Blood Hunger

L.E. Wilson

Blood Hunger L.E. Wilson

This is an alternate cover edition for B00R9RQ3ZI

A vampire who doesn't believe in love.

Nikulas Kreek has been searching for his brother for seven long years. He finally has a new lead: a feisty witch named Emma Moss. And even better, Emma is hot. Like, model hot. Nik knows he should stay away from her, but the moment he tastes her, he knows he'll never be the same. Emma belongs to him, and only him.

A witch who doesn't know her own power.

Emma Moss still has nightmares about the night her sister was kidnapped. Seven years haven't dulled the horrors she experienced that summer night, but she refuses to believe her sister is truly gone. Yet the endless searching is taking its toll, and she's exhausted all resources and hope. So when a seductive stranger calls claiming to have a new lead, she doesn't hesitate to go meet him.

Bound together by their shared cause, tormented by their fated attraction, Nik and Emma set out to find their siblings. But can he protect her from the one thing that may ultimately destroy her?

Himself.

From Reader Review Blood Hunger for online ebook

Toni says

Recieved from the author for an honest review. I loved this book. It's definitely a series I would continue to read. Highly recommend checking this one out.

Jennysue Buchanan says

Meh. The story was just OK for me. There were some steamy scenes that I thought were probably the best part of the book. It just felt like I'd read it before. There was nothing unique in this for me. There was so much invested in the romance/mate factor of this one, that it felt like the rest of the plot suffered. The characters were typical, and not unlike others I've read about in this genre. I own the first 3 books of this series (bought in a bundle), but I will only go on to read the next 2 books when I'm really fixin for a steamy romance. I've read a LOT of vampire romance novels, I'll admit, but this was not at the top of the list as a favorite. Quite honestly, I'll likely forget about it before I'm 10 pages into my next read. I'll give it 2.5 stars for the romance factor.

Natalia says

Another vampire book... Im in a PNR funk...

So Nikulas is looking for this brother for 7 years... yeah thats right SEVEN YEARS!!!
They found out that a witch might me involved and sets to track her sister and get answers...
7 years ago Emma witnessed her sister being kidnapped, since then she is trying to find her.
But when they meet they discovered that they are mates!!!

Randon things about this book:

She runs, does kickboxing EVERYDAY but is still the little fragile human girl, that freezes with panic!!

He was a dark pass but that ends up being a set up!

7 years to find someone that never left the same place, 2 years was more that enough and the story would me more coherent.

Lakshmi C says

This is the first book in the Deathless Night series and it revolves around Emma and Nikulas.

Emma hates accounting, is a workout addict and loves reading on her windowseat. She suffers from sketchy sleep and nightmares about her missing sister. She has blocked the memories of what really happened that night but is still trying to find her sister, Keira.

Nikulaus is spying on Emma because he needs her to get his brother back. Luukas is Nik's brother and the Master Vampire of their region. He disappeared without a trace seven years ago but Nik suspects that the disappearance of Luukas and Keira may be connected.

Aiden was a badass, lunatic, powerhouse Brit. I started this series directly from book 3 which has Aiden in the lead. He was brilliant, funny, sweet and is the reason I looked for the other books in the series. In this story he acts as a Guardian to Nik and Cupid to the budding romance between Emma and Nik. He's also Nik's best friend and believes Emma is just what his friend needs.

Lifemates is a huge part of vampire folklore and the author uses this plot device effectively. A bonded vampire will do anything for his mate, he is protective and possessive by nature. Nik has been in love before but he is not ready to risk Emma. This leads to a lot of misunderstandings and tension between the two.

Emma and Nik join forces to rescue their missing siblings. This is the part any action movie buff would approve - you get plans, modified cars and lots of sneaky gadgets. Think Vampires - inspired by James Bond. It makes sense as they are all Hunters, part of the Vampire Council.

The book also has the Good vs Evil concept, the good guys are Vampires and the bad guys are Legion. The book has some other vile monsters who snatched Keira.

I feel like Godilocks as I type this but the pacing was absolutely perfect. Not too fast, not too slow, it was just right.

This book is juggling a lot of sub plots, the romantic relationship, the missing siblings, the internal conflict of Nik, Emma's tragic past and the Amazing Aiden.

At no point is the reader overwhelmed, you don't lose track of what's happening or whose who. The author gets major points for this.

I will finish off by saying - start with the first book, the series is definitely worth it.

I received this ebook in exchange for an honest review.

Lydia says

The review, as posted on OnlineBookClub.org :

<http://forums.onlinebookclub.org/view...>

Samantha (Book Lover's Cozy Cafe) says

Alright so I received this book for free in return for an honest review. When I was presented this book, just from the description I was ready to read this book. I'm very glad I did. I receive requests for reads and reviews, because I like reading what indie authors have to offer. Well L.E. Wilson, has totally made it all worth it with this book. The moment I picked it up and started reading it I was hooked! I was even highly upset that I had to go to work, because it interrupted my time in reading this book. Well I finally finished it, and honestly cannot wait for the next book, I'm dying to know what happens next. So many questions....what happened with Aiden? What's going to come of Luukas? Will we see more of the wolves? The basis of just this one book, sets up for a very promising series. Thank you Ms. Wilson for contacting me about this book, it was a complete joy and pleasure reading it.

Pamela says

Vampires, werewolves, and witches, Oh my!

Emma's sister, Keira, has been missing for seven years, and for seven years Emma has not once stopped looking for her. Nikulas' brother, Luuk, Master Vampire, has also been missing for seven years. Nik believes that with Emma's help, together they can find their siblings. But first Nik needs Emma to understand and accept that she comes from a long line of witches, and that she herself is a witch.

With a market saturated with novels of the paranormal genre, finding a decent novel that includes a hero who's a vampire has been difficult for me. That and I'm personally a little tired of them. Coming across "*Blood Hunger*," I was quite hesitant but eventually gave in. Color me surprised. I ended up enjoying it more than I thought I would. "*Blood Hunger*," full of drama, suspense, romance and hot sex, is an entertaining and engaging story with likeable characters. In particular, I loved Nik's good friend, Aiden, who kept me amused throughout.

So why four stars and not five. For two reasons. The first one being Emma and Nik's sexual relationship. (view spoiler) I don't know about you but after a while all it does is irritate the shit out of me.

Last, (view spoiler)

In the end, still a pretty good read.

Deborah says

Intriguing but ultimately a disappointing end

Seven years ago Emma's sister Keira was kidnapped by monsters, Emma escaped but she was left scarred for life and tormented by nightmares. Obviously no one actually believed it was monsters, a bear attack was given as the official reason, Emma is still looking for Keira, she is after all the only family she has, then one

night Emma gets a call from someone claiming to have information on her sister and telling her to be at The Vineyard at 9pm. Nikulas Kreek is a six hundred year old vampire who needs Emma's help since he suspects his brother Luukas and Keira are being held together.

Emma has to not only content with her attraction to Nik but she also has to come to terms with her family history and the fact that just maybe her sister didn't tell her everything.

This book started really well, I was intrigued with the story and the characters but it began to run out of steam towards the end and was ultimately anticlimactic, which was a shame because until then I was with it all the way.

Nikki May says

Blood hunger is about a woman named Emma who is desperately trying to find her sister who went missing 7 years prior at a carnival, despite all the work the police did and everyone else her sister was never found but Emma doesn't falter in her belief that her sister is still alive, she can feel she's alive. Although she takes her own nightmares from the monsters she met that fateful night she never gives up searching and that's when a sexy vampire walks into her life claiming he has information leading to her sister. She doesn't want to trust him or even like him but despite this she does, as they spend more time together she learns he's looking for his lost brother too and is convinced his brother and sister are together so in order to get them back they need to work together and fast. They go through many fearful and adrenaline filled adventures over the story with some very explosive scenes both good and bad.

I love the characters in this book, they were well described and really touched me as a reader, I found myself feeling for them and if you do that as a reader then I'd definitely say it was a success.

Aiden is such a random quirky character, I love his quirkyness and the way he bounces off of Nikulus and winds him up just because he can, their teasing made for some laugh out loud scenes and because Aiden is such an odd guy you knew he was going to come out with some whacky random idea or plan it made him unpredictable and his softer side towards Emma was really endearing too knowing she was good for Nikulus he took a liking to her and gave her what comfort he could in some tricky situations.

Emma wow, well she was spunky, she really was she was feisty and tenacious at times but that wasn't all that she was made up of I loved that she fought so hard for what she wanted at times yet still had the confusion about what she was feeling and she had a big vulnerability, her looks but as the book developed that fear was worked upon by her and Nikulus and she grew enough to be able to look in a mirror and not cower away. She was a strong determined character that showed gumption, feistiness, anger but also feared and worried over little things.

Nikulus well he was godlike in appearance from how the author described him and wow even thinking about him made me feel a little naughty. I loved at he blew Emma away with his looks, ok sometimes he was pompous and arrogant but he wasn't intentionally cruel to anyone who didn't deserve it. I loved seeing how protective and possessive he got over Emma when he realised she was his, and I loved how Emma reacted against some of his possessiveness knocking him back down and making him realise she had a right to decisions too.

My overall thoughts on this book were that it was amazing, it had action, drama, fears, love and definitely

lustfilled scenes. I love the characters within this story and I love how they grow right in front of me as a reader, I really felt for them and wanted things to work out for them. The storyline was strong and really drew me in so much So that I read it in two sittings every chapter had something new to add to the story and I loved it!

Isabel Jordan says

The author has created a really interesting world, one that I'll definitely revisit when the next book in the series is released. Loved this story!

Sherri Chadwell says

Couldn't put down!

An intriguing mix of vampires (good and bad) and a witch who doesn't know she's a witch who go off together with friends to find the brother vampire and sister witch that another "not quite right" vampire has kidnapped. Wow! It's a fairly complicated plot with the reader not always sure just who is friend and who is an enemy. Turns out Nikulus has met his true mate in the witch. So there are some sexy times too as well as violent ones. Oh and there are zombie type monsters too! It really was a good book and I stayed up until I finished cause I just couldn't put it down. It does end in a partial cliff hanger though since several characters are left unaccounted for. So of course I'll be moving on to book 2 hoping for more fun and adventure and romance as well as some answers.

The Romance Book Disciple (Samantha) says

I REALLY enjoyed this book and am going to dive right into the next one! SO GOOD!!! Its like the best of Sookie Stackhouse, The Vampire Diaries, Twilight, and Supernatural. Its just all kinds of awesome! I am going to post my full review on my blog soon. <http://www.thebookdisciple.com>

Carolynn M says

(small FYI and Big Thank you to the author!)

I have a few books in line, commitments, for reviewing purposes, but I have your book in line to enjoy. I'll likely not write up a "Real Review" unless I'm moved to, but I'll definitely let you know how I enjoyed it. :)

Thank you for the New Year gift of reading- my favorite kinda gift. :)

Be well, and kind to you!

--Carolynn

Julie says

I thought this book was fantastic . I literally could not put it down and finished it in under 24 hours. I felt like I was right in the story with the characters. I can't wait for the next one to see what happens !!

Chani says

I received a copy of this book free for review

I started this book not really liking it because the timeline was a bit confusing, however the characters quickly won me over. Not just the main characters either, I found myself really liking Aiden as well. The humor in this book was good, and the dialogue flowed nicely, which helped keep me engaged as well interested. I like when books can make me laugh and sit on the edge of my seat, and there were plenty of moments in this book where that happened. Emma was a strong female lead, who stood her ground when it came to things that mattered, like her independence. I liked that about her. Nikulas was...hot. For some reason I kept picturing him as Klaus from the Originals/TVD. One part cocky, two parts badass. I won't go too into detail about storyline, because it's really one of those you should read and see for yourself. I will say that it was well thought out and I liked the concept of them having to team up to save their siblings. I would recommend this, and plan on checking out more by this author!
