Double Wow

A amazing read,full of laughter and thrills.But let's not forget the romance.I couldn't stop reading and laughing.This is one of those books you just can't put down.

Elle says

I should have known better. This type of story is just not to my taste.

This was an ok Christmas story that seemed a little un-realistic to me. Gideon is riding a horse through a snow storm many miles from his home and hears a baby crying. He discovers a woman has just had a baby in a tent and can't remember anything about her life. He's a Navy Seal who lost a leg and thinks he not good enough for any woman. I read the whole story but found it a little unfeasible.

Lauren says

Not the insomnia cure I was hoping for. I was entertained for a full 2 hours.

Monica Cardoza says

This was a read that I had mixed feelings about. The characters were interesting as was the dialogue. There were times that I laughed because Jane Doe was funny, she had a good sense of humor. Then there was Gideon oh my did he have a chip on his shoulder. I knew that something bad had happened to him and there were times that I wanted to reach into the story and strangle him. He was mean with Jane Doe and she didn't deserve that. She had amnesia and doesn't know who she is, what her name is, if she has family or even a husband. It is only a matter of time before she starts remembering but in that short amount of time she starts to develop feelings for Gideon. Gideon is fighting his feelings Jane Doe because he believes that she will not be with a person that is a full person. I couldn't believe what he was thinking he was a full person no matter what just because his late wife couldn't be with him didn't mean that Jane Doe would be that cruel.

The Cowboy SEAL's Christmas Baby was an okay read. Gideon and Jane "Addison" deserved to have a happily ever after.

Ex-Seal Gideon was out on a trail when he hears and cry of a baby and finds a mother who has just given birth. On top of that when he is able to help the women he finds out that she has managed to lose her memory and his ride out to helping them get back to civilization has jettied leaving them stranded. The weather isn't the best in the area but they do what they can to get back. Until a family claims her or she gains her memory back he will help her every step of the way.

The way that this book was going I almost thought that this book was going to be a mystery thriller because the way that it started seemed like it would be. It's not in case you are wondering. Even if its not this booked turned out really enjoyable and I honestly had a hard time putting this book down. I managed to read this book rather quickly in just a day because of all the sweetness that was going on in this book. This book did very well as a contemporary romance and I enjoyed seeing the glimpse into her past in what she has forgotten and liked trying to piece together what she could remember. I loved seeing that connection between the two and from start to end I couldn't help but root for the characters because I wanted to see their happily ever after. Overall really great book I really enjoyed it.

Very good book that had me hooked from the first page to the last. Gideon was surprised to find a woman who had just given birth in the middle of a snowstorm. To make matters worse, she had no idea who she was or how she got there. To top it all off, the horse he was riding was spooked by the storm and ran off, leaving them to make their way out on foot. I was on the edge of my seat as I followed their journey off the mountain, to where Gideon could call for help.

I liked both Gideon and Jane. Jane's fear when she couldn't remember anything about herself was clear, but she did a good job of trying to keep a brave face. She had a terrific sense of humor and used it to hold her fears at bay. I loved her determination to make the best of things until her memory returned. Gideon was a man who I wanted to hug and to smack, frequently at the same time. I ached for all that he had lost and wanted him to stop taking it out on everyone else.

I enjoyed the development of Gideon and Jane's relationship. Though Gideon tried to stay away from her, his protective instincts kicked in when he found out that she had nowhere to go. It was sweet to see him shopping for her and baby Chip, and making a place for them in his house. There were some very adorable scenes of him with the baby. He was also very attracted to Jane but resists that attraction. His ex-wife had

done a number on him when she rejected him after his injury, and now he feels like he isn't a whole man. His pride won't let him risk another rejection, and he is frequently rude and mean when he feels himself getting too close. Jane initially tries to resist the feelings that she develops for Gideon. Without her memory, she can't be sure that she isn't married, though eventually bits of returning memories convince her she is safe on that score. I loved how she did her best to take care of him, especially feeding his sweet tooth. It amazed me that she didn't hit him with a frying pan on those occasions when he was so horribly rude.

I loved seeing the three of them start to form a sweet little family unit. It was obvious that Gideon loved both Jane and Chip, but he let his fears win. It didn't take long for Jane to fall hard for Gideon, especially when she would see him with Chip. As her memories started to return, she kept quiet, not wanting to ruin what they had. I ached for her when it all came out. Gideon's reaction was pretty extreme, thanks to fear and hurt pride. I loved Jane's solution. I loved Gideon's "aha" moment and how he exposed his vulnerability. Jane's reaction was perfect. The epilogue was good, though I was a little disturbed by her "family" comment. It was fun to see the role reversal.

I also liked the secondary characters. Mrs. Gentry was a trip with the way she treated Gideon. I loved that she didn't put up with his attitude very often. I also enjoyed the way she pulled Jane and Chip into her heart also. I especially enjoyed her part in bringing Gideon and Jane back together. I also liked West and Sherrie. They were excellent friends to Gideon. I loved that West also didn't pull punches when he talked to Gideon. The relationship between West and Sherrie was great, and I enjoyed their banter regarding their professional relationship.

Shelly says

Gideon is out for a ride to see if his horse is ready when he stumbles across a baby and mom that has lost her memory and doesn't know why she is out in the cold. Gideon avoids people at most cause, but finds it hard to put these two out.

Jane doesn't know what she is doing in a tent with her newborn, but when Gideon offers to take them in she feels safe and wants what he can offer even if he thinks he can't

A great, feel good story for Christmas to snuggle up by the fire to read, bringing the gruff, lonely SEAL back to life and wanting life and love again.

This was the sweetest heartbreaking story I've read in a while.

This was the sweetest heartbreaking story I've read in a while. The hero has baggage from being a Seal and the heroine was no slouch either. Can you imagine being in labor setting up your tent while you are in full blown labour. The story goes from there and what a story it is. Thank you Laura Marie Altom

Books and Spoons says

Deeply emotional and touching story that brings all the feels into the surface. The story made me smile, sigh,

and even tear up. I connected with the characters, I rejoiced with them, I mourned with them, I fell in love with them. The realistic characteristics of the hero and heroine were endearing, they had faults just like you and me, yet they had that charisma and charm to pull you into their world, and hold your interest. They had me rooting for them, angry at them, and wanting to hug them close and say it will all be alright.

The former SEAL Gideon Snow is a pickle. He frustrated me to no end at times, but mostly I just wanted to hold a mirror to him and show him what a truly good, solid, kind fellow he was, and help him to understand that what his ex-wife was and wasn't is no true reflection on him.

Jane Doe and little Chip won my heart with the bravery, guts, and strength they both showed from the very first scene. Jane's amnesia puts her in a fragile state, yet with Gideon she is safe, she is at peace, she is at home.

The three of them together were such a tight unit, so adorable, and so sweet. The problems Gideon and Jane were battling within their lives were realistic and understandably overpowering. I loved that the author didn't take any easy roads to their happily ever after, instead had them take their time to do the work, to make the effort, and find the peace within that made anything else possible.

This was a story that touched my heart deeply with the deep emotions and the gutsy twists in the plot. There are moments of despair and raw pain, frustration, and even fear, but there are also moments of joy, jubilee, devotion, and love, and the kind of pure extasy only a great tasting baked goods can deliver.

The Cowboy Seal's Christmas Baby a Cowboy Seals series by Laura Marie Altom. Former Seal Gideon Snow was up in the snow covered mountains training a horse. He heard a baby cry. He came across a mother and baby in a tent. She had just delivered the baby. She doesn't remember anything about her life, other than she was running from someone. They gave her the name Jane Doe. His horse took off so they had to walk back down the mountain. He took Jane and the baby, she named Chip, to the hospital. She had no place to go so when she got out her took her to his ranch. Gideon had a girl once but she took off when he came back from duty with a fake leg, and he was out of the Seal now. Gideon didn't think anyone could love him because of his leg. A romantic story with ups and downs. A good real.

Sandie Grise says
