Statistics for the Life Sciences Myra L. Samuels , Jeffrey A Witmer , Andrew Schaffner

The **Fifth Edition** of *Statistics for the Life Sciences* uses authentic examples and exercises from a wide variety of life science domains to give statistical concepts personal relevance, enabling students to connect concepts with situations they will encounter outside the classroom. The emphasis on understanding ideas rather than memorizing formulas makes the text ideal for students studying a variety of scientific fields: animal science, agronomy, biology, forestry, health, medicine, nutrition, pharmacy, physical education, zoology and more. In the fifth edition, randomization tests have been moved to the fore to motivate the inference procedures introduced in the text. There are no prerequisites for the text except elementary algebra.

Statistics for the Life Sciences Details

Date : Published January 3rd 2015 by Pearson (first published January 1st 1999)

ISBN : 9780321989581

Author : Myra L. Samuels , Jeffrey A Witmer , Andrew Schaffner
