Maddi Holmes says

I would recommend this book for students in the early primary grades, kindergarten through first grade. I would categorize it as a modern fantasy book.

I used to love reading all of the books about Biscuit when I was a little kid! I love how they are interesting and a great book for beginning readers. I really like how there are many books with the same characters. This will help readers desire to read to see what Biscuit will do next. It's a great fall book to incorporate into the classroom. It could be a great transition book to introduce a pumpkin unit, or a pumpkin lesson.

Katy Brandes says

This has a lot more text than most other Biscuit books. We love it!

Okay so not a lot happens but CUUUUUTE

Meredith says

Biscuit and his owner make a sweet like visit to a pumpkin patch. Although pumpkins are described as becoming jack-o'-lanterns as well as pies, this book is still suitable for children whose parents belong to the anti-Halloween crowd.

Martha Biesel says

Wonderful book to read to preschoolers. It is not scary with goblets, witches, ghost, and monsters. It is easy for them to relate to fall and pumpkins. I paired the book with a activity for preschoolers. We made paper plate pumpkins.

Fine. Nothing amazing to read and MAB4m didn't really react at all. Pictures were cute enough. She will probably become a Biscuit fan as she gets older.

Tim Hackenberg says

The kids enjoyed this story and the illustrations. Great book for fall!

Tyler Caudill says

this was a decent little story. Basic and simple but I would of been proud if I was the Author. And its cute enough that kids will like it, but I don't think it's status will become more than 2-3 time read, it would bore the reader really quick. So conclusion its cute and a basic skill level of writing in children's book but it's not good enough to read multiple times.

The most delightful little Labrador Retriever pup goes to the Pumpkin Patch and discovers a friend!

The girls simply love Biscuit and get so excited when I read one of his adventures!

The story and the illustrations are just so sweet.... great for the holidays or any day you just need a reason to smile!

Another Biscuit board book focusing on a holiday. This time Biscuit is helping to find the perfect pumpkin. Not much of a narrative but it does introduce Biscuit and holiday pumpkins to the youngest listeners.

Linda Branich says

This adorable board book is sturdy enough for a toddler excited about the coming of Halloween and preparations for the holiday. Biscuit, a cute little puppy, and his human owner, a girl head off to the pumpkin patch, where they find lots of pumpkins and some friends.

This book was about a dog named biscuit who went with his owner to the pumpkin patch. While at the pumpkin patch, they had an amazing day learning about all of the different kinds of pumpkins. Biscuit even got to ride in a red wagon most of the time. He helped his owner pick up many different kinds of pumpkins until he helped her pick the best one. This book was super cute, I loved the hard pages of the book. This allows a baby to be able to grab and play with the book without drippings the pages. This book was also very informational about the different types of pumpkins to pick. I really enjoyed this book because it had tons of great pictures and she drew the dog to be very cute.

I haven't read any Biscuit books before, but this book doesn't inspire me to read any more. While the illustrations are cute and children love puppy, the story fell flat and didn't flow well.
