## **Tattoo My Heart** Mia Dymond

It all began with a sixth shot of Tequila ...

Independent, carefree Annessa Dupree knows she has a knack for attracting trouble but doesn't realize her true talent until she witnesses a wedding day murder. Armed with the terrible secret, running home is her only option.

Sheriff Casey McIntyre has loved Annessa since the tender age of twelve, trouble and all. Hell-bent on mending past differences between them, he welcomes her home with open arms.

When Annessa is forced to reveal the real reason for her return, Casey must save her life while earning her trust.

### **Nicki says**

#### **Mystery but more steamy than mystery**

The mystery would be a short story. But steamy scenes made the book into a much longer read. If you don't want sexy skip this one. I liked the book, steamy and all.

---

### **Desiree says**

This book just wasn't doing anything for me. Everything sounded lame to me. I didn't like the opening scene, I did NOT like the leading bimbo/'hellion' twin women, I didn't like the direction the book was going (right off the bat). So after reading for an hour I decided not to bother, plenty of fish in the sea, no reason to force myself to read this thing.

---

### **Marie says**

Lots of tequilla and crazy, flirty fun!

All of Seaside Point know that trouble follows the Dupree twins everywhere, especially Annessa. Sheriff Casey McIntyre has spent as much of his life rescuing Annessa as he has loving her, but she was too young before and then she ran from him and Seaside Point. Now she is finally back he will do everything in his power to not only slay her dragons to keep her safe, but also prove his love. Show her that they belong together and always did - however for Annessa there may not be enough tequilla in the world for her to trust her heart to Casey again.

Join them on their crazy journey full of drama, girls night stripping, danger, tequilla, steamy clinches, long suffering brothers, sex, mafia threats secret rendezvous' and of course a wedding!

I enjoyed this first book in the series which is a free download and look forward to more crazy antics in further books.

#### **Smoking Hot Sheriff**

What a great start of a new series!! Annessa and Sheriff Casey are a super hot couple. He has watched her grow up and has always loved her. She loves him and saved herself for only him. They have to learn to trust each other. Annessa has come home after witnessing a under, but doesn't tell anyone. She tries to handle it all by herself. Casey wants to help her, protect her and solve a her problems. This is a very sweet, suspense story with a hea. I highly recommend this to everyone.

---

## **CJ says**

A pretty good book. Short with some tension, danger and lots of loving.

---

## **Lenna Wright-Berry says**

Was there a book prior to this one? It felt like you jumped into the middle of this, reading deals that I have no idea about. I felt lost in the beginning. Didn't feel skipped around was told in both p.o.v. But with additional of her brother Travis and his lady friend the doctor, Verity.

Casey knew Annessa for as long as he was her brothers' best friend. But he's been in love with her for 12 prior to the time in this story. He broke her heart when she was 17, then she ran from her home, family and friends. Now she's back home but with trouble following, and she wants Casey to protect her and take care of the men that followed her from CA to GA but she won't sacrifice her heart again to him. Can Casey convince Nessa that he's in for the long run with her or will she run from love?

---

## **Steph says**

Awesome story

---

## **Deb Diem says**

Tattoo My Heart by Mia Dymond is a contemporary romance. Ms. Dymond has delivered a well-written book. I love the characters and the humor in this story. This is a fairly quick read, perfect for those with limited reading time. Casey is the town sheriff. Annessa stayed away from town to avoid Casey. Their story is packed with drama, humor, smokin' hot sex, action and suspense. I enjoyed reading Tattoo My Heart and would be happy to read more from Mia Dymond in the future. Tattoo My Heart is book 1 of the Heroes of Seaside Point Series but can be read as a standalone. This is a complete book, not a cliff-hanger.

---

## **Emily says**

When Sheriff Casey McIntyre is called to clean up a bar ruckus, he should have known that Annessa Dupree was involved. Annessa is the girl he let get away, he had always hoped he would get her back but her stubborn temper would never allow him a chance to explain why he did. Now that she is back for her twin sisters marriage, he plans to lay it all out and never let her run from him again. It should be an easy plan, but Annessa is involved and she has brought her own brand of trouble which involves two goons trying to get her alone and take back something she has.

I gave this a 3.5, I liked it but the end kind of wrapped up strangely for me. The beginning is hilarious and Annessa is a handful, Casey has his work cut out for him for sure. Entertaining light read.

## Malinda says

3-3.5 stars

This was an enjoyable story. I liked Annessa and Casey and liked their story. This is the first story I've read by this author and I liked it well enough that I'd consider trying more of her work.

Annessa is a wedding planner in LA. She grew up in a small town in Georgia with her twin sister, Vanessa, and an older brother, Travis, who pretty much raised them after their parents died. Travis' BFF, Casey, helped raise Annessa and Vanessa and once Annessa got old enough, she fell for Casey and wanted more. When he refused her push for more (when she was only 17) she decided to move away to LA.

Casey is the police sheriff for his town in Georgia. Casey entered the military when he was 18 but also helped to raise Annessa and Vanessa before that and when he was on leave. When he left the military, he joined the police force and has been hoping that Annessa would come home ever since.

Annessa was working a wedding when she saw a murder and ran. She didn't think anyone had seen her so, (under and alias) she booked a flight home. Annessa told everyone that she came home for Vanessa's engagement party but she actually came home to regroup while she figured out what to do. Annessa, Vanessa and their friends hit the bar to celebrate and the booze pours a bit heavily causing Casey to get a call to break things up. Casey is surprised to see Annessa home but is happy to see her and hopes he can get a chance to talk to her about what happened between them 7 years ago.

Basically, Annessa and Casey clash a bit but they have a strong mutual attraction which makes it difficult to ignore each other (not that Casey wants to). There's a lot of back and forth as Annessa tries to push Casey away, apparently deciding that since he rejected her at the age of 17, they can never have anything in the future (or if they do, it will mean certain heartbreak for her). Casey wants to convince her that they could have something and works on it. Unfortunately, it ends up that danger is stalking Annessa and she doesn't have sense enough to tell people when stuff starts happening. Fortuitously, the issues get too big to be covered up and the danger to Annessa comes out. Casey works to protect Annessa while trying to win her and things seem to be going well once the danger is taken care of. Unfortunately, Annessa is a bit of an idiot because she almost ruins things. Thankfully, Casey gets some good advice and doesn't allow her to ruin things after all and they end the story starting on a HEA together.

This was an enjoyable story overall. Annessa was a mostly likable character but she was a bit annoying at times. The main thing that bothered me was that I just couldn't see how she came to the conclusions she did and why she was determined to end things the way she tried to. I was actually heading towards a 4 star rating for this story but Annessa's confounding attitude and her actions at the end definitely brought it down for me. I liked Casey as the hero. He could have been a bit stronger when it came to Annessa but I still liked him. Overall, the story was pretty good.

## Christy says

It's not the deepest book in the world but I enjoyed the short read. It's your basic story about a girl who

always seems to find trouble being saved once again by the love of her life who rejected her long ago because he thought she was too young. The characters are good enough, the chemistry is interesting, the writing is good. It's predictable but interesting and well-done. My biggest frustration with this book was the fact that despite Casey telling her that he loves her and can't stop thinking about her, she struggles to forgive him for rejecting her seduction attempt years earlier, even though she hasn't moved on and loves him. If you save your virginity that long for one guy, and then he tells you why he turned you away and that he loves you, what are you still pissed about? I just don't get it. Otherwise, a good book with a strong hero and heroine. Not too cheesy.

---

### **Janet Holderman says**

#### **Good love story**

It was a good love story. Not overly mushy. Had some suspense and murder as well. Characters were believable small town folks. The sex was very hot

---

### **Peni says**

Let me say up front, I liked this story and all the wonderful characters included but there were a few problems.

I found the characterization to be good overall. The beginning is confusing but I believe that was intentional. Annessa was awfully calm after having witnessed a murder which sent her running home. I was confused trying to understand if she was there for the wedding or due to the murder. It took a long while to decided it didn't really matter in the end. I believe it would have been better to be clear on that to begin with, would have cleared a lot of things up and wouldn't have been hard to do (says the non-writer).

I loved the relationship between the twins. If only all sisterly relationships were that loyal and supportive. In fact, all the relationships were pretty cool. The four boys raising the twins who really had them all twisted around their finger the whole time, led to some funny episodes.

I recommend this story to 14+ due to adult themes.

### **Emily (Mrs B's Books) says**

#### **3.5 STARS**

This book has a multiple POV. We have our main characters Annessa and Casey, we have Travis and Verity and we also have our baddie in italics.

It would have been better from just our main characters points of view and the baddies, I think that adding Travis and Verity didn't help but it does let us know them more as they are the main characters in the next book.

You can tell right from the beginning of the book that Annessa is trouble and the Casey has long spoiled her. The whole thing about her being pissed at him for so long, yet never given her 'V' card to anyone else however at the age of twenty four, I didn't get that.

The story rolled well progressing to our capture of the baddies and the eventual HEA where Casey final puts a foot down and man's up a little in his relationship with Annessa.

The sex scenes are fairly hot, but there is lots of build up in foreplay in other scenes as he respects Annessa enough to not go the entire way before she is ready.

The epilogue ends with Verity and Travis beginning a new lot of trouble brewing from Verity's side.

## **Diane says**

### **Good short read**

Short story which had lots of characters and interesting storyline.  
Not sure if it's part of a series as more than one couples storyline.

---
