### Dylan says

Brilliant story, things are really getting intense now. Someone died in this volume. Characters die in this series!!! Crazy!

### ArdnAskelA says

Quatre garçons pour une fille.. enfin plus que trois à la fin. Léo est mort (vraiment). Place libre aux autres! XD

Un peu de mal avec certains passages qui n'étaient pas si bien séparés les uns des autres. Mais bon, le plus important est que l'histoire "tient encore la route", qu'elle intrigue encore le lecteur (no?)

*More reviews (and no fluff) on the blog <http://surrealtalvi.wordpress.com/>*

Black Rose 3 continues the story of Alice and the vampires but focuses more on the tragedy aspects than the horror or harem of the previous volumes. The writing is just as solid and Mizushiro's artwork continues to get stronger. There is a definitely arc in volume 3 and hints that Leo has set into place plans that will affect the group in interesting ways in the future.

Story: Leo has always been the front runner to mate with Alice but she still feels she needs more time to understand her own feelings. Unfortunately for both, what she doesn't know is that Leo's lifespan is coming to an end and time is the luxury he doesn't have.

This is the Leo book - and judging from the end, it looks like the next will be about Reiji with some jealous Kai thrown in for good measure. It was nice to see Dmitri open up more to Alice and I am hoping the series won't be Alice going through one guy to the next until she ends up with Dmitri. I am definitely looking for more development in the Dmitri affair.

I'm still on the fence on this series - it is moody and atmospheric as well as beautifully drawn. Mizushiro does a great job of pulling us into the story but I'm worried it will begin to sag in the middle if the focus stays on the harem aspect. So for now, definitely 4 stars.

Reviewed from an ARC.

Oh, my heart broke a little for Leo...

I really think if Dimitri forgives himself he will finally be able to step forward and try his best to win the heart of Alice.

Wow. Just when you think you have a read on what's going on with these vampires, the author turns the drama up a bit. I'm excited that we'll get to see more personality from the other suitors, and hopefully Alice will feel more comfortable in her role as well. I can't wait to get my hands on the next manga.

Not sure how I feel about this one. Well written like always, but... Leo trying to force himself on Alice kind of rubbed me the wrong way, you know?

And I was seriously confused by the random flashback that was thrown in there.

~3.5-4/5

This volume contained sad for Leo. It's revealed why he was acting the way he was, the poor guy. I liked him, and it's sad what happened. It's especially hard for Alice, who didn't know until later, and Dimitri, who was especially close for him.

They grieve, but they have to move on, do something with themselves. So Alice goes out with the twins, and the competition continues.

Alice and Dimitri continue to grow closer, though, as Alice pushes him to talk to her, to get to know each other. I like the twins, too, though, and am intrigued to know them better.

This is such an odd, unique series. It's horrifying and intriguing. I'm interested, I'm disgusted, I'm curious, I'm sad. If you want unique, new, read this series.

I know this is on hiatus in Japan, but I'm interested to see how far the story goes until we're caught up.

I'm really conflicted by this volume some really odd things happened and i don't know how to interpret them.

So I did tear up a bit with Leo's death but at the same time I'm feeling really conflicted given a couple incidents that leads one to be more angry given the depiction and the MC response. Granted thinking back on After School Nightmare I think there were problematic scenes in it as well and manga in general, at least some I've read tend to have these problematic depictions under the veil of romance.

3 1/2 stars. Still enjoying the premise of this series.

**Christine says**

Sad story...poor Leo. Still creeps me out with the spiders....(shivers) Have to read the next volume, who will she choose?

I still think the spiders and bugs crawling out the mouths of the guys is weird. That is just creepy, y'all. But, I am looking past that.

I really wish Leo had not had to die. He was obviously Alice's favorite, and that hurt her really badly. Plus, it's making all the other guys hurry their advances towards her now.
