Rory Clark says

good

Justin says

I owe all of my pronunciation from this book. It is very helpful in that area. If you want to hope to simply blind somebody with your incredible Spanish speaking ability then this would be the book to fake it.

This is an excellent starting point for learning Spanish, but I would recommend to search for something with more of a grammatical approach as learning Spanish can be a tad bit overwhelming.

As your learning matures, move on to other books, and don't forget to find a buddy to speak with. You will learn the most from getting neck deep into Spanish speaking. Challenge yourself; stretch yourself and you will do great!

Gail Brilling says

excellent addition to my Berlitz cds

Diane says

Practicing my Spanish for trip to Cozumel. Need more words for shopping spree. LOL.

Jonathan Collins says

It's ok. I'm not fluent after reading it so there you go. Haha.

Sarah Johnson says

interesting

Vivian says

A good book to get started in learning Spanish. It is also a good book to keep for review, reference, and resources.

David Flapan says

As awesome as this book (and series) is, nothing compares to actual use when learning languages! Changing my email/cell phone/Facebook to Spanish mode helped very much!

Ashley says

NC
Own in paperback.

FS: "If you're familiar with the term "Latin Lover," you may not be surprised to know that Spanish is called a Romance language."

LS: "Learning Spanish is going exceedingly well."

Jessica says

If you were in a specific situation and wanted phrases to say there, this would be a good book. For actually learning the language, it kind of sucks.

Angel Thomas says

here I am really excited thinking That I am going to learn some spanish I couldn't get past the first few pages cause I was so confused I wouldn't recommend this to any one

Isabelle says

Ouais, j'essaie, en espérant l'Argentine l'année prochaine !

Sandy says

Still working on it....Pick this book up from time to time.

Zoe's Human says

Just not effective for me. It may work great for someone else though since we all learn differently.

Jannah (Cloud Child) says

Well this shite and I only had to read a few pages. I dont have to know much of Spanish to see how outdated some stuff is
