Sara in Montana – A young married woman torn between love & fear, trust & doubt and a desire for revenge. Will she make the right choice?

What happens when a California girl in the middle of a crisis meets a Montana guy?

Sara wished for a husband for Christmas this year and then married her boss. Now she is running for her life from him with a warrant out for her arrest and really needs a miracle to save her. To top off her week, she finds herself in the middle of a Montana snowstorm and sicker than she's ever been.

Trent quit the FBI to return home and became a sheriff. As the most eligible bachelor in Castle Peaks, he's had his share of women chase him, but has been disinterested; until now. He has a sworn duty to protect the town's citizens and assist other agencies in doing the same. When faced with a suspect in a criminal case, will he make the arrest or lead with his heart?

Join Sara Brownell as she runs for her life, she runs straight into the waiting arms of local sheriff Trent Harding. Throw in a life-size nativity and plenty of snow and watch the magic of Christmas come to life.

See how Sara forever changes the lives of Trent as well as those around him.

On the plus side this was a clean...something. It wasn't a romance because there was too little realism for it to be about actual relationships between actual people...more like a fairy tale or childhood Barbie fantasy where everything turns out magically perfect, perfect, perfect. It didn't start out too badly but really got worse and worse as it went along and by the time the ending nears, silliness started rushing in at an almost breathless rate. There was a lot of internal inconsistency, like the heroine had poor vision, sometimes far-sighted, sometimes nearsighted, but she was able to drive without glasses. The book said the town was so small that there was no motel or B&B, then suddenly they are borrowing a bed from a local B&B. Then it turns out the town is the only place in Montana where you don't have to go before the County Clerk with ID to apply for a marriage license, and after popping the question you can get married instantly! I hate loose ends as much as anybody, but sometimes you can tie things up too tightly with just too many pretty little bows.

This was a quick and enjoyable read. Oh, and if you don't know, this girl is beautiful. The whole town thinks so. As you can tell, that is my biggest peeve. The main plot kind of ended before we even knew it and the writing was a little juvenile for my taste. But it was still good and very quick to read.

Trish says

I do not understand these high reviews. This came off as a very amateur story in desperate need of an editor: there were several places in the Kindle version that were missing words (and one place that is missing a few paragraphs! - location 552)

It's a clean story and hints at Christian themes, although there is no mention of the characters having a personal faith.

But to sum up: Sara marries her boss after a whirlwind romance, then overhears some things, realizes that she's gotten herself into deep doo-doo and goes on the run. She uses her credit card but no one ever shows up in town (the happily-ever-after comes way too easily)

Then, the ending. (view spoiler) That was just too much to swallow for me, and I won't be reading anything else from this author.

Sara in Montana was a nice, clean romance story with a good story behind it. I was able to picture both Sara and Trent very well and they were very likable characters. I enjoyed the writing style and the pace of the book. There were a couple parts in the story that I thought if written a little differently it could have been

better but I am glad I read it. Overall I really enjoyed this book. This was the first book by Morris Fenris that I have read and I look forward to reading more of his books. Very pleased with the book and it is worth the read.

Christmas Magic

Beautiful love story, with some amazing characters. This story delivered on the Christmas spirit. Sara showed her heart in her willingness to help the Mercers' debilitating disease. No spoiler here other than how much your book was enjoyed. Thank you, Danny Scott.

Great

She's running from bad guys and ends up sick and cold in the middle of a snow storm in Montana. He is the sheriff and trained by the FBI to help with there safe house. He ends up helping her in more than one way and she ends up helping a wonderful lady and falling for the sheriff.

Kara says

“Sara in Montana” is a touching novel about love, overcoming obstacles, and celebrating the spirit of Christmas.

On the run from an abusive husband and feeling sick and exhausted, Sara stops for cough medicine at a store in Castle Peaks, Montana. And this one detour changes everything. At the store, Sara meets the town sheriff, and through him, eventually ends up with a safe place to stay, and the knowledge that her husband is more dangerous than she ever imagined.

“Sara in Montana” is a great love story reminiscent of a Nicholas Sparks book. The book has a thrilling edge of suspense, the characters are likable, and they are easy to fall in love with. The snowy small town setting makes it the perfect Christmas romance.

I highly recommend “Sara in Montana” for fans of romance, Nicholas Sparks’ books, or for anyone who just wants to read a great book this Holiday season.

Judy Marie Florence says

Sara leaves California because of a complicated marriage. The book starts as Sara is running away, and finds herself in Castle Peaks, Montana, sick and snow everywhere. She needs medicine and stops at a service

station to get some.

Trent, the sheriff of Castle Peaks just happens to be at the service station. He runs her license plates only to find the car has been reported stolen.

He takes her to a doctor, then home with him to stay with him and his aunt until she recovers.

There is a mystery to what happened in California and Trent and the police in California work to solve it. As they solve the mystery, Christmas miracles begin taking place in Castle Peaks, Montana.

I like Morris Fenris writing. I have read quite a few books by him, and have been pleased with all of them. This was a good book. I enjoyed reading it.

Joan says

I had huge problems with this story. Jane's background was so confused that I simply gave up wondering who she was - She was married to a man who was (aren't they all??) killed in Afghanistan and *'his parents had offered her a home after the funeral'* implying that the unnamed husband's parents had offered her a home - totally logical. Then it turns out that Trent's mother had *'welcomed her sister into their home and made her part of the family'* ??? I thought Jane was the daughter in law??

THEN it turns out that Trent moved back to Castle Peaks and bought his parents home from them...making Jane his sister-in-law ???

There were a couple of decidedly ropey scenes before I pulled the plug on this one well before the 50% mark. Sara stops at a drug store to buy medicine - clearly unwell and not fit to drive as well as being totally unprepared for the freezing weather. The Sheriff (do such tiny 'towns' as Castle Peaks have Sheriffs??) sees her, and lets her drive away!!

Then later - after she has been diagnosed with a chest infection and is coughing like a 100 a day smoker, he snogs her. (I cant use the words 'kiss'- there was nothing nice about it at all)

'His tongue demanded entrance to her mouth and with a sigh, she complied and gave it back.'

EUUUUUUUWWWWWWWWWWWWWWWWWWWWWWWWWWWWWWWWWW

She has a chest infection!!!

However, the real problem with this book is the atrocious formatting. Chapters with (as usual) indents and no gap between paragraphs, other chapters with indents AND gaps, paragraphs that were justified followed by unjustified.

In the end it all became too much and I dropped out. Not recommended for anyone who likes their reading to be well-edited and presented.

3.50 RATING- So what's a trashy girl like me doing reading a nice book like this? An accident, I swear => I didn't realize when I downloaded this freebie that it was a clean romance with Christian overtones or I would have skipped over it. I just happen to enjoy my books a bit on the dirty side. Still, the woman on the run storyline and shorter length pulled me in and the book ended up being okay. I'm just going to mark this as read and move on to my normal smut!

Just a note, I didn't feel that the book was overtly religious and I didn't feel like a non-believer would find this book difficult to read. Just my opinion, others may feel different.

Catherine says

This book was a struggle in spite of its short length (as evidenced by the fact that it took me so long to read). It was really hard to read considering the near constant head-hopping. We'd start out a scene from one character, then two paragraphs later jump into the head of the other character, then a paragraph later jump into another character... ad nauseum. It was REALLY hard to keep characters straight because of this.

Second of all, the plot was pretty terrible. It had the potential to be interesting... a newlywed bride runs away from her husband after something bad and ends up sick and stranded. Turns out, her husband was involved in drug running, and everything (and I mean everything) that could have been interesting about this novel involved that storyline and it was all literally taken care of off page and was very neatly tied up with a bow at the end. The utter convenience of the danger and drama kind of made me go "Eehh?"

Not to mention the fact that the two leads have insta-love that would do a bad YA dystopian proud. I have no idea why these two people like each other. They're vaguely good looking, I guess? There's even a scene at the end where it says something like "Trent and Sara's relationship flourished". I guess? I mean, he did make out with her after knowing her like two hours and after she was diagnosed with a nasty infection (which didn't seem to bother her much after a day or so. Lucky jerk. I'm always sick for days and days).

Oh and lest I forget.... (view spoiler)

So, if you couldn't tell, I didn't like it.

Not Christian Fiction

I thought there was a good story. Lighter weight is fine for me. But it showed up as a suggestion for a Christian Fiction book, and didn't end up that way. People are mostly pure and wholesome, but tongue with kissing isn't generally a Christian Fiction standard. That was my first clue. Still, a romance dealing with

Christmas... even had a nativity scene.

Nancy Stopper says

I could get past the first chapter. The authors switches points of view about ten times in the first chapter between about 4 characters, sometimes for only a paragraph at a time. I could not stay with the story for trying to figure out whose thoughts I was hearing.

Laurie says

Sweet, a bit of a stretch in the story, something to relax with. It didn't make me want to read the other books in the series, which I always do when I fall in love with a story, story teller, or character.

Jackie says

Though there's nothing really mentioned about religion or Christianity, but this is a clean read that has a feel of some Religious type books. It also has a Christmas wish type vibe to it. The story had potential to be better. The flow was a bit stop & go. The whole thing felt rushed (from the beginning to the end) & wistfully unbelievable. The problems all solved too easily & they fell in love too easily for both being such cautious daters in their past. Both characters are likable. The wording thru the whole book seemed awkward, not having a natural "speaking" type of flow to it.
