starbrina sullivan says

Not what I was anticipating. I unfortunately overestimated this, did I ever wake up is still extraordinary however. Maybe I'll give this another try some time or another so I can give mod the rating (I'd still like to expect) he merits.

Alayni ? says

MY GOD I LOVE THIS SO MUCH

Okay but seriously. ModSun has such a way with words and he has such a beautiful soul that flows from the pages. I honestly think everyone needs to read this and his other book "Did I Ever Wake Up" so much happiness all around.

Valencia White says

mod, you've done it again

Emma Page says

my favorite person and my favorite book

katherynxx says

MOD radiates positivity and wisdom. His happiness is infectious and can lift you up even on your darker days.

A true artist.

Favorite poem- L

Peter Nicholson says

Personal response: I really liked the book, "My Dear Pink," by Mod Sun mainly because of how the book was written, it is a book of poems. I enjoyed how the book is all his thoughts just put into a poem. I really enjoyed reading this book.

Plot: Mod Sun wrote this book on his pink typewriter while he was in Paris. He just wrote down all of his thoughts about the people around him and his past experiences all in poem form. He also writes about how he wishes the world was such as no crime or mean people, he just wants peace.

Characterization: Mod sun and his typewriter, My Dear Pink, are the main characters in this book of poems. He is typing a on this pink typewriter and is treating it like a human person. The pink typewriter he found at a rummage sale for cheap and decides to write on it in Paris. Mod Sun is a very happy and positive person and wishes everyone else was like him. He has a very different way of looking at life.

Impacts of setting: Mod Sun is writing this book in Paris. He sits in the middle of the sidewalk and observes peoples reaction to him sitting in such an odd spot. If this was in America the reactions would have been very different. He probably would have been kicked off of the sidewalk. It takes place in today's time I do not think the time plays much of a role in this book.

Thematic connection: Mod Sun always brings positivity into anything he does weather it is his music or his books. He is a strong believer in the law of attraction. The theme I picked out was just to be yourself and do not let anyone stop you from chasing your dreams.

Recommendation: I would recommend this book to anyone in high school who listens to his music. This book is not gender specific and it would be great for boys and girls to read. It was a very quick read but I did enjoy it a lot and can not wait for his new book to come out.

Kaitlyn says

I have read this book a number of times and each time I return to it I love it even more than the last.
