Hung J.L. Beck

My stepbrother Zane is hung. How do I know? Well, I've slept with him, of course, and on more than one occasion at that.

I thought what we were doing was harmless, until our families found out and threatened to cut all ties with us.

Except it's too late for that now because I'm pregnant with his baby, and we can't seem to keep our hands off each other. The temptation is too great and knowing that we're breaking the rules seems to add a high to our secret love affair.

If our parents find out, all hell is going to break loose, but how can I hide the fact that I'm not only in love with my stepbrother, but also pregnant with his baby?

And to think that I thought him being hung was the biggest surprise of all.

-Instalove certified with an alpha male, strong heroine, and a secret love affair that will leave everyone begging for more. This book comes with a HEA that's sugary sweet, and enough steamy scenes to melt your Kindle.-

Iris says

Secret romance... yes

Secret baby... no.

It's not a secret baby if you tell the father to be within hours of finding out.

The story was ok, but it moved too quickly for my taste. When the story begins, the characters are already in a relationship and things move pretty quickly from there. Turn the page all of a sudden it's been a week, turn at the next chapter it's been 3 weeks, then suddenly 6 months. We really don't get a chance to get to know or even give a crap about the characters. Another issue I had was with the hero. DOn't get me wrong, I loved that he was so open about his feelings, but he just has to rush out but then waits 6 months before doing anything about it? Seriously? What was the point in that?

April Symes says

This is a quick sexy and hot book that I devoured in one sitting. What can I say to express how great this is? Well, it has an exciting love story between stepbrothers Zane and Brook- they were childhood friends long before their parents ended up getting married –Being in close contact after their parents got married, they soon fell in love and in deep lust. The story focuses on when they are hooking up and showing the angst in the relationship—there is something going on which is causing Brook and Zane some friction. Namely their nasty, evil parents—And how to handle them—there are some HUGE twists and turns that take place in this book. You don't want to miss how evil Zane's dad is or how utterly cold Brook's mom is...that is all part of what causes some of the roller coaster rides in our young lovers' love story and it took me for a great ride—Does this young couple make it and does their love have an HEA? Or do the evil parents cause the great divide? You have to read another J.L. Beck Classic...

My rating: 4.7 stars ****

"I voluntarily reviewed an Advance Reader Copy of this book in exchange for an honest review***"

Mandy Marant says

This is a quick sexy read that I finish in one sitting. It's definitely fast pace and the chemistry between Zane and Brooke was off the charts hot. You can feel the love Zane has for Brooke, Zane is a over the top sweet man that falls in loves with his step sister, and wants nothing more to be with Brooke. Brooke is struggling with the whole relationship with her step brother Zane, she doesn't want their parent to find out. This book has the sexy sweet male and sweet loving girl, the drama and the surprise. Overall it was a great book, J.L. Beck definitely did it again. But the only thing I felt the title of the book had nothing to do with the story, unless I missed something.. I can't wait to read more.

Sharon Dunn says

Friends to stepbrother/stepsister to lovers! That's a mouth full but it was so delicious!! You have a OTT stepbrother that is head over heels in love with his stepsister and two parents that are the devils re-incarnated!! Sometimes you can't help who you fall in love with but J.L. Beck took it to a whole new level and made the chemistry between these two explosive!

Sam Lewis says

This review of Hung by J.L. Beck is for The Sweet Spot Sisterhood Blog. It is a very quick read. That is what I like about this author. She writes quick heat as opposed to slow burn. It is also on the taboo side of things. When step siblings hook up it can only go one of two ways. Lets just say that their parents don't approve. What would you do if you fell in love with your step-brother? Check out Hung and find out what Brooke and Zane do when their relationship is ripped wide open by their meddling parents. If you are looking for a quick hot read, look no further. This can be read entirely in one sitting. Enjoy!

SBee Reviews says

A nice, quick read, March 29, 2017

I received an Advance Reader Copy for Hung by JL Beck and voluntarily reviewed this book. Step-siblings Zane and Brooke have been involved in a taboo relationship, and Brooke just cannot convince Zane to stop, even though she loves him back. They have two very controlling step-parents that they are trying to keep this relationship a secret from, but a circumstance then occurs which could make it very difficult for their love to remain secret from anyone, including Zane. Zane already works for his father's company, and his father has major plans for his son. What will happen now, when this new development comes to light to their whole family? What will happen to Zane and Brooke? This book was a nice, quick read.

♥?Melanie says

This was a delicious and sexy read. Loved Zane.

Tish Cocktails & Fairytales says

A very sweet, angst filled story about stepsiblings Brooke and Zane. They were friends before their parents got married but then things started to change. Having to keep their feelings a secret is the only way they can be together but secrets rarely stay hidden. Sexy, emotional and drama filled to the very end.

This book was given to me for free at my request and I provided this review voluntarily

Pnina Azar says

I get ARC for my honest review. This is An exciting love story between stepbrothers Zane and Brook who were good friends in the past. Because of their parents wedding, God forbid, their public stigma will not hurt, they must hide the love that exists between them. Brooke love Zane but does not want to hurt him and after she receives a threat from his father decides to leave him, but Zane decides to fight for their love. What I liked most about, that the story gave me the true feelings of Zane. I finally felt like a man who loves and will not give up his great love.

Christina Montminy says

My first time reading J.L. Beck was okay, I'm not a big fan of step-brother romances but this one was okay. Brooke & Zane were best friends & loved each other before their parents married so it wasn't too bad. The parents reaction was odd to me because they acted like they were blood related when that was far from the truth. They also worried more about themselves & their community status than the lives of their children & I also didn't like the fact that the step-father had cameras set up in the house & watched the relationship of Brooke & Zane. I did like how and took back his life from his father & how Brooke eventually stood up for herself against her mother.

Janice Salotti says

This "book" was 66 pages of melodramatic drivel. Two step parents marry and settle their respective college aged stepson and step daughter alone together in a cottage for their "convenience". This is never explained. The father threatens the step daughter to leave his son or her mother will find out that the children are sexually active thus losing daughter her college funding. Stilted dialogue, f**ks abound. There's an Epilogue, then an Afterward before the "bonus book" consisting of ten chapters of another novel yet to come. Then there's a Forward. The second "book" makes less sense than the first. Definitely not worth any time or money investment

Karina says

I voluntarily reviewed an ARC of this book. I loved the story of Zane and Brooke. Two people who were best friends long before their parents met and married. Thereby making them step siblings. They end up falling in love soon after. The story begins after they are already involved physically, yet in no way takes away from what has already happened. What the story is about is how the two deal with whether to let their parents know and what they feel it will do to them. I loved how Zane is so sure of their love and that they can get through anything. Even if their parents do not approve and try to keep them apart. Brooke is sure of her love but doesn't want to be cut off from having her education paid for by their parents. I enjoyed how Ms Beck explains how they deal with the struggle and finally shows that they are able to get their HEA!

Jessica Ramsey says

** I voluntarily read an advance reader copy of this book**

From friends, to step siblings, to lovers, this book is swoon worthy. So sweet and loving. Zane and Brooke have such an amazing bond and love for one another that made me root for them being together throughout the entire book. When their evil parents try to mess their relationship up the their bond for one another is tested. Will love be enough for them to make it together?

Bella says

★2 Stars★

This was a very basic, quick paced story, with very few surprises - and a couple of hot as hell sex scenes.

It wasn't very long, so for me the drama happened before I'd had a chance to really care for either of the main characters, which meant the drama didn't have any real impact on me. I did like the fact that the MC's had been best friends before their parents married, but when I found out their ages and the fact the H was five years older, I questioned how close they could have really been growing up.

At the end of the day this was just another step-brother romance, which I will forget about by tomorrow. Maybe if it were longer it would have been better? Or maybe I'm just over step-brother stories.

Nicole says

An emotional story with our main characters being stepsiblings struggling to live their love under the shadow of their parents.

Brooke and Zane are very lovable and sweet characters, I really enjoyed reading their love story and everything that came with that such as steamy scenes, interesting dialogues and heartbreaking moments, it is a short novel with a fast pace.

This is a love journey about two people standing up to the very own family who by the way I disliked a lot in order to live their love!! Are you ready for this intense ride??

Well, that was very refreshing, I certainly recommended it and I'm looking forward to reading the next story the author will create!!
