Mindy says

I gives this book two thumbs up. He thinks Noodles is so funny and can relate to him.

LeeAnn G says

Getting over being grumpy is a good thing to do especially when you have a friend.

Doris Lucas says

This story is about a dog that is really grumpy. It shows how students should deal with their feelings even when they are not in the best of mood. I found this book to be very funny as well when I read it out loud to my daughter. She loved the part when it said, "The dog yells "leave me alone!", "go away". This book would be perfect for a preschool/ kindergarten class.

hellothisisbarbara says

Research read! This is a Level 1 Beginning Reader from Scholastic. It has sight words and words that describe feelings. Very good for pre-k and kindergarten.

Diana Pettis says

Guided Reading Level H/ Lexile Level: BR: Word Count 81 words.

In this text, the dog is very grumpy. What do you think will happen to make him feel better? Very good for first grade readers and also part of scholastic and a noodle reader.

Slayermel says

This is a cute book about a dog that's really grumpy. I found the story funny as I read it out loud to my preschoolers. The dog yells "leave me alone!", "go away" all the usual catch phrases you hear the children say from time to time. The children thought it was hilarious and could not wait to see what the dog was going to do on the next page. The Kindergarten age children I have like the book as they can recognize a lot of the words, and have started sitting in the book area reading to themselves. :0)
