Montzalee Wittmann says

d6 (Caverns and Creatures collection 1) by Robert Bevan is a blast! I got the audio version so I could sit back and listen to the crazy episodes and just giggle and laugh and enjoy myself, a real treat! I love these books and use them as a stress relief. They are full of rude and rough jokes but totally funny! I wouldn't say that if they weren't. I had four boys and I have heard plenty of rude jokes, many not funny at all but these books are hilarious! I am an old lady but still love good crazy humor when I find it. Old not dead. Fart jokes never get old. The voice on the narration really adds to the story too. The way he does it adds character to the characters and it is terrific! I bought all the d series, can't wait to finish them.

William Siracuse says

Egads man

Yet another fun romp in the C&C universe created by Robert Bevan. As always just enough crude humor and a balance of violence to keep me reading. The stories were short and fast paced and I caught myself actually laughing out loud on a couple of occasions.

Mark Wilcox says

Ok, I've loved all of the caverns and creatures books but these shorts were even better. Somehow Robert Bevan manages to make every story exciting, engaging, and hilarious all on one page. Can't wait to start the next one.

Elizabeth Jane says

Awesome as always!

Since I've finished all the novel length tales, I'm now on to all the collections of short stories. Mr. Bevan doesn't disappoint! Mayhem and hijinks abound with a big BAM! of humor. Love these characters!

Charlie Oliver says

My first DNF in a long time. I think the target audience for this collection of short stories is about thirty years younger than me and a lot less PC. There's nothing wrong with it, per se, but when people say it is "juvenile", they really mean it--we're talking 7th grade humor tops. I made it through two of the six stories joylessly and then gave up.

AK says

I thoroughly enjoyed the short stories that were crafted by Bevan. At any turn in the story I had 0 clue of the events that would transpire and the development of the story drops as often as Cooper's farts. Overall a good read and definitely something to do if you find yourself enjoying the Caverns and Creatures story or if you want to follow the personas of the characters.

Frankie Saxx says

Sweet baby bread Jesus, I laughed at The Creep on the Borderlands.

And from now on when I do something clearly marked stupid (like holding the "THIS END UP" package upside down or pushing the "PULL" door) my go to excuse will be: "I can't read your lizard language."

Robert 'Rev. Bob' says

Short, funny stories, but they really need to be edited. One of the beta-reader notes about a clunky sentence made it into the final text!

James Crutchfield says

Hilarious

Still funny and true to the dungeon genre with all the sophomoric humor from our heroes, and good depth from the NPCs.

Ethan Shattuck says

Decent set of one offs

Follow the main 4 stooges outside the city gates as they try to level up. There're leeches, drow, lizardfolk, and owlbears in addition to the usual idiocy this lot gets themselves into regularly.

Travis says

I've not read any of these stories before, but if this vook is any indication, I really need to catch up. The stories in this collection are hilarious, a bit crude, short enough to wet the appetite and definitely worth

hunting down more collections. If you like humor then you'll love these as long as you leave your reality filters at the door. Good stuff here.

Joey Clearman says

Another funny adventure story

What can I say? The tales of a group of delinquent, dnd geeks never gets old. Lots of very funny, bad jokes that the 12 year old inside every man can't get enough of.

Theo Karner says

This is a collection of short stories based on the Caverns and Creatures world. In order to enjoy them you should first read at least the first Critical Failures book to understand the context.

Caverns and Creatures

A parody of Dungeons and Dragons. The book follows a group of friends that have been 'sucked/transported' into the Caverns and Creatures world. Each short story is effectively a specific 'quest/dungeon'.

Crude Humour

If you don't like your stories liberally sprinkled with swearing, banter, and crude jokes then this book is not for you.

Audio Version

This book is the type that I think works very well in the audio version. I have listened to all the Caverns and Creatures on Audible and it helps make the story that much better.

Mike Milligan says

Do one thing and do it well

This is more of the same as the Caverns and Creatures novels, just in short story form. It's entertaining in its juvenile, crude, and crass way. Don't expect sophistication, high brow humor, or thrilling heroics. Expect plenty of fart gags, dick jokes, and cowardly, bumbling morons.

Justin says

Sometimes you just need a good fantasy story full of fart and dick jokes. This checks all the boxes.
