Face of the Rising Sun William Sarabande

A warmer sun fills the sky as the great Ice Age is ending and a new and savage epoch descends upon the land. Warakan, son of war chiefs and spirit masters, wanders alone in the primeval forest, searching for the mysterious great white mammoth and the totemic power it can give him. He escaped into the wilderness as a boy and has now become a man, torn between his yearning for peace and companionship--and his desire for blood and vengeance. Under the shadowing wings of a golden eagle he is about to fulfill his destiny.

This book ends the story of Chakwena and Warakan. It was as the others were people leaving and people coming back together again. Warakan comes into his legacy at last.
