Nicky's series was the first books I read on Nook. She got me hooked on Jan. To have them come together and do this book was great. I just got finished reading it and had to post that I thought it was awesome. I loved how we got to see Malik and his family thru the years to present day to see them come together with the Lycan series. I like how Jan put little tid bits of history thru out the book. I just think that was so good.

I really enjoyed this book and loved the tie in with characters from the Lycan series by Nicky Charles. The characters were ones I enjoyed and a this was a great behind the scenes of what comes before her book Black Silk.

I did not put this down except for basic survival (food, etc.). Loved Malik and Tam and how the author dealt with ebb/flow of their relationship. There were several sub-plots, which I LOVE, sense of family, and an AWESOME crossover into the Lycan Law series! I look forward to reading more about these werepanthers!

Very enjoyable forerunner to Black Silk. I'm really looking forward to the book that follows Black Silk. Jan's writing really captures the reader. Well done!

Lori Merendina says

I stayed up all night reading this book. I especially love how Jan and Nicky came together for the last part.

Leila says

A very good read.

It provided more background info regarding the protagonist of Black Silk, Steven Colburn.

The different point of views from the characters in the anthology made it more interesting.

After reading this book, I can't wait for the release of Black Silk's sequel.

I didn't really get into this book until about halfway through it. Although all of the war stories and history layed the grounds for the story, it was somewhat boring for me. Some parts just seemed to draaaaaag on, while others didn't give enough detail. Overall it was a good story, just not what I was expecting after just having read "Black Silk" by Jan Gordon. I did like how it finally tied the two stories together though. And, I did like how Nicky Charles brought some of her characters into it as well.

Jennifer Moody says

Thoroughly enjoyed this series of short stories. Jan has a way of stringing them together and leaving you wanting to know more. Excellent character build and historical research here. Looking forward to seeing what she gives us next.

Vanessa says

I m so glad I read this. I read Black Silk first and I don't regret it. Reading Life in Shadow filled in so much back history.
