Just okay. Hits my big pet peeve - the licensed characters aren't part of the "story," they're just there to sell the book. Also, there's no story. Each page has a sentence naming two colors, and then a bunch of things on the page are labeled. So it's nice that it touches on both colors and beginning vocabulary, but having two colors per page means a Very Small Person will need lots of help and guidance from the grown-ups until they get the hang of the colors.
