Irene Scallon says

After having read Revelations from Hell---I really needed to read about heaven.

Hetty says

A very good book !!

This book has connection with book with title "HEAVEN is so real" by Choo Thomas.

It prove that Heaven is really so real.

Because Lord JESUS HIMSELF show HIS children about heaven and want them to testify to the world.

HE wants all human to come to heaven and no one will perish. So, if you know that you will go to heaven, you must life obedient , faithful and true. The most important thing is to accept Jesus Christ as your savior.

Emily says

Knowing I have loved ones in Heaven. I decided to study more about Heaven.....The best source of course is the Bible.....But I wanted some more material about Heaven. This book was interesting and got me thinking.

Again one of the book written by Mary K Baxter and I thought I would be reading something really good. However, I didn't find the feel of Heaven as she describes it in this book then I did when she wrote the book of HELL. That book you can feel the fear of HELL. Again a bit disappointed. However, I did enjoy the last few chapters of the book as she describes the new world is coming, the return of Christ and the Lord's final plea.

A Divine Revelation of Heaven

PLOT: In essence, the plot is about Mary Baxter getting called from Jesus to go on a 30-day tour of hell (different book) and a 10-day tour of Heaven. (HMM)

MY THOUGHTS

STRENGTHS:

*On one hand, this book depicts the most beautiful imagery of Heaven. It's just like something right out of a dream. We get this painted picture of exquisite marble mansions, pearl gates, constant praises filling the air

like music, and the sounds of beautiful instrumental melodies being played. Everything (the atmosphere and the people) are filled with joy, peace, and perfection and everyone has a purpose. There are angels that rejoice and are always demonstrating the Lord's love for us.

*You could definitely envision this place through the power of her words and be won over and think WOW! This is definitely where I wanna be and what I wanna see when this earthly life has ended! She does paint an amazing picture!

CRITICISMS

*But here's where my praise gets thin.

*As I was reading this beautifully written story a little feeling in the back of mind begin to pop up called doubt of the believability of this story. Yes, I am a Christian and I do believe in Heaven. I also believe that God sometimes accomplishes things through people. But it's kind of a stretch for me to believe that Jesus so strongly needed Mary Baxter to record in a book what Heaven is like when it's already recorded in Revelations.

*A lot of times I found myself wondering if she's just taken the scriptures (because her scripture references are very accurate to what she's describing in the sights she saw) and spun them and embellished this fantastic tale.

*She seemed to go to lengths in this book assuring us that this was the purpose of Jesus showing her what Heaven was like. So she could record it all and come back and share it with us. As if we believers would really need any persuasion from her. Thus the book's believability is wonky so to speak.

*I do know that Jesus has presented before people just like he did the Disciples when he came back after he died on the cross but did he take this lady on a 30-day tour of hell and a 10-day tour of Heaven to get us to believe in Heaven and Hell? Umm. Ok. Not buying it!

*If she did that just to make a profit and sell this book I think that's a SHAME! She even goes so far in her story to quote supposed things Jesus said.

*Did the events of this book *really* happen? I suppose only Mary Baxtor and Jesus know for sure. But if they didn't I have no words.

Rating: I'm not even sure what to rate this. As far as descriptiveness and content go it's a 10. But if all this is falsified it's an O. Feels like I should call it "a beautiful lie" because I'm sorry something just won't let me believe the accuracy of this.

Pagika Benjamin says

I own a copy of this book, however, I tend to write notes in my books, so I wouldn't recommend that you read mine.

Anyway, LOVED this book. Currently it's in my sister's possession, otherwise I'd be referring to it every now and again. Every heavenly experience in this book is backed up by scripture. The visions are remarkable and TRUE. I dare you not to close each chapter without a wearing a goofy grin.

Jean Pierre says

Wonderfully written. Like her other story A divine revelation of hell it coincides with a similar account of someone else who has been to heaven which lends some credibility to her account. I could not put this done

as the description of heaven and the ministry of angels was so awe-inspiring that I could not help but smile. All you saints who have accepted Christ Rejoice for if she is right we have a grand home to return to.

Carol says

Mary Baxter's documentations of heaven and hell are very insightful and beautiful to those searching for information about these places. Her book is a classic.

Lydia Thornton says

Very Good book highly recommend it, its heart lifting brings you close to the savior and flings you into heaven its real reading and a real witness to the afterlife.

Tanya Brownley says

Good book, I got to see Mrs Baxter in person after reading her book.

Maranda Burkett says

This book is the 2nd book after "A Divine Revelation of Hell" - have to read this book after you read the hell book, it makes you feel a lot better after you read the book about hell.

Penny says

Expansion on her visit to Hell, she also was given a look into Heaven. Has Biblical references throughout. Loved this book. Personal experiences of my own to compare to hers. Wonderful!

Erica Rios says

This book will bring joy to your heart. The author was also shown parts of Heaven...this is the one who was shown parts of Hell also. The way she describes the things she sees will truley put a smile on your face. Must read.

Janelle says

Divine Revelation of Heaven reminded me of John's account in the book of Revelation where he is sent to an

island in a dream, there he began to see visions of God and the coming of the end of the world. Mary Baxter talks about her experience of Heaven and how she hears children laughing and singing. She paints a vivid picture of what she sees in heaven. This made me as a reader feel as if I were there and that the presence of God was so tangible. She described every detailed from the tears of those who cried out to God from the earth that the angels saw to the sounds of the flowers blowing in the breeze of God's glory. Though we as the audience do not know if this was fact or fiction encounter it was a good read. This writer helped me to step out of my comfort zone and use different styles of writing.

Jennifer Defoy says

I had heard about this book from a co-worker, and at the time I was on a bit of a religious kick. So I got the book and I was amazed. I don't think it took me very long at all to read. I remember reading it thinking of the mysteries of God and how life works. Mary Baxter didn't ask to be shown these things, and the strain that it put on her life had to be great.

Now I have read reviews where they think that Mrs. Baxter is a liar and that she made this all up but I think that it's almost to crazy to not be true.

Overall I think it was a good book, it was quite eye opening also. I do want to read Divine Revelation of Hell but I have to be in the right mind set to read it. What this book did to me mentally I can't even imagine what will happen when I read the next one.

I don't remember too many specifics but I do remember being awed by the magnitude of what she was saying. I think that for some this book may be hard to swallow, but I think the majority of people can appreciate this book. Even if you don't agree with what she is saying and how she says it happened I would hope that it's something that would make you stand back and think about it.
