Bailey's Great Escape

Bailey's Great Escape is a heartwarming short story about one of the smallest puppies with the biggest hearts. Bailey is determined to free his friends and family from the horrible puppy mill that they've been forced to live in.

This touching tale of a neglected dog shares his experiences in his own voice, taking readers from his days of neglect, to the shelter, to a home filled with love. Follow him on this extraordinary journey and fall in love with a new hero.

Bailey shows that it's not the size of the dog in the fight, but it's about the size of the fight in the dog! Enjoy!

Sometimes the world moves too fast, and we get a flash of anxiety. That is the time to talk to your dog,your dog will listen,care, understand,and not judge.

If you are not blessed to have a dog, you pick up this book. I was taught at age 2,spell GOD backwards.

A very sweet story that could of had a really sad ending.

A very sweet story that could of had a really sad ending.

This was a really nice short story. perfect for reading to kids in 2-3 grades and to read by themselves depending on the child, by 3rd grade.

A STORY about a poor little puppy born in a puppy mill who was near to starved by time he decided to try and rescue his family by escaping and finding someone to help. He had some real hardships along the way, had lots of scary things happen to him and went for days without food. Just when he didn't think he could walk another step, and collapsed by the side of a road, a young man finds him.

Without telling you the whole story all I can say is that I'm glad Bailey's story had a happy ending. I wish I could be like Bailey and save every animal born in a mill, are being neglected or abused. This story ends with the moral; If you don't ever give up, even when things get bad, you can help make a change in your little world.

Lame

For that I wasted my Prime book for the month? And what is with the dozens of highlighted sentences? Not one was of any importance.

Michele Pariseau says

The runaway

I thought it was a good story about puppy mills.Any puppy living in one would want to leave.They are no place for any animal to live that's for sure!!!! I'm very glad that Cassidy called for help because a lot of people would not.She was brave to do so.

Kate says

Brylynn Bourque says

Luv it.

I completely love it and me nor mom r dad like dogz but my lil sis does and when her friends told her about the book she asked me for it so I said yes and she read 'bout 5 min. til she asked me to read aloud to her so I said sure and once I finished reading it to her I asked my mom if we could a puppy and she said no so I showed her the book and she didn't know that every single day dogz r dying b/c of puppy mills so she brought us to look at dogz at petsmart and she saw a black Labrador retriever puppy and a collie and an Australian shepherd and felt so bad for them she brought all 3 of them one for her 1 for my sis and 1 for me. So mucho gracias for whoever made this book
