Descent

Tom Dawn

Descent Tom Dawn

Things went wrong for Marc very suddenly. Losing his best buddy and a dream job has left him traumatised, grief-stricken and desperate to escape his inner demons.

When he meets the wrong person, he is easily exploited, and walks blindly into an intrigue. Before long, all the social, moral and existential certainties of his life have evaporated. Does he have the depth of character to drag himself out of the mire, or will this destroy him finally?

Through a bizarre twist, external events offer him a new sense of purpose. Could redemption come from outside, instead of within himself?

This book explores the devastating impact of guilt and personal manipulation on a man at his lowest ebb.

Louise Wardell says

This book is a page turner. Marcus loses his friend in a diving accident so goes back to his brothers. Marcus gets drawn into his brothers' affairs and the plot thickens.

Sandra says

Good read great characters 4 or 4.5 stars

Antara Bhattacharjee says

Kudos to the team of the author – Tom Dawn - for ensuring that the book reaches me on time. It came to me from the UK & the author's team ensured- with their immaculate tracking of the packet & following up with the Indian Customs – that the book arrives at the right door-step.

Guilt-ridden Marc (Marcus Miller) finds his way back home to his brother, Magnus, after the accidental death of his best friend Pete, that he had to witness at work. Dazzled by his brother's girlfriend, Izzy's (Isidora) beauty & dynamism, Marc ends up having an affair with her. Eventually his crush manipulates him to swap identities with his brother & leave the country to buy Magnus some time to finalize the best deal.

With his inclination towards cryptography & knowledge of math, Magnus has somehow managed to hack the internet, which might bring down major global consequences. The government wants to keep all this a secret and ends up bugging their house and even tailing them 24x7. Finally, Izzy comes up with a plan to let Magnus scoot the country to the US, with the identity of his brother & meet the organization to get his publications financed. All goes well until the bad guys show up. In the end Marc finds his true love & everyone lives happily ever after!

Descent has every aspect, that a blockbuster movie demands of. There's kidnapping, fighting, killing, blood, sea, love & romance....how about adding few songs to it? Tom? Any thoughts?

One thing I liked about the story –

A very meticulously put together content by the author, adorned with perfect timing & placement of the characters.

& of course, the protagonist's profession – sea diving - deep sea diving!!!

Although, I was hoping to read down the book, more about the sea & diving, but it seemed that the story demanded otherwise.

One thing I did not like about the story-

It seems like, Marc is a confused soul when it's about women - as he ends up, either hitting or sleeping with each one of them, whom he comes across, in the book (eg; his best friend's pregnant widow Amy, his brother's girl-friend Izzy, one of his landlord's niece Milena). And to be honest, it gets somewhat irrelevant at times.

In conclusion, published by Pomegranate at 280 pages, **Descent by Tom Dawn** stands good to “*explore the devastating impact of guilt & personal manipulation on a man at the lowest ebb*”

Soozie says

This was pretty good - easy to read and fast moving. The main character Marcus is a bit of a flawed hero. He nearly lost my sympathy earlier in the book, but I came round to him by the end. I might have been interested to know more about the work his brother Magnus was doing, although maybe my maths wouldn't stand up to more explanation. I see there is a sequel in the pipeline, which I'm looking forward to.

Pearn says

Draws you in from the start following a sudden traumatic death. Vulnerable and at a low ebb, Which way will he go?
Fast moving and an easy read. A touch of darkness about it. Gives you plenty to think about.
Looking forward to the next book.
