get the dad to cooperate.

YES, I know, it was because of "good reasons" and it was him extracting his revenge on people who hurt his loved ones but it was so wrong and not even a hint of remorse, apology, or anything to make it even remotely forgivable. And Tilly?

Grow a freaking backbone, girl!!

"I hate you, I can't believe you did but.. Teehee... You're cute and I'm just gonna play dumb and forgive you since you're pretty."

Wasn't she supposed to be a good strong person in the beginning.. With morals?

Even when good characters do bad things normally, there is remorse to make the reader understand why they did it and possibly forgive them for it. Not here.

Also, wtf is with the cheating in this book? I love a good sexual tension between characters but they have gone passed the point of me even being excited about what happens with them. SHE HAS A BOYFRIEND! One she "loves". She gives Heller a handjob while laying in bed with him in his bed but says "Oh, that doesn't count as cheating, I don't know why, but I don't look at it that way." WHAT?!?!

Not to mention Meilei (or however you spelled it), the Eco-terrorism. So, it's cheating if the man does it but it's ok if she does? I just don't get it.

They are constantly kissing, touching and fondeling but she always says "cheating isn't ok, I love my boyfriend, but what I do with Heller doesn't really count. It just doesn't."

I just don't care anymore if they get together or not. They are both idiots. Sexy idiots, but idiots none the less.

Wtf? I just don't understand what the author is doing, nothing ever actually progresses with any characters in this book even though a lot happens.

And I thought Tilly got into trouble before, it was *nothing* compared to this one. I grew to love the characters even more and the security aspect was MUCH more interesting and well done than in book one. There's a more serious feel at times when things got really intense and emotional for Tilly in her personal life and on one of her jobs. I'm going straight onto the next because I'm kind of addicted to Tilly and Heller's completely

bizarre and dysfunctional dynamic.

*I listened to the audio version of this and it's phenomenal! The narrator is the PERFECT voice for Tilly and I will definitely be listening to the whole series instead of reading it now.

This review is going to be for books 2, 3 & 4

And be warned, this will be less of a review and more of a rant about how I HATE Heller.

Let me start by saying that despite everything I'm about to write, I actually like reading these books. I think this author is a good writer and she's pretty creative in coming up with security job scenarios. What this author isn't good at is making me like the man who is supposed to be the hero and romantic interest of the heroine in this book. Oh, she writes him well, but she writes him as a total DICK! And alot of what I like in these books has to do with the secondary characters NOT Heller & Tilly.

I think we are supposed to see Heller as this lost soul with a troubled past who just doesn't understand basic

courtesies where women are concerned. We are supposed to forgive him for all the crap he does because of this... he's supposedly learning what it means to care for a women because he never has before so he screws it up over and over. Well, this might have worked for the first 2 books but by the 4th book it's just really, really jack-assy!! Not only does his crap not improve by book 4, it actually just gets worse and now it's more painful because our heroine, Tilly, is more emotionally invested in this jerk.

Let me make sure I'm being clear... Heller is a DICK! A big, hairy, smelly asshole!!! Yes, he has a moment here and there where he does something kind or thoughtful but that is only in about 5% of the book. The rest of the time he's unbearable.

For the record, I LOVE reading books with strong, dominating, overbearing, overprotective Alpha Males. I love them!!! Heller is not an alpha male. Heller is a self-serving, vengeful, angry, hypocritical, king of double standards TYRANT. He's always angry with Tilly over things that are not her fault yet like a weak doormat she takes the blame for it all. He goes on and on about how important she is to him and he can't live without her in his life yet over and over he sends her on these ridiculous jobs - oh, Tilly I want to protect you so much now go off and live with this stranger man for a couple of weeks. And by the way Tilly, when things go monstrously wrong, just be forewarned that I will blame you completely for it all. UGGG.

Heller has been the reason for every relationship she has tried to have being ruined. He wants to be able to have sex with Tilly but all on his terms. He wants her when he wants her, he will still have sex with other women, but Tilly is not to have a relationship (or sex) with any other man. Oh, but Tilly shouldn't mind because she's safely in his heart and sex with other women is just sex, but there is no way Heller will accept Tilly having sex with other men. Tilly turned to one of the security men (Ferrall) for help and comfort because Heller was MIA and Heller beats the shit out of him for it and he tells Tilly she can not see any other employees. But Heller is after Tilly so it's ok for him to go after staff, but not her. Another time she starts really caring for a client who is basically just waiting to be killed, they end up having sex and of course Heller knows and he goes ballistic. Under no circumstances is Tilly to sleep with a client and yet Heller sleeps with clients ALL THE TIME. In fact he had sex with a client while Tilly sat in the other room. Classy Heller. You're quite the catch. He flirts with other women in front of Tilly, he flaunts other women in front of Tilly, he gives detailed descriptions of sex he has with other women to Tilly. This guy is quite the gentleman. You can see why I'm so fond of him.

And what pisses me off the most is that Tilly just accepts it all. Ok Heller, you're right, I'm an idiot. She will get a brief moment of standing up for herself but it lasts for about 2 minutes and then she's kissing and cuddling with him again. It's hard to respect Tilly when she let's men use her like she does... and not just by Heller, it's Will too. This relationship is ridiculous. I can't root for this couple, Heller's a pig. There are several great guys that have popped up in these books... ANY of them will do. I really like Ferrall and Bick... two guys who are worlds better than Heller.

The 4th book just really did me in. Over and over Heller gets mad, throws a tantrum, overreacts, puts Tilly in danger, she get's hurt, he's ever so sorry (and yet there is still blame that ends up being aimed at her). The final punishment just put me over the top. I was so angry with what Heller does to Tilly. He really makes things difficult for her but what does our doormat heroine do in response to her unfair treatment???? (view spoiler)

As far as I'm concerned Heller is a loser and can't be trusted. The first couple of books he was a jerk but the relationship was new and I hoped that he would tame down a bit but after just finishing book 4 I'm so over Heller. (view spoiler)

This series was recommended by a friend. I really liked the first book. So I bought book 2. Same as the first book. The only characters I like are Daniel and Niq. Tilly is an immature slut with boobs that no man can resist (apparently). She has a boyfriend, Will, but lusts after Heller and sleeps beside him and gives him a hand job. Then she sleeps with a client but continues to tell her boyfriend she loves him. Heller isn't much better. He obviously has feelings for Tilly but continues to keep them to himself, does horrible things to her family, and sluts around and rubs it in her face. I've lost interest. I don't even care to know whether they end up together or not and I'm not wasting money on all of the books in this series to find out.

Marynea Collina says

I don't know what kind of right mind I had to be able to finish this book. It might sound harsh, but god, this book was incredibly stupid. I can't believe I had finished this book! Perhaps I wanted to punish myself, and reading this book only made that happen.

Despite all my rants so far, I actually liked the first book. I felt the "slow burn" from the first, but in **Heller's Revenge**, it just became annoying. Everything was a fucking mess. And how many times does our heroine have to cheat with her boyfriend? I know, I know, later on it was revealed that her boyfriend *cheated* on her too, but none of that makes it better????????

And she was so stupid, claiming what she and Heller were doing wasn't "cheating". Are you that stupid? YOU GAVE HIM A HANDJOB, YOU BITCH, WHILE YOU HAD A BOYFRIEND. And again, she slept with one of her clients. Like I said .. STUPID!!!!

And Heller was just disturbing. I don't know why people fangirl over him. Both sides have almost no morals. Everyone was so stupid. It's clearly both of them want to be together and yet not willing to sacrifice. Same plotline too .. Matilda kept on finding herself in almost-death situation ... still didn't die, with almost no emotional traumas after. Sometimes I wish she did, just so I could at least care a bit for her.

This reduced my brain cells. I'm almost excited to go to school so I can bring them back.

Horrible book. (Sorry. maybe I am harsh ... but seriously?)

1/5. (0?????)

4.5 stars

I was so hooked on this series that I went into hibernation for 5 straight days.

Highly, highly recommended for those who like stories about challenging, unconventional or quirky types of relationships with a dose of imbalanced power dynamics.

The female lead lends most of the quirky to this series, but the whole thing is wonderfully odd.

I am officially this author's b-word.

Ian says

I have a low tolerance for the whole "Alpha Male" thing at least as it is depicted in fiction. I'm not that type of person but I know quite a few very hard men. The thing is a lot of these fictional alpha males aren't hard men, they're just assholes.

And honestly, in this book Heller is kind of an asshole and bordering on a sociopath.

I didn't enjoy this nearly as much as book one, but I'll read book three and see if I want to continue.
