Seduction's Canvas K.M. Jackson

“I want to paint you” Artist Samara Leighton had wanted to say those words to the sexy motorcycle rider who lived in the building ever since she first laid eyes on him nearly a year ago. But now that the words were out she couldn't stop her heart from beating wildly in her chest.

“Honey, you don't have enough paint to cover me.” Security specialist Mark Thorn didn't mean to come off as a hard ass. As a matter of fact, he wanted nothing more than to let the tempting artist from across the hall do whatever she wanted to him and then some. But her haughty demeanor left the normally cool rider off his game.

Samara knew this was her only chance to live out her long-standing fantasy and she wasn't going to let it slip through her fingers. She had very little time before her show was done and the pressure of her family legacy meant she would finally go through with living out her life under the umbrella of the Leighton name and its responsibilities. There would be no more downtown jaunts, lazy museum afternoons, and evenings spent lost in the magic of color and her canvases. And definitely no time spent holding tight to the muscular form of her dark rider while the horrors of her past and her cares drifted further away with each mile of road they covered.

Cary Frates says

Oh...this one is yummy. Apparently I'm a big fan of bikers now, and how could I not, with someone like Mark Thorn varooming into my life? He reminds me of Carlos Manoso, or "Ranger" in Janet Evanovich's Stephanie Plum series, except that MT is much more willing to smile and stay a while. Samara Leighton has one foot in the glam world of high society NYC, one foot in her painter's loft and wearing stained overalls, but her heart is buried deep, right beside her brother's tomb. As Mark and Sam begin to bob and weave around one another, a beautiful story of love, acceptance and doing right begins to evolve, and soon takes hold of the reader's heart. This is well written and wonderfully warming. Hats off the Ms. Jackson. Very well done.

I purchased this book online and have given this review freely and without compensation of any kind.

Okay – secret fantasy time. Picture the mysterious rider cruising by on a sleek bike, face hidden behind the helmet - all you can see is that hint of tattoo on a muscled bicep and those masculine thighs wrapped aroundwhew {fanning self} – I'll just stop there.

KM Jackson brings your fantasies to life. The mysterious biker that kicks your pulse up a notch (or five) turns out to be your gorgeous new neighbor. Oh. My. The possibilities. Of course, because it is Jackson, I expect a strong female lead and some nasty personal baggage for both the hero and the heroine. Jackson delivers on all counts plus throws in some searing hot love scenes.

Loved this romance!

I was provided an ARC of this book as a professional courtesy in return for my honest review.

4.5 Stars

In Seduction's Canvas by K.M. Jackson, Samara Leighton is an artist and a rich girl but with a domineering father. She has the life many think is ideal but the secret of her brother's death has shaped her and she cannot let it go. She has a limited time to do what she wishes, for once her show is done she will have to return to the family and do as they wish once again.

And so Sam decides to take her chance and tell her sexy motorcycle-riding neighbor that she wants to paint him. Read More...

Brenna Chase says

For the longest time Samara Leighton has fantasized about capturing her hunky downstairs neighbor, Mark Thorn, on canvas. And from there this novel just sizzles. Of course she tries to push him away because of family obligations and fears, but what she doesn't know, and what makes it also a sweet love story, is that they have a history, albeit a brief one, but that connection has stayed with Mark through the years. I always love a strong, sexy hero, and Mark Thorn more than fits the bill, while Samara Leighton has just the right mix of strength and vulnerability. His determination to break through her walls makes this a wonderful, pulse-pounding read that really heats up a winter night.

Loved this book it was well-written makes you want to read more and the chemistry between Artist Samara Leighton who wanted to paint the sexy rider ,Who lived in the same building as her Security specialist Mark Thorn ever since she saw him over a year ago when she suggested it to him he told her, Honey you don't have enough paint to cover me but he wanted nothing more than to please this artist in more ways than she knows!

I'd read "Through the Lens" by K.M. Jackson and really enjoyed it so I looked forward to reading "Seduction's Canvas." Jackson did not disappoint. This is every bit as enjoyable as her first book, with strong characters, an interesting plot and a few twists and turns as Sam and Mark, the hero and heroine, try to work out their happily-ever-after.

Samara Leighton is a poor-little-rich-girl/talented artist with a domineering father, a grim secret in her past and an inability to move on from it. Mark Thorn runs a security company and roars in and out of the garage in his building on a fast, hot motorcycle, much to the fascination of his neighbor, Sam. But he has his own secret--which involved her.

When the artist and the hot guy across the hall get together sparks fly. And, yes, she asks to paint him. But unless she can conquer her past and he can be honest about the secret he is hiding involving Sam, they may have to stay merely neighbors.

Oh, and thank you K.M. Jackson for giving us a teeny glimpse of Mika and Alejandro from "Through the Lens." That was fun.

Kathy says

Absolutely loved this book...so fortunate to read pre-lease. Fell in love with all the characters....especially Mr. Hot Hot Thorn. Most likely won't be able to hear a rev of a motorcycle again and not think of him. This book would be a great TV series or movie...I want more of Sam and Mark! Love K.M. Jackson's first book Through the Lens....this one is a sure must read.

Amy says

Who hasn't fantasized about a hot dude on a motorcycle? I mean, I almost felt bad for Samara when Mark turned out to be her new neighbor.

Not really. She was one lucky girl.

The greatest strength of Seduction's Canvas is the way the author took two common character types (The Brooding Stranger, The Princess) and turned them into real people, then gave them a real relationship. They each made mistakes, but the sparks were undeniable (and the sex was hot!). I love New York, and the author did an excellent job of taking me to a part of the city I'd never seen before. The dialogue rang true, and the chemistry between Mark and Samara kept me turning the pages to see how they worked things out. Altogether, reading Seduction's Canvas was a fun way to spend a couple of evenings!

The author provided me with an A.R.C in return for an honest review.

Jackie Roberts says

Mark Thorn, a dark and brooding motorcycle rider, certainly threw Samara Leighton, an artist, off her kilter when he agreed to pose for her. Mark was truly Samara's protector both in the present and in the past. You will love getting to know Samara and Mark and the secrets they share. A great read and recommended purchase.

Scandal (Scandalicious Book Reviews) says

This is actually 3.5 stars for me. I love the story, the characters are compelling and show a lot of growth through the book. And Mark is swoon material.

Lise says

When I finished K. M. Jackson's first book, Through the Lens, I was tickled to start Seduction's Canvas and find a fun little authorial trick had been played, which I discovered when introduced to heroine Samara Leghton. (Nicely played, Ms. Jackson).

Samara is the rebellious daughter of a NYC real estate mogul and hard-nosed businessman. But being rich does not spare her from heartbreak and all she wants to do is mourn her brother and pursue her art. She's no stranger to the gossip rags, and paparazzi, and even throwing herself into her painting and planning her first

show can't insulate her. Her family, including a matchmaking minded mother, and an erstwhile suitor who seems more interested in the connections a relationship with Sam can reap for him, couple to leave her frustrated and wondering if romance is even possible. But then her history with bad boys is rekindled when she meets motorcycle man Mark Thorn. And surprise, surprise. He's moved in across the hall. The attraction is instantaneous and smoldering. And no matter how hard Sam tries to keep him at arm's length, Thorn is determined to prove to her he can be the man of her dreams. But her family - and a secret from his past that Thorn is keeping from her that connects them both - will not hear of it. When lust overflows, all bets are off and the chips are going to fall where they may.

Jackson's new story is a bit darker than Lens, but no less marvelous a literary feast. I am again in awe of her ability to create such a rich, complex and satisfying tale in a shorter format. The backdrop of New York City is wonderfully rendered, and creates a great picture of a rich girl's Manhattan. As a native, I loved every bit of detail about the city. The wealth of detail about painting, and art was marvelous and a great addition to the immediacy of the story. The secondary characters are varied and interesting, and her parents nicely nuanced. Sam's three selves - as pointed out by Mark, combine to create a complicated woman fighting not just her own desires, but the expectations of parents, and society, and men. Mark Thorn is a tough, rough man with a wide streak of gentleman running through him. Together a combustible cast.

And the love story itself is hot, tormented, and the characters tortured by their own desires and the conflicts, both internal and external, that make their relationship such a thorny one. As a reader I was thoroughly invested in this romantic story, and while it is a romance so you know you're guaranteed a happy ending, Jackson kept me on the edge of my seat as I followed this couple through their twisting, heart-wrenching tale. But of course, that level of tension makes the sweet denouement all the sweeter.

Anino says

I had a hard time getting into this one, and found myself skipping several pages at a time. The original premise was good, but overall, it wasn't my cuppa....

Deloris says

I was bored with the relationship between Mark and Samara I felt the author wrote this story wrong . The way this story was told made Sam seem very shallow and the only thing Mark had to offer her was his body. How did they fall in love ,I never saw how because she spent her time with friends or out with Peter. I would liked the story to start out as it ended with this couple getting married and working through their differences . Not a society girl making Mark feel he was only good enough to have sex with.

Patricece says

Not as good as K. M. Jackson's other books are. It was nevertheless, a good read.

Brenda Hairston says

Sweet ,sensual ,full of heart.

A good love story. Everybody needs a bad boy especially one whom takes care of business. Realistic description of players as well as situations.
