Devoted Lexi Blake

A woman's work

Amy Slaten has devoted her life to Slaten Industries. After ousting her corrupt father and taking over the CEO role, she thought she could relax and enjoy taking her company to the next level. But an old business rivalry rears its ugly head. The only thing that can possibly take her mind off business is the training class at Sanctum...and her training partner, the gorgeous and funny Flynn Adler. If she can just manage to best her mysterious business rival, life might be perfect.

A man's commitment

Flynn Adler never thought he would fall for the enemy. Business is war, or so his father always claimed. He was raised to be ruthless when it came to the family company, and now he's raising his brother to one day work with him. The first order of business? The hostile takeover of Slaten Industries. It's a stressful job so when his brother offers him a spot in Sanctum's training program, Flynn jumps at the chance.

A lifetime of devotion....

When Flynn realizes the woman he's falling for is none other than the CEO of the firm he needs to take down, he has to make a choice. Does he take care of the woman he's falling in love with or the business he's worked a lifetime to build? And when Amy finally understands the man she's come to trust is none other than the enemy, will she walk away from him or fight for the love she's come to depend on?

Dar says

Another sweet addition in the TM world! I forget exactly where we met Amy and Flynn, but I remembered them both well because it was obvious they were going to get a story, and, they were pretty interesting in their own right

As usual, there is some amazing attraction, sexy times to make you squirm, and a big misunderstanding and an even bigger make-up leading to the finalizing moment for the HEA!

Corporate intrigue is the setting this time around, and we get check-ins with Simon and Chelsea, Mitch and smidge of Laurel, Bridget and our favourite surgeon, Adam and Jake have a moment, and more importantly *sigh* Liam..... sorry, needed a moment there

Love the world that has been created, love the characters that are already there, those who get introduced, and those who you just know, regardless of their page time, are going to have a time in the spotlight at some point

Shayna says

Another FABULOUS addition to the INCREDIBLE Masters and Mercenaries Series by the EVER SO AMAZING Lexi Blake! A sexy as sin page turner for sure! I'm always transported to my happy place when I begin a Lexi Blake read. DEVOTED was no different. The journey was a little short, but NO LESS amazing.

A book that takes 'sleeping with the enemy' to a whole new level, DEVOTED kept me on the edge of my seat, grinning with glee the entire time. Amy and Flynn's banter was hilarious and sexy. Our heroine went on these little rants that amused the hell out of me. Two people trying to find solace from the big corporate world, enter a BDSM training program at Sanctum. Sparks fly right off the bat! There is this underlying hatred from Flynn towards Amy, because he believes she is playing a game with him. But that grows into admiration down line when the truth is revealed. A woman who lives on control in the workplace learns to let it all go in the confines of Sanctum and in the arms of the gorgeous Flynn. Just when she is about to let down all of her walls, Flynn's true identity comes to light and her heart immediately retreats behind its protective walls. Enemy or not, she will not be fooled again.

Two lonely, lost souls find comfort in each other. One has been burned in the past, the other has never known anything other than taking care of herself. Together, they will discover what's really important in life, and it's not corporate takeovers. It's finding that one person who completes you in every way...mind, body, and soul. Flynn and Amy are a beautiful match, with their hearts and their wit. Lexi Blake, once again, makes my heart soar with her incredible love stories.

DEVOTED is a FANTASTIC read to cut your teeth on for everything Lexi Blake. It can be read as a standalone, but be warned, the minute you finish, you are going to crave more of this series and this author's brilliance. I've said it before, and it's worth saying again, The Masters and Mercenaries series is one of my all time favorites. I will never get enough it!

Aly is so frigging bored says

This was a very fun read! If you were wondering what the MT team were doing, what happened to Bridget's sister or what happened to Mitch's half-brother you'll find out in this novella.

The book starts with Amy talking to her BFF and ex-husband Frankie about her asshole father and about her not getting any *wink, wink*. Frankie asks her if she's sure she wants to go through with joining Sanctum. In another part of town Mitch tells his brother Flynn that the trainee he got paired with it's Amy (also the CEO of Slaten Industries and a thorn in Flynn's company's ass). Flynn promises he'll talk with the Sanctum people about the conflict of interests there; unfortunately he changes his mind after he meets Amy. Also, Amy has no idea who Flynn is.

As everyone can imagine they don't fucking talk about who they really are. I'm so getting fed up of this "Big Miscommunication"-trope. If it were only the enemies to lover one everything would have been great... but it wasn't. Flynn acted like a complete asshole about his identity and I really wanted to punch him in the face maybe then he would have realized what a completely idiotic idea that was.

A few other things worked against my enjoyment of the story. Ms Blake should have streamlined the novella more, for example Amy tells us several times about her fucked up family or when she thinks about her relationship with ex-husband and how she loved him and he didn't love her in that way; I got really bored with it.

All in all it was a good novella, but not as good as what Ms Blake can write.

Rating: 3.5*

A??ela W. says

Spoiler Ahead This was a pretty good book I love reading this series. Amy Slaten who is also Bridget's sister from Cherished has just took over her father's company and moved the head quarter's to Dallas. Amy has joined the training program at Sanctum and her training partner is a rival. Flynn Adler is Mitch Bradford's little brother he is also the head of Glendale a company that rival's Amy's Slaten Industries. These two liked each other right away although Flynn acted like an as*hole in the beginning when he got jealous because she was checking the other men out in the club. Amy was dealing with her father who was making her life hell because he wanted his company back a company that hw was planning to sell and mess with his employees retirement plans. Flynn didn't want to run his father's company he wanted to right codes but he didn't want to sell it because he wanted to give his little Chase to have a chance at running the company. These two had a lot of chemistry and they sex was hot. Amy was really hurt when she found out who Flynn was. This was a good book the chapter's were long. This book was well written with no errors in grammar or spelling like all of Lexi's book. I am looking forward to reading the next book in this series with Case and Mia.

Pam says

As of this date (May 1, 2016), this is the most current Lexi Blake novella/novel in the Masters and Mercenaries series that has been published. The next novel (Dominance Never Dies) comes out on June 14th and I can't wait. I've LOVED this whole series and have literally flown through each book. Lexi Blake is definitely in her element in this series. Another of my favorite BDSM authors is Cherise Sinclair and they both know this genre very, very well and that is evident in their writing. I have already pre-ordered Dominance Never Dies and would highly recommend any Lexi Blake book!

Ivy Deluca says

Full review to post on April 14 at <http://afterdarkbooklovers.com/>

I liked my visit to the M&M 'verse, even if I had hoped for more Sanctum and less corporate shenanigans. Still one of my fave BDSM series, I'm looking forward to the next full novel. That promises to be a doozy.

Kate's Corner says

Lexi Blake does it again. I love and adore this series so much. I have to say though I'm not sure who is more of an idiot, Amy or Flynn.

Still love them.

Eve Recinella (Between The Bookends) says

Another great addition to the Master & Mercenaries World. Both characters were likable. The plot was deliciously angsty. The conversation between Jake and Adam was HILARIOUS.

Lexi Blake really can do NO wrong in my eyes...

Jennifer says

Another great addition to this world (and now I know what upset Big Tag). I love how all the siblings are getting their own HEAs. It's almost dizzying the twists between Amy and Flynn's companies. Loved how they were both newbies to the BDSM world, and they were completing their training together. The grand gesture was absolutely amazing. How can you say no to that?

Erin says

3.5 stars

Moon Love says

3.75 stars!

So this is going to sound odd. I had a hard time getting into the book. There were a lot of names thrown about and I was confused as to who was who and how they knew one another. But beyond that, I don't read much BDSM erotica so that part didn't do much for me. Now you're probably thinking I'm crazy, because I'm still giving this book almost 4 stars, right?

Well once I got past the sex, the story really opened up into the corporate espionage and combined with the emotional attachments formed between the hero and heroine, I was totally hooked!

Chances are if you do like to read BDSM books you're going to love this story, and if it's not your thing read it for the well written drama, corporate espionage, and thrills!

Steph says

I loved the role reversals in DEVOTED. From Amy's strong work persona and Flynn's desire to take the back seat at his own company, to his sexually dominant personality and her submissive needs, it's an excellent contrast!

Amy Slaten is used to being the dominant woman in the room. After forcing her dad out of the company her grandfather built, she's just trying to get through the days with some bit of success, but during the nights she wants to let someone else take control. So Amy enters the submissive training program at Sanctum where she's paired with the sexy and sweet Dom, Flynn Adler.

Flynn knows exactly who Amy Slaten is before he has her on her knees at Sanctum...she's the woman hell bent on causing trouble for his company. Flynn knows something about that assumption doesn't exactly ring true though, and the more he gets to know her the more he's falling for her. Will she feel the same when she finds out he's been withholding more than orgasms?

DEVOTED is a novella in the Masters and Mercenaries series by Lexi Blake, and also a stand-alone book in

the innovative and fun 1001 Dark Nights series featuring magical and mystical erotic stories by a variety of popular authors inspired by the classic The Arabian Nights tale. I loved DEVOTED, just as I love most everything that Ms. Blake puts in front of me. Flynn is such a different character, kinda geeky, super sweet and smart, he charmed me from the word go. And Amy was awesome...such a strong, independent woman with a cheeky streak who knows exactly what she wants. They made a combustible couple, and I adored that theirs wasn't the typical D/s relationship. He encouraged her chatty and bratty attitude and let her push all his buttons with fun and lighthearted playtime. I don't know why I haven't picked up more books in the Masters and Mercenaries series, but I'm going to have to put that on my to-do list STAT!

Bottom Line: Amy and Flynn are a couple you can't help but fall in love with. Pick DEVOTED up today! - See more at: <http://www.theromancereviews.com/view...>

I DNF'd this because it featured some annoying tropes. Work place rivals, BDSM club meetups.

Jamie says

Hmm. It was just okay. I didn't really get that connection between the H & h that I usually find in a Le I book. I think this is my least favorite book of the series.

Raine says

I enjoy enemies to lovers trope and this one was pretty good. I especially like that Flynn is good with just doing the coding for his company and is just keeping his family's company going to pass down to his brother to run in the future. Amy has just taken control over her family's company because he father was wanting to sell it and she couldn't let that happen because all the people she knows who works for the company would be out of a job. Of course the two clash throughout the story, but in the end it all works. out.
