And then he saw her at a film festival in the South Of France - the blonde starlet who was to provide him with the biggest thrill of his life... the girl he intended to murder...

Another good Chase novel, my favourite and perhaps the most interesting characters sadly did not make it to the finish line but it could be expected with Chase, always a case of good characters, who/how many will die? Far from his best works in my opinion, nonetheless it had moments of brilliance.
