There are a few "aw, come on" moments but overall, a really good suspense series. Reminds me a tad of Death Note.

Amanda Setasha Hall says

Interesting plot developments. Less graphic than previous volumes, but really good art for combat scenes.

I finished this volume for 2 weeks, it was a cycle of read-bored-stop-read-bored-stop-read-bored-stop-finished. I did not enjoy this volume. The plot just got confusing because of Fujimaru's dad involving his scientist friends - one of which even got killed. What's with all these clues involving so many different people? I thought this was a very highly classified terrorist act! There are even cult groups! Geez. And this terror group with weird names as J or K? C'mon there are now just too many characters man!
