Jim C says

This is part of a series and is part of the Dragonlance realm. This series must be read in order. In this one, Maddoc finally gets his hands on Nearra and he is that much closer to achieving his goal.

This series is for young readers and it does read like it. That being said, this book is enjoyable and has some well formed characters. One of the things I have always enjoyed about Dragonlance is that not everything works out for our heroes. This book continues this tradition and I look forward to the new path this book is leading us down. There is also a return of a beloved character from the first book and it is a pleasant surprise.

The books in this series are a quick, enjoyable read. They accomplish what they are meant to do. They entertain while introducing new readers to this world.

ExcaliburSonic131 says

Really bad turn of events between Davyn and friends near the end of the book

Conan Tigard says

This is the book I have been waiting for. What will happen when Asvoria emerges? Will Nearra be able to fight her off, yet gain the evil sorceresses powers? Or will Nearra be forever trapped inside her body without any control? Will the five be joined by Ayanti, the centaur? Wouldn't that be cool? Return of the Sorceress by Tim Waggoner (author of the first book in this series, Temple of the Dragonslayer) delivers a home run with this book.

I quite enjoyed the return of the silver dragon, Raedon, and the plot twists that kept me reading until late in the night. Return of the Sorceress is another excellent young adult fantasy novel published in the DragonSlayer: The New Adventures series that is a must read. Overall, I really enjoyed this book and have become quite hooked into the real fantasy drama.

So, if you are a young reader, or even an adult like me, and are looking for a real Dungeons and Dragons novel, pick up a copy of Return of the Sorceress. And the ending . . . , well, you will have to read it for yourself. All I know is that I have to read the next book, Dragon Sword by Ree Soesbee soon . . . very soon.

I rated this book a 9 out of 10.

Andie says

I loved this series as a child - and now, rereading it, I can see why I did. But, as I've grown, I can see as well many things that would turn me off of this series today. I still think this series is fun - but it isn't brilliant.

Gramy says

.
This is definitely a worthwhile, fantasy, adventure that I enjoyed very much. Would considering rereading the entire series because it was that great!

Sure wish I could afford to buy them on the Kindle.

Would recommend 8)

drowningmermaid says

One of the better ones in the series, but the whole line suffers from the tendency to make the characters 'adults in children's clothing,' rather than genuine children being thrust into difficult circumstances. The romances lack shyness, the killing lacks newness... that sort of thing.

Falls apart a bit toward the end, when a character is thrown off a tower, then inexplicably reappears at the top of the tower, then is discussed as missing. A bit jarring.

Also unfortunately, Waggoner's side characters, like Jax and Ayanti, are much more interesting than the actual main characters.

It really is a pity that they didn't get Waggoner to do more with the Elidor character, instead of Ree Soesbee, who apparently did not know/was not informed that Elidor's parents and history are explained in this book, and the explanation is NOT REMOTELY SIMILAR to what she later outlined in the Elidor trilogy. I am inclined to blame Soesbee for this, and the editor, because she also does careless things in her series like change the number of wishes that a magical goblet grants.
