Topaz and Treachery Lynn Gardner

Bart and Allison Allan are on their way to Italy and the Greek Isles for a two-week visit. However what could be a relaxing second honeymoon quickly becomes a dangerous work assignment. The very pregnant Allison realizes that this will likely be her last mission as an agent with Anastasia, Interpol's elite anti-terrorism organization, before she has her baby so she wants to participate fully. Bart, however, is resolute that Allison stay completely out of harm's way. Clash is inevitable.

Their assignment is to retrieve several valuable topaz stones taken from a necklace owned by Empress Elizabeth of Austria, which, when assembled, could reveal the location of a forgotten treasure plundered by the Nazis – treasure that holds the secret to unimaginable power and wealth. On their heels is an violent terrorist organization determined to get to the treasure first to finance their malevolent plans.

Kathryn says

So I didn't want to review all the books as there are quite a few in the series... so I thought I'd put all my thoughts here in this last one. I loved everyone of these books. When I had to wait for the next one at the library... it was torture. Not all of them were my favorite but I read them all so fast and close together that they all fit nicely so they all get to be amazing books. I don't believe I could pick a favorite. You just have to read them all to really get the whole Allison and Bart story. These books are full of Romance, mystery, and action. A triple threat and a must read!

Charly Troff (ReaderTurnedWriter) says

When I read these books in middle school, I loved them! I couldn't get enough. Coming back to reread them, I see their flaws, but I still think they're worth the read. They are fast paced, clean, educational, and easy, quick reads.

Topaz and Treachery

By: Lynn Gardner

Year: 2005 Pages: 313

Intended Audience: young adults

Main Issue or Problem the Book Addresses: Cell Seven is searching for an old hidden treasure with ancient artifacts and if they're not given these artifacts soon, Cell Seven has threatened to blow up ancient buildings.

Setting: The setting helps describe all the places Bart and Allison visit to receive each coded topaz jewel from Queen Elizabeth's Topaz necklace in order to find the hidden treasure before Cell Seven does.

Main Characters: Allison Allan- 5'4", black hair, emerald green eyes, currently pregnant

Bart Allan- 6'4", blonde hair, ocean blue eyes, well built

Gabriella- Black hair, skinny, very attractive, old friends with Bart, works for Interpol but turns out to be apart of Cell Seven

Story Summary: Allison and Bart go on a mission, but not any ordinary mission, this mission takes place on a cruise! They have to receive Topaz Jewels with coded inscriptions on them in order to find a treasure that is being searched for by the terrorist group Cell Seven. Bart meets up with an old friend, Gabriella, and Allison finds out she's not really on Interpol's side. Now it's a race against time to find the jewels and treasure before Cell Seven does.

I liked all the intensity and adventure in the book, and all the descriptions of where they were at makes me want to visit those places someday too.

Quotes:

"Without warning, something came at me out of the darkness, pushing me back down into the deep water."

Pg: 152

"Then get away from here fast before they catch you. If you know about this meeting, they will too! Go!"

Theme: Doesn't matter what kind of situation a person is in, if they believe that they can cause or prevent situations then they can.

I recommend this book to anyone who loves mystery, action, and adventure! Plus doesn't mind a little romance.

What's unique makes this different from other books is that Allison is saving the world from terrorists and finding hidden treasure while pregnant.

Annisia says

This was a very long series! All the books had basically the same format. I only read to the end to find out how the series ended. I loved the characters but it just a little old to repeat the storyline in different settings.

Aaron says

Did the author write this to justify a trip as a tax deduction? I have never not finished a book I started but was more tempted with this book than any other book I have read.

Athena says

I really enjoyed this series. They are a fairly quick read and they keep your attention. They are fun! (My hubby even finished the whole series and he didn't used to be a reader! I think I've got him hooked though!)

Cozette R says

I have enjoyed all of Lynn Gardner's books.

Susan says

This is a wonderful series. I enjoyed the perfect blend of action and romance.

If you have students who like mystery, adventure, and a safe love story, you need to suggest They read this well written series. You will have them reading like never before. Each book has many unique twists and unexpected turns, so the reader is not able to predict what will happen.

Jessica says

Allison is heavily pregnant in this one (probably shouldn't be traveling at all, especially with her luck.) She and her husband head to Greece, where an old and beautiful friend of Bart's shows up. On the hunt for a missing treasure, Allison will have to deal her issues of jealousy, an overprotective husband and what may be her last mission for Anastasia.

Karina says

I absolutely loved this book!!!!!!!!!!!!!!

Allison says

This series was a fun read, great suspense. I am sad the series is over.

Danni says

These books are a little far fetched. I like them, but some of it isn't believable.

Liesl says

I really enjoyed this series. It was very fun, exciting, and romantic. The romance is between a Husband and Wife which makes it even more fun to read. (for us LDS people)

Cara says

This is a fun series, despite the fact that it's sometimes cheesy and unrealistic. The interpol agents talk constantly in public about top secret things and never draw attention to themselves? Not likely.

Tangi says

these are great suspense books with a little romance. she does a great job writing and making you want to keep reading.

Steph says

I read one of her other books (Emeralds and Espionage) a few years ago and loved it... but I wasn't too thrilled with this one. I still finished it, so I gave it a "2" for at least keeping me to the end, but I thought it was very predictable, and I thought the main characters missed obvious clues. I don't recommend it.

Susan says

I was extremely envious of Bart and Allison. I've always wanted to visit Greece and Italy--on a cruise to boot. Allison always amazes me with her wit and quick mind, and Bart is quite the guy himself. It was bitter-sweet knowing this is the last book in the series.

Jana says

I think this was my favorite jem book. I liked the lighter tone, but I was disappointed that I felt that this would be the last one.

Nathalie S says

I don't know how you can be several months pregnant and go on a dangerous mission but then I never was a secret agent! Entertaining mystery set in Italy. Major points right there!

Jennifer Cannedy says

Loved this series and didn't want it to end!
