Know Who You Are, Live Like It Matters Tim Tebow

The World Does Not Define You!

Nobody said your life would be easy. And the older you get, the more difficult it seems to become. Deep down you may know your value as a person isn't defined by wearing cool name-brand clothes, scoring points for a sports team, or even by having a huge number of social media followers. And you're right! Your identity resides in something--in fact, Someone--much greater than anything this world can offer:

The only identity worth having...is found in Jesus Christ!

American sports icon, Tim Tebow knows firsthand what it's like to face pressure head-on. In *Know Who You Are. Live Like It Matters*, he shares the wisdom he's learned--not from what the world says, but from what God says in His Word.

Tim will guide you through thirty-six weeks of lessons, each based on a key Scripture, to discover who you are--by learning more about whose you are! You will also have the opportunity to write down your thoughts, feelings, and ideas on topics such as:

- * Building godly character
- * Maintaining great relationships
- * Standing out from the crowd
- * Doing things that matter in the big picture

Get ready to live bigger than ever before...with your faith and identity secured in a God who loves you beyond measure!

Why would a woman who hates sports take this book for her children? Because, whether you hate or love football—Tim Tebow stands for something and I admire that. I felt that my children could learn something from this book and the fact that it is written for homeschoolers made it icing on the cake.

I was surprised by how much I liked this book. Though geared towards young adults, I appreciated the book and will definitely re-read it when my girls start the lesson plan. It includes thirty-six lessons which are broken down into four parts. Tim gives an example of how the lesson applied to his life and then provides inspirational scriptures and writing prompts.

One thing that I really appreciated is that Tim encouraged the parents to not treat this book as graded material. The point of this book is to encourage and uplift homeschoolers in their spiritual life more than it is meant to be used as a textbook course.

This was a fantastic book and I would honestly read books by Tim Tebow again in the future.

This book was provided to me by Blogging For Books. I was not required to write a positive review, and have not been compensated for this. All opinions are my own.

My Review:

Tim Tebow in our home is known more for his stand for Christ than for anything else. His ethics and morals have catapulted him far above any celebrity out there to date. My family real respects him and we always listen if he has something important to say. He has a lot of people, especially young people looking up to him and following him everywhere throughout social media.

He is using his soapbox moment to teach our kids that there is more out there than the right phones, trendy gadgets or fast cars. We need to encourage them to hear him out. This book is especially geared towards homeschoolers so I just had to get it for my boys.

A great way to start the upcoming school year off right and in the right direction. I'm going to give this book to my 15 year old and hopefully I will see a change in him throughout the year, especially how he views academics.

****Disclosure**** This book was sent to me free of charge for my honest review from the author. All opinions are my own.

I and my three sons had the opportunity to review Tim Tebow's newest book for Homeschooler's. It is awesome. Great study to know who you are in Christ and as a person. Very simple and easy to implement into your daily lives and your schooling. Great for home schooling curriculum's. A great approach to helping young students become who they were created to be and to be the best you possible. We've home schooled for 15 yrs now and this book is a great addition to our curriculum. I highly recommend everyone read it,

even if you are not a homeschooler.

It was so exciting to receive this book! It was thrilling and inspiring to read it! Tim Tebow has written a book that is easy to read and understand, with 36 weeks designed to use with homeschoolers, but can be used with ALL ages due to the timeless topics and very interesting content. The content covers:

Who Are You?

Don't Sweat it; God's Got It

Others Matter, and

Live Bigger

Everything in the book is spot on for how each each person can grow to be more like Christ, no matter the obstacles. He uses himself as examples - mostly what he could have done better, with no flashy examples of his greatness, which he has attained at times, with his notable athletic abilities. However he also uses examples how to help others, especially those unable to help themselves. He describes how he handled his "down" times. I was left with great admiration for the way his parents raised him, homeschooling on their farm, and leading by word and example. Of course Tim is disciplined, as in not eating sweets, in order to reach his goal to have a healthier body. The very best thing about this book is that Tim describes (and lives) how to live bigger and to make a difference!

I received this book from a giveaway with gratitude, and the views are my own.

If anyone thinks this book is *just* for home schooled children, they'd be wrong. This book is actually good for any teen, and even good for some adults to be honest. The fact the Tim Tebow was home schooled is most likely the reason behind him determining the book would be for home schooled kids.

This book gives 36 helpful weekly lessons on figuring out who you are and how following the Lord can make your life better. Each lesson comes with a writing exercise to encourage the reader to think about the lesson that was provided. While I read the book in 2 days because I wasn't following the lesson plan, I would be more than willing to go back through the book and do the writing exercises.

36 weeks is equal to approximately one school year, so parents can use this book during their curriculum if they home school or just as a weekly study for their kids in general. I think this book is an excellent tool for helping kids find their faith and figure out who they are in Christ.

I also think that new Christians might benefit from this book, even though it is geared towards teens. It can be hard to figure out who you are in Christ at any age, especially if you've grown up in a family where faith is not a big part of your life.

Tim gives good, solid accounts of when he was a child/teen and how situations were handled. He admits he made and makes mistakes, something that it is good for anyone to see - that nobody is perfect.

This was a solid 4 star read and I have to say, I'll probably be going back through the book and doing the writing exercises for myself.

Know thyself. You're made in God's image, destined to follow Him and do the works He prepared for you. American sports icon, Tim Tebow, knows firsthand what it means to strive for excellence, strip everything that impedes to reach the goal. In *Know Who You Are. Live Like It Matters*, he guides his readers in four parts with nine lessons each. You'll learn about the source of your identity, Jesus Christ. You'll uncover guidance when troubles come your way. Relationships are important. You'll understand why. And last, but not least, you'll learn why and how to live in a way that impacts eternity.

The book is not meant to read in a single session. It's better to devote a weekly slot to one lesson, write your thoughts about the questions at the end of each chapter so that the message can sink in and you'll have time to reflect and practice in between reading time. Where the ebook format should support in-book note taking by clicking on large yellow callout shapes, it didn't work in my Kindle (.mobi) version of the book.

The readability is good, suitable for teenagers and young adults as an introduction to the life as a Christian. Tim Tebow illustrates the lessons from the Bible with his personal experiences from past and present, as well as popular stories about American sportsmen and presidents, inventors and preachers. Although the book starts with a positive testimony on homeschooling, you'll find nothing about this education method in the remainder, which is at odds with the first part of the subtitle *A Homeschooler's Interactive Guide to Discovering Your True Identity*.

A devotional/Bible study for middle grade students to high schoolers, especially directed towards homeschoolers for use in a curriculum. This book has writing exercises, as well and encourages journaling.

I like how the book encourages young people to find their true identity in Christ and to strive to live for Him, not just to please others or society. It encourages trusting God for everything, building edifying relationships, and doing big things for God. Tim shares stories from his growing up days, and the present, in 36 devotions/chapters.

While I used to be a homeschooled teen myself back in the day, I kind of thought it odd that this book was so specifically targeting homeschoolers. Not that writing a book for homeschoolers is a bad thing, but I thought that this was a fantastic book that would appeal to a larger audience than just homeschooled teens. In fact it makes a great gift for that young person in your life, wondering where their life will go and stressed about the future.

I loved the personal stories that Tim shares, talking about his inspirations, lessons, and struggles. He speaks with an innate respect for his family and his passion for others is wonderful to see.

Inspiring, engaging, and encouraging this is a fantastic faith-filled devotional for teens. This book is written to encourage reflection, thought, and ideas. Definitely recommend, especially for those in middle school or

in the first few years of high school.

I was given an advance copy of this book by NetGalley and Waterbrook & Multnomah, in exchange for an unbiased review.

Know Who You Are, Live Like it Matters, by Tim Tebow, is subtitled, *A Homeschooler's Interactive Guide to Discovering Your True Identity*. Perhaps Mr. Tebow intended this book as such, but the value goes beyond the homeschooler to all secondary level students, and really to anyone who wants to learn more about the author's walk with the Lord. There are 36 weeks of lessons based on scripture, with practical examples from the author's life that correspond to each scripture. Following the "discussion," there are questions for reflection and opportunities to record responses.

This was the first book I've read by the author. It is easily accessible with scriptural analysis supporting God's word. Young people and old will appreciate the author's kind, brotherly tone. I could easily imagine Tim speaking with someone and sharing his faith. It left me wanting to learn more about this famous athlete who is not embarrassed to show he is a believer in even the most secular of places. A title that should be purchased for homeschoolers and added to church school libraries, it is appropriate for any person wanting an insightful guide for devotional time.

Brittany's Pages says

Tim Tebow, the football player that took the world by storm. Whether the media loved him or hated him, he was in the news quite frequently and then he seemed to disappear. Well, for those of you who were wondering, the football quarterback went from FL State, to the Broncos, to the Jets, to a newscaster, to a minor league baseball team. That's quite a big change, but that was God's plan for him.

Know Who You Are – Live Like it Matters is actually a homeschool teaching tool. I was surprised when I opened it up that it would not be a biography-spiritual guiding book. But I guess that's what I get for not fully reading the synopsis. But I am glad that it ended up on my bookshelf. My husband and I have been talking about homeschooling our future kids. (The school district around here is terrible; even the private schools and academies aren't great.)

This book is broken into a 36 week study to help young people discover who they are in their faith and to help them live out that faith. Each lesson starts with a Bible verse, Tebow then gives a three page lesson about the verse. He brings his personal experiences and lessons he himself has learned into this study. It's very personal. The next section of the lesson contains questions for the reader to answer in a journal. And

finally, there is one little piece of wisdom at the end of each chapter.

I was really surprised by this book. I actually think it was a great idea. The journal aspect is one of my favorites. It gives the reader freedom to expound on each lesson and the questions ask you to really dig deep and reflect on yourself. It helps young people to figure out who you are in Christ, to nurture your relationships, and to go out and love others.

Tebow Encourages You To Live A Life That Matters

Tim Tebow is a true inspiration in how he lives his life and I have read a few of his other books. The content of this book is very similar to other Tebow books but this one is written for home schooled kids to understand their true identity and worth. There are 36 short chapters, each with an interactive lesson at the end that allows kids to stop and reflect on each lesson and apply the learning to their lives.

I mistakenly got this book without noticing it was for homeschooled students. As soon as I saw that it was a Tim Tebow book, I knew it would be great and filled with good insights and values. My older sons really respect him and enjoy reading his books so I thought that I would pass it along to them after reading it.

Although a book written for home school students is not relevant to me, I am not marking down my rating because of this. There is a lot of similar content to other books but it should really appeal to kids who are homeschooled because it speaks more directly to them. Tim Tebow does so much to encourage good values and principles in the lives of our youth. He is a wonderful role model and I would recommend this book to someone who might have homeschooled kids.

I received a complimentary copy of this book from Blogging for Books in exchange for my fair and unbiased review.

I found this interactive devotional guide to be very easy to use with a great set up. Each chapter is a few pages long and is followed with questions at the end so that you can answer questions regarding the topic you just read. A lot of people know Tim Tebow for his amazing sports career, but many do not know that he is a Christian that founded The Tim Tebow Foundation. The foundation serves thousands of children around the world. This book would be a great gift for a teenager whether they are homeschooled or go to a public school. Overall, I found this to be a great self help devotional.

-My Review-

"Know who you are. Live like it matters." was such an inspirational read for me! Although this book is geared towards homeschooled students and their parents it is a good read for anyone, even if you aren't being homeschooled or aren't homeschooling your child.

The book has a lesson for each week for 36 weeks. The book is broke up into four parts with 9 weeks in each section: 1) Who are you?, 2) Don't sweat it: God's got it, 3) Others matter, and 4) Live bigger. Each week's lesson is almost like a devotional in that it is short and it has questions at the end for you to answer. The questions are really thought provoking.

I like that the book can be inspirational to anyone, not just homeschooled students and their parents. I also like how the book is laid out into the four parts and with questions at the end of each week's lesson to help you think about what you've just read and to give you something to think about for the next week.

I tried to find anything I didn't like about the book but I really enjoyed the book and the layout of the book.

-About Tim Tebow-

TIM TEBOW is a two-time national champion, first round NFL draft pick, and Heisman trophy winner. After playing in the NFL for the Denver Broncos and the New York Jets, Tebow joined the SEC Network. In addition to his role on SEC Nation, the network's traveling road show, Tebow contributes to a variety of other ESPN platforms. In fall 2016 he signed a baseball contract with the New York Mets. Through it all,

Tim's true passion remains the work of the Tim Tebow Foundation which he began in 2010. The foundation's mission is to bring Faith, Hope, and Love to those needing a brighter day in their darkest hour of need. The foundation is fulfilling that mission every day by serving thousands of deserving children around the world.

I really enjoyed this book. It is intended to be read slowly, by homeschooled kids. As a homeschooling parent, I needed to see if it was acceptable for my kids. I believe that it is better suited for 14-17 year olds. The book gives a lot of questions to help kids look into themselves and define their character. Tebow shares personal stories from his own past and talks about his own choices- some good, some. It so good. The book reads easily and draws you in. The only complaint I have is the use of several translations of scripture. I would have preferred consistently there. Overall, a good book.

LadyS says

What's not to like?

There is absolutely NOTHING to dislike about Tim Tebow. Okay, its valid to dislike "on-field performances, but not the guy. I imagine those who dislike him are envious, unreasonable people. Or maybe they are uncomfortable with his "bible thumping", which is truly a weak reason to dislike a person..haha. Tebow stuck to the point and wrote a book that helps establish solid foundations, and character building for tweens and young adults. I really enjoyed that it was not overly wordy and saturated with story after story. I recommend this book to teachers and those who work with young people. Tebow has organized important life lessons and advice into an easy-to-follow format that allows for self reflection and quiet time. If one knows how to maximize, this book can really help shape the lives of the young for a greater impact.

Diane Estrella says

My 14 year old son is being homeschooled, but this book is NOT just for homeschoolers.

Really great set up for this devotional/interactive guide. Every chapter is only a few pages long with multiple questions at the end for students to fill in their answers. I am a big fan of Tim Tebow's. Seriously, what can anyone truly say bad about this guy??!!? He is living his life for real and shows a lot of vulnerability in this book sharing stores from his youth. I think this is a great book especially for boys and even though my son is not sports minded, this book was still incredibly inclusive for him. Kids are so awkward at this age and seeing someone has lived through it, thriving amongst difficulties, is a great encouragement!

I received this book from the publisher but was not required to leave a review. All opinions expressed here are my own.
