Worst of the Uncle Johns Readers.....I feel ripped off. I have probably bought 15-20 different ones and "used to" recommend them.

This is exactly what it is. Read it in the john. Take your phone, there might be something to google about because this made your brain think.

Loved the fact for each page!

Roger Smitter says

A fun read without much mental stress. The lists are so eclectic (travel and leisure, winners and losers, life and death) that there is probably something that you would enjoy. At the same time, it's too easy to turn the pages to find the next crazy list.

And, yes, it is brought to you by the Bathroom Readers' Institute, All part of the fun.

I love a book of lists and this was no exception! The more obscure the fact, the more I like it. Great source of trivia to share with friends. Recommended.

Another in the Uncle John bathroom reader series. I've read several of these and they are all good, although some better than others. This one was various lists. Some I enjoyed and others I only skimmed through. I don't remember anything that particularly stood out. The nice things about these books is they are good for what they are designed for -- reading in the bathroom. The format also makes it easy to skip things you don't care about. I'll likely be getting another bathroom reader soon.
