In My Bed J. Lacroix , Jennifer Robets-Hall (Editor)

The past can shape us ...

Jenna Fitzgerald's beliefs have become her truths.

She's discovered that it's easier to stay away from love than it is to try and deal with the loss of it. She doesn't want a relationship and she has no plans to fall in love. But falling into bed with a guy ...

Well, that's a different story.

Nate Campbell's rules have been set.

He's learned that it's important to really get to know a girl before you move forward. He's not looking for something simple and easy. He's looking for something real.

And he won't give up until he finds it.

But what Jenna and Nate soon realize is that love *is* truth. And it doesn't always follow the rules. Sometimes you don't get to choose who you fall for.

Sometimes you don't get to choose whether you fall at all ...

*This is the second novel in the series about the members of the band, Second Story. Some of the material from **In My Bed** may be considered inappropriate for readers under 17.*

Nancy says

I will try my best to put in words how amazing and incredible this history was, we met Jenna and Nate in the first book of second story ON THE FLOOR, where we see how fun and carefree is Jenna specially with mens, she has like a big rule, just sex and no love, in the other hand we have the cute, handsome, sexy and charming Nate Campbell, Jenna had a plan for Nate they started as friends, even if her stupid heart say another think falling in love wasn't her plan, she was looking for another night, another bed, but he was looking for more but what can you do when your mind body and soul want more and that can only find in the man that makes you think that you can trust in LOVE? story where can see that sometimes the past can change your vision of love, but sometimes will depends of your choice to love or not. Another amazing book from Jennifer LaCross, i really enjoyed and cried (yeap cause in some part your heart will ask you for help) .a must read of 2015 and waiting for more ;)

Danielle says

I am so excited to tell you about this book!! OK, I knew after reading Jennifer's first book, On The Floor (which you need to read before this one to really appreciate everything, that I would love this book. I was NOT disappointed.

By page 13 I was totally and completely heartbroken and devastated. PAGE 13 PEOPLE!!! I was so screwed. OK, something important to note. I am not, NOT, a crier. It's rare in real life and super-duper rare in books. But I wasn't even done with the first chapter and my stomach was in knots, my throat was tight, and I just ached for Jenna.

I was so emotionally attached and invested in Jenna so quickly, it was so easy to read this in one sitting. Jenna is smart and ambitious, and yet so totally (and unknowingly) vulnerable, you just love her. She I hilarious too.

"I want real life penis and vagina type stuff, not fucking on a cloud..."

Jenna is heartbroken early in life and has decided that exclusive non-relationships are the way to go. And for the most part she does OK. However, she was totally blindsided by my new BBF, Nate.

Nate is amazing. A-M-A-Z-I-N-G. Talented, intelligent, kind, loving, OMG I could go one forever! He has issues, don't get me wrong, he's not some unattainable perfect guy. He's real enough to love, and amazing enough to want to read about.

They start out as friends, since they are looking for extremely different things in a relationship, and this is new for Jenna. It's really neat to see them come together.

The emotional attachment Jennifer creates really makes you feel everything Jenna feels, and it is wonderful. The entire book has you half-way on edge, waiting right along with Jenna. Even the character development is thoroughly engaging.

I cannot wait for the next installment!!

Jennifer says

IN MY BED is LIVE!!!

So excited for everyone to finally read Jenna and Nate's story and find out what was going on with them during *On The Floor* :)

You can get it here --> [In My Bed is LIVE on Amazon](#)

Time for my happy dance :)

Kaveshni Naidoo says

I loved this book. If you are looking for something that's sexy, exciting and funny you have found your next read. Jenna thinks she knows what she wants in a "relationship" sex with no strings attached. I kind of judged her here. As her story unfolds you kind of understand her take on love not that she is against it, it's just not for her. In walks Nate. Nate has his own agenda and let's just say he doesn't share Jenna's point of view. The thing is there is no denying the electricity between them. The author was amazing in portraying the chemistry between these 2, I could not wait for them to just kiss. Jenna and Nate must go against what they each believe to make this work, isn't it easier to just walk away. Let's find out.

Jamie Rhodes says

This is one of the first books that I have given a five star rating to in which I didn't like one of the main characters. I'll get to the reason for five stars in a minute. First off, I didn't like Jenna at all. The trouble of this is that I loved her in the first book. I am going out on a limb and say that the reason that I really don't connect with her is the way that she views sex. Even though she doesn't think of herself as a (excuse the language) slut, she acts like one in my view. She views men as a way to have her fun, but not get too close. Now, as the story unfolds we ultimately see the reason why she is the way that she is. I really don't like my main characters to have sex with other people within the book. Thank goodness all of that was over in the first bit of the book. That being said, I loved Nate. He is just what Jenna needs. I honestly had forgotten reading about Jenna and Nate in the first book since it had been a while from the first book to this one. I would suggest maybe doing a reread of book 1 to help. The stories actually coincide. Jenna likes Nate, but she feels that he isn't the bad boy that she needs. It's almost a role reversal with Nate being the serious one and Jenna not wanting a real relationship. I like Nate and Jenna together. Then Jennifer LaCross gives me that moment that I truly began to like Jenna in this book. That is the reason for the five stars. I was all set to give the book a four star rating, but once I felt that connection with Jenna I knew that I had to give it a five star rating. I wanted to throw my Kindle at Nate near the end. I would have loved to have had his point of view for more than the epilogue, but it was a book that I couldn't put down. I had a day off of work and spent

it reading this book. No cliffhanger, but there will be other books about the other band members. I'm going to guess that those stories will also coincide with the first two as well, but I'm not really sure. I highly suggest reading book one before you begin this one. Also, it would be better in my opinion to read them back to back and not have to wait like I did.

Theresa Jarosick says

FIVE AMAZING STARS!!!

Let me start out by saying I am a huge fan of this author. Jennifer's other novel, *On the Floor* was one of my favorite reads last year and I was fortunate enough to receive her follow up novel, *In My Bed* in exchange for an honest review.

I was hooked from the very beginning and fell in love with Jenna's character immediately. She was one of my favorite secondary characters in the first book and I thoroughly enjoyed her story. A broken heart swore Jenna off relationships and she enjoys the easy "hook up" - no strings attached type of relationship. She spends a majority of her college life in that element – until everything is thrown off course when she meets Nate, the drummer in an up an coming band – *Second Story*.

Their connection is immediate and they are drawn to each other. The friendship grows and we learn they both want something different when it comes to relationships. Through compromise they test each others boundaries and Jenna learns not all romantic relationships are like the one that destroyed her perception of love. True love is about finding someone who challenges you, someone you can trust completely and wholeheartedly. And over time Jenna's rebuilds her trust in love.

I loved the way the story followed along the same timeline as the first novel in the series. The same characters remain in the story and Jennifer did a perfect job with character development throughout the novel. I really felt a connection with not just the main characters, but the secondary characters as well. It was written very well and I would recommend this series to anyone who is a fan of the NA genre. Great job Jennifer. I look forward to reading any and all future works you publish :)

Jennifer Hamilton says

I really did enjoy this book!

When I read the first page I was a little surprised and thought I wouldn't like it. I clearly judged the book by what I read first. I kept reading and this was a treat to read! I'm certain many women can relate to this story on many levels.

Her relationship history and how its hard for her to trust entering other relationships. Then the relationship process itself and reading the story between the two of them I truly enjoyed. No relationship is perfect and definitely takes work and we all love the butterflies we get and this relationship touched every part of that!!! Loved this story!!

T. says

I received *In My Bed* as a prize in a giveaway. The gifting did not determine the review/rating, which reflects my honest opinion. This story was a pleasant surprise, with unexpected depth and great characters. While not one I would have picked out on my own, I really enjoyed the plot development and the sensitivity of Nate, the main MC. A really nice read.

Lesley says

I received a complimentary e-copy of *In My Bed* from the author in exchange for an honest review.

In My Bed is the second book in Jennifer LaCross' *Second Story* series and I would recommend reading the first book, *On the Floor*, before reading this one, just so you'll be a little bit more familiar with Jenna, the main character here. And both books take place in the same timeframe, so it was cool to be able to watch a little bit of Jenna and Jake's story unfold from Jenna's eyes.

Jenna's been in love once before, but after a devastating breakup, her trust level with guys is completely non-existent. She thinks that the best way to prevent having her life and her heart ripped apart again is to not get too close emotionally to any guys. Pure and simple, she loves sex and the physical connection that she gets from it. Even though she's quite adventurous in her escapades, she does have some standards.... she is exclusive during her "relationships" and expects her hookup to be as well, but she's very honest with them all from the beginning that what they have is never going to be more than just mutual satisfaction!

Nate might be just the guy to change her mind. She meets him and his friend Will, one night at a bar and ends up going home with Will and starting something up with him that seems to be working. But she talked long enough with Nate to see that he was a great guy and even tries to fix him up with her friend Rachel. Strangely enough, while on a double date with Rachel and Nate, Jenna starts to feel selfish for hoping that Rachel and Nate don't work out. Will turns out to be a tool and too much like her ex. Rachel and Nate don't work out and Jenna starts spending more time with Will, but completely just as friends.

Nate has his own share of heartbreak and trust issues from a past relationship. Could the two of them be just what the other needs?

I really enjoyed this story, but I'm not surprised because I loved Jenna and her crazy outlook in Book 1. I knew she had to have an interesting story that made her the way she is and I'm glad that I got to see what exactly her story was about. It'd been quite a few months since I'd read *On The Floor*, so I wish I would have gone back and reread it prior to reading *In My Bed*, because Nate was such a secondary character in the first book. I don't remember loving him nearly as much as I love him in this book. He's a great guy - it certainly doesn't hurt that he's a gorgeous, sexy drummer in the band but also a great guy. He's guarded because of his trust issues but once he loves, he loves wholeheartedly. His past of course has to come out a bit to cause some issues but I love that the whole misunderstanding wasn't long lived and the way they reconciled was great!!!

I will definitely be looking forward to continuing on with the series, but I'm hopeful I won't have to wait 10 months between books like I did with books 1 and 2!!

Amanda Sheila says

*****An Advanced Reading Copy of **In My Bed** by Jennifer LaCross was generously provided by the author as gift for winning giveaway on Facebook and I'd love to leave an honest review.*

I enjoyed it.

Mostly because it's been a while since the last time I read a book with "normal" theme and not the dramatic one. It's refreshing and I certainly finished it in a short time.

Jenna refuse to believe in love again. After a horrid betrayal by someone she loved, now she prefer a "no strings attached" relationship; no romance, just sex. But everything change when she met Nate. She never felt anything like it before and it scared the crap out of her. Would she able to fight her fear in order to be happy with Nate? Or is it Nate's just another guy who will hurt her; because apparently he has this secret he won't share?

The plot twist at the end with Hannah, I liked it. It's surprising and I think I've never read anything like it before. But to be honest, I was a bit annoyed by Jenna's attitude. She's childish for her being 22 year old young woman. I know she's scarred, but seriously, I wish she could be a bit more mature. Nate, is a good guy. I loved how he not shy to apologize and explain everything to her. What a true gentleman.

Overall I enjoyed this book, though I wish there would be more, you know, drama. LOL, I love dramatic love story. I wanna read a GOOD closure with that A-hole, Simon! Jesus, for a moment I though he's going to show up again in Jenna's life. Haha.

I didn't know that this book is a second book of the series and I'd love to purchase book 1 anytime soon. Thank you for the ARC, Miss LaCross! :)

Lisa Fallon says

this book is set in the same time frame as on the floor Rachel and Jake's story. You don't have to read on the floor before this but I would as you get to know the gang:

" Rachel: the piano prodigy

Jake: the troublemaker

Brian: the football player

Nate and Toby: the nerds

and me : the aspiring ballerina

I feel like the breakfast club all grown up."

the words of Jenna describing the gang.

this story is about love, trust and learning to move forward dreams may change but it doesn't have to be the end.

Jenna was betrayed by someone she loved and it turned her life upside down, instead of coping she grew a shield and decided she would just have sex with men she fancied and keep it casual instead of falling in love

and getting hurt. that was working well for her until Nate came along.
when Jenna got hurt she gave up her dream of becoming a professional dancer and instead ending up teaching. although she enjoys teaching her heart is in performing. Can Jenna learn to put the past behind her and move forward? Will she ever let her shields down?
Nate likes Jenna but he won't sleep with her he wants more will Jenna give in to Nate and her feeling?

I love Jenna she's so confident, sassy, funny and an all around loveable character I prefer her to Rachel. Jenna is the type of girl you just want as a BFF.

Nate also has his own heartache and trust issues (which believe me you understand) . At the end I want to kick his ass for not just telling Jenna everything but it felt like he was pushing her away, I was glad Jenna didn't run she called him out and wanted to know everything or part ways.
we really see Jenna grow as a person from the start to finish as she accepts her feelings she wholeheartedly loves and also learns to trust not just Nate but Rachel as well.

an enjoyable story with loveable characters witty banter and hot sex :) what's not to like lol.

ARC was provided in exchange for honest review.

4.5 Second Story Stars!

In My Bed is the second book in Jennifer LaCross's Second Story series, and might I say, it was better than the first! After reading *On the Floor* I wanted less sex and more character development, more drama, more story, and LaCross delivered that with *In My Bed*.

This book is about Rachel's best friend and sorta-ish ex-boyfriend, Jenna and Nate. You see they formed a bond very early, before Nate and Rachel even dated. I liked the way the author took you back to the beginning and showed what happened with other characters but with the same timeline as the first book.

This book for me was all around a great read, and had everything a New Adult book should have. It is definitely worth your time to read it. Maybe even read it twice. :)
