Kamala may be fan-girling out when her favorite, (okay maybe Top Five), super hero shows up for some help, but that won't stop her from protecting her hometown. Who is the Inventor, and what does he want with Kamala and all her friends? Maybe Wolverine can be of some help.

Let it be known that even after being told she wrote fanfiction about him and published it on the internet, that Wolverine stans Kamala so much that he gets his friends to fall in love with her by only showing them a picture of her eating a gyro. Hopefully Kamala won't die of joy once she finds out!

Alice says

I love the new Inhuman entrances, also Wolverine and Kamala's bonding is amazing. The action and side dialogues are so good I can't even complain about missing regular non-Ms-Marvel life and Bruno.

Tasha says

Definitely prefer the previous artist.

Riley Blue says

Kamala tiene 16 años así que es un personaje gracioso y espontaneo, me gusta.

Dragon says

Wolverine!! So she's an inhuman? I should google it. But dont want any spoilers, and this new heroine is really fun and enjoyable!

Ale says

I love this series so far! I also love how they're drawing Wolverine and his personality.

Halle says

I really really dig the idea of surly Wolverine as Kamala's mentor. Gyros all around!

Introducing: the Amazing Box with Legs Man, also known as Thigh Gap Extraordinaire Man, also known as Wolverine.

I really like this series. I like the characters, the story and the different view it gives (because of how Kamala is not a 'standard' type for a superhero). But I'm not very excited to read on. I feel like the art style really took a dive during the 6th and 7th issue and the plot is starting to lose my interest.

I do recommend it because it really is good... I'm just losing interest because it seems like the artist/writer is doing the same.

Speed reading my way through this series

Sarah says

My favorite installment so far!

Nicole says

This series just keeps getting better and better. Wilson's writing is laugh-out-loud funny, and solid every issue.

the moment i saw the selfie, i just fell in love!

Look at that great Jamie McKelvie cover of Kamala taking a selfie with Wolverine - how adorable and fangirlish!

The second half of Kamala's first superhero team-up with the legendary Wolverine sees the pair fight a giant crocodile in the New Jersey sewers before dodging traps set by the evil Inventor.

What I like about this team-up though is that it's between a complete newb and one of the most experienced superheroes in the Marvel U, and yet it's Kamala who's doing all of the heavy lifting - she's saving Logan, fighting the bad guys, and saving the day pretty much all by herself!

I was worried G Willow Wilson might lean too heavily on Wolverine as a crutch for Kamala to get herself out of scrapes (even in his weakened state) and this would turn out to be another Wolverine story, but he's a background character at most, and, in a Ms Marvel comic, it's all about Ms Marvel, which is exactly as it should be!

What makes this series of Ms Marvel so delightful is Kamala Khan herself and she continues to have these lovely moments dotted throughout the comic that make me love her all the more. She's still learning to be a superhero so her quips are weak (to the giant crocodile: "Get - back - you giant - lizard!"), while after the fight she's upset that she had to hurt the antagonist, and then when she and Wolverine are nearly in the clear, she does a little dance of happiness!

Logan has some great moments too. Arguably, the guy's at his best when he's teamed up with a teenage girl, a la Kitty Pryde or Jubilee, and he's really great with Kamala. He spends this comic (and the last) passing on his years of wisdom, helping her understand what she has to do to be the superhero she needs to be, while pushing her past her limits to new levels of bravery. I think it's tough finding really good solo Wolverine comics but to find the really great Wolverine books, look no further than the ones with female co-stars to see the guy in his element.

The second Ms Marvel arc sees Wilson nudging Kamala into the wider Marvel Universe. The Wolverine team-up was the first step, and now... no, I won't ruin the final page surprise, but it's perfect!

Holler with me: Ms Marvel #7 is awesome!

Irena says

Everyone is hyping how the main character is a Muslim, Pakistani girl (which is great!), but what I find even more fascinating is that we get a down-to-earth plain person to be a super hero.

Not this

but this

the Muslim-Pakistani girl is just a big bonus :D

Con que salga el Cap y Logan yo feliz.
