Erin says

I had so much fun with this! Pink Flamingos is one of my favorite movies and I already knew most of the lines but I couldn't resist anyway. I have never had the balls to sit through Desperate Living, but now that I've read the script, I just may have to do it! And...the unfiled sequel to Pink Flamingos entitled Flamingos Forever...oh, how I wish that had been filmed! I laughed so hard...John Waters, you rule!!!!!!

James says

Reading the script for "Flamingos Forever", the sequel that never got made, is totally worth the price of this book!

Gunnar Hjalmarsson says

John Waters er bestur!

Sophiaalmaria says

Almost as good to read as to gouge your eyes out to.

Tom says

The original screenplays for the legendary Pink Flamingos, Desperate Living and the never-made sequel to Pink Flamingos. For fans only.

Clelia says

Delightful. Made me feel warm and fuzzy inside. Celebrations of freakishness and deviancy. It was also a treat to read the screenplay for the sequel to "Pink Flamingos," which never got produced -- I was able to imagine all of the sets and characters vividly in my head. But I agree with what John wrote in his introduction, there was no way he could have found an actor to replace Edith Massey after she died.

Bradley says

With an incredibly funny and insightful introduction, Waters delivers three complete screenplays for his biggest fans to enjoy. Included in the collection are screenplays for the ultimate midnight movie “Pink Flamingos,” his underrated commercial bomb “Desperate Living,” and the unproduced sequel to “Pink Flamingos” entitled “Forever Flamingos.” Waters encourages audiences to act the films out for friends, recite along with the film, or simply read it and take in the written nuance. Included are also behind-the-scenes photos.

Released in 1972, “Pink Flamingos” stars the legendary Divine as her title of Filthiest Person in the World is challenged by a married couple who think they embody pure filth. “Desperate Living,” released in 1977, stars Mink Stole who is banished to live in a garbage city ruled by a vicious queen who wants to give rabies to all the lesbian citizens. And “Forever Flamingos,” the abandoned sequel to “Pink Flamingos,” sees Divine’s return to Baltimore after 15 years of living in bus station lavatories where her title of Filthiest Person in the World is challenged once more.

Emily Hill says

Even funnier on paper, if you can believe it. John Waters movies are shocking, yes, but the text is straight-up brilliant. If you are a fan, read this. If you're not a fan, read this and get back to me.

Carrie says

Look what Trish gave me for Christmas! Signed by Mr. Waters too! Sweet!
