I loved this book(: I'm not usually into sappy romance novels, but this one had me not wanting to put it down. It was an entertaining book that proves true love can conquer anything, even the problems interracial relationships can bring.

Love this story

Absolutely love this story. I bought the book a while back and lost it during a recent move. Thank God it was available on Kindle. I definitely recommend.

Instant Loving Family

This is the first novel I've read by Cheryl St. John. And I was very impressed. She spun a wonderful tale of tragedy, triumph, trust and true love. This was a fast-paced page-turner, that I was caught up in from beginning to end and even though I couldn't put it down, I hated that it ended so soon. A sweet and endearing tale that crept into my heart and warmed my very soul. This story had unforgettable and heart-warming characters and the emotional depth of the storyline just flowed effortlessly. I enjoyed watching Justin and Meredith's budding friendship bloom into a full blown love affair with great promise for both of them. Ms. St. John also handles the interracial relationship and Anna's mixed heritage in a very mature and respectfully understanding manner. I not only fell in love with lil' Anna, but with Justin's sons Lamond and Jonah, who didn't seem to see the color at all and only offered instant friendship to Meredith and her baby girl. A thoroughly enjoyable read!

To be honest, I wasn't expecting much from this book considering it is a Harlequin type. The book is written well enough, but it failed to really capture my attention. I mostly kept reading out of determination that I would finish at least one book this week.

The story is about a Meredith, a white woman who was accidentally inseminated with sperm from a black male, resulting in the birth of her biracial baby. The clinic whose negligence resulted in the mix up sent her on a paid vacation, where she can reflect on whether or not she wants to sue the company. At the same time, Justin, the clinic's lawyer, is staying at the same resort with his two young sons. The two meet and connect, not realizing their connection until it is too late.

My biggest problems with this book--as with most other romance books--revolves around the heroine. She runs away from her bigoted mother, because she apparently doesn't know how to stand up for herself and tell the woman to back off. She is also super sensitive about being stared at while out with her biracial baby. I get that people are insensitive, rude, and/or overly curious, but the woman needs to learn how to cope.

There were other problems but I don't have time to go into them all.

In the end, I skimmed the last few chapters. If you're into HEA, you won't be disappointed.

I won this through Goodreads First Reads, and received my copy shortly after with a nice note and signature from the author. I have read and enjoyed Cheryl St. John's books before and I always enjoy them. This is my first contemporary romance by her that I have read and like her historicals she writes a sweet, refreshing romance that will leave you with a smile on your face when you finish. This book centered around an interracial couple, and while I've read interracial romances before they're not as common and always a treat. If I had one complaint about the story it is that the main characters are almost too perfect, which for me can make them border on boring. The external conflicts saved the read for me, I was curious how things would turn out with Meredith's mother, who did not respond well to the fact that Meredith had an interracial baby. I was also wondering when Justin's affiliation with the Children's Connection would come to light and how Meredith would respond. I was definitely happy with the resolution of the story and recommend this to anyone looking for a light, easy romance to entertain them.

This book was part of a series by a number of different authors. As I hadn't read any others in this series, I was a little lost as to the cast of characters. Nevertheless, I did quite enjoy this story.

A well written story. I liked the interracial aspect because it was something different. I do get tired of the same old story lines sometimes. This aspect was well handled I think. This wasn't as extreme as it could be since they both came from similar backgrounds otherwise. The AI baby story was also interesting.
