One Night Stand Sarah J. Brooks

My neighbor just seduced me. She thinks we're only playing.

But my love isn't a game. And I'm not about to walk away a loser.

I was minding my own business when my new neighbor walked in.

Holy f*cking sh*t.

I've never seen anyone more beautiful.

Curves to kill. Mouth-watering lips.

Too bad she's my sister's best friend.

When she "accidentally" bumped into me, I knew what she wanted.

It's been years since I had a little fun, and Nina's the perfect person to play with and more.

But my daughter needs me more than Nina.

Her mother's back.

She all but slapped me in the face when she showed up to reclaim our girl.

But I'm not letting her go without a fight.

I just hope Nina is up for the challenge.

We could be the perfect family.

No more one-night stands. I'm playing for keeps from now on!

This is a great story about a single dad and the new neighbor he hooks up with who turns out to be his sisters' best friend.

I know it was unedited so overlooking those mistakes is no biggie. I felt like the whole scene between Samantha, Erin and Nina was just swept aside with no conclusion. Why didn't the cops show up at the apartment to take statements? Was Samantha arrested? I know it tells a little more in the Epilogue but I felt like there was unfinished business.

Also, does the Author know anything at all about kids? The kid is supposed to be 9-10 but during most of the story I was seeing a 5-6 year old based on what they descriptors were for her. Especially an only child. Most are more adultish than childish.

The Blurb for the book doesn't really mesh with the story. It does but it is a bit wishy washy. Some of those things happened. Also, I am not sure the Title of the book is the right Title. It wasn't a one night stand. The cover is cool except for the fact that usually when the men are all tatted up something is mentioned about it by the woman.

I was gifted an ARC in return of an honest review.

Nina and Logan are proving that giving in to what you want never felt so right. Nina has never been one to really just go for it. It's probably how her swarmy cheating ex managed to get one over on her and now why she is looking fo start fresh. While making the move in to her new place she is offered a helping hand by her studly neighbor and she is more than happy to take him up on the offer and anything else he might dream up as well. Logan has been the best dad to his little girl since her mom decided that the Mommy track wasn't for her. When his sexy new neighbor is more than happy to remind him that he's a man and not just a dad he is happy to take her up on the offer. But he knows he's just not looking for one and done any more especially with his ex looming.

i read this book as part of an arc program. This was a very good story about Logan, a single father to 9 year old Erin and his new neighbor Nina. The day Nina moved into her new apartment, Logan stopped to help her. They then hooked up and Logan had to leave right away. Nina didn't like it, but she thought it was for the best because she just got out of a bad relationship. When Nina's best friend Ant came to help her settle in, Ant told her her brother lived in the same building. Nina figured Logan was Ant's brother and was

determined to never let Ant learn she had been with him. Ant wanted to keep Logan and Nina from each other for as long as Nina knew her and they didn't want to get Ant angry. As much as Nina and Logan tried to stay away from each other, they had a connection and they continued to see each other. Nina had always said she never wanted children and Logan had Erin. When Logan's ex shows up wanting to see Erin, Logan knows she is toxic and he tries to keep her away. Nina has to decide if she really can be in a relationship with Logan when he has a child. I really liked this story and thought Logan was a great Dad. Nina just had to give herself a chance to be around Erin to get to know her. I think they were great together and made a great couple. Another great one from Sarah.

I didn't like it

Within the first five pages, I knew I wasn't going to like this book. The writing was terrible and the characters had no chemistry. And I don't know what all the drama was about that they would find out about their relationship. The story was a bit confusing and I felt like details are missing. I had to force myself to finish it, but I skimmed through most of the book.

and so much more

One Night Stand by author Sarah J. Brooks is one intriguing and entertaining read. Believe me this is one you'll not want to put down. Logan- is a perfect example of a dad- he would do anything and everything to keep his little happy and safe.

Nina - well she's a spitfire- sassy and spunky with a heart of gold - even if she's not aware of it.

There's some drama here that makes the storyline believable and keeps you wanting more.

Enjoy!!

Typhoon is book five in the series Savage Brotherhood MC by author Jasmine Wylder. Holy heck this one is awesome!! The secrets are out(to a select few) but still omgosh!! Robby and Mia are irresistible together- you'll be captivated by their story!!

I sure wish I lived in an apartment building where I can find my own hot and sexy upstairs neighbor like Logan. Nina moves to a new apartment building after breaking up with her cheating, lying, and selfish boyfriend. Logan is a single father raising his daughter Erin since she was born. Logan put aside his sleeping around with any women he could find for his daughter. When Nina and Logan bump into each other, everything that they told themselves not to do flies out the window. Nina and Logan try to hide their relationship from Ant, Nina's girlfriend who is also Logan's sister because she wouldn't approve. Loved the

story line that the author wrote. People can change their opinion of what they thought they wanted to what they really want and need.

Raecharmed says

Nina was moving into her new apartment after a bad break. She never thought the gorgeous guy would help her move her things up to her apartment. Logan was instantly attracted to his stunning new neighbor and when things got heated between them it turned into a steamy night. Logan regretted that he had to go but he was a single dad and need to pick up his daughter. Nina was thinking that as usual she picked another playboy it isn't until her best friend comes over and starts talking about her brother that it even hits her. She slept with her best friend's brother. Things get tricky between them when Logan's sister finds out about them and someone from Logan's past comes back into his life. Can Logan and Nina make a go of being with each other? Will things ends between them because of the person from Logan's past?

This is a great story once I started it I couldn't put ti down. The chemistry between them is off the charts hot. This is a well written and very entertaining story. I would recommend it to any book lover.

One Night Stand by the author Sarah J. Brooks is a contemporary love story that hits all the bells and whistles. Talk about your brazenly thank-you-for-helping-me-carry-in-boxes-let's-have-a-quicky. Which Lucas (established neighbor) and Nina (new neighbor) do. This sets up the basis for drama between her friendship with her BFF, Ant and who's also Lucas's sister. There is a child involved, a crazy ex-wife turns up and Ant has to deal with her emotions. Plus someone is leaving weird notes to Lucas at work. There's certainly plenty going on to hold interest.

I like the storyline so I recommend this book. It's a relatively short story but it's packed with a lot going on but what helps is the location pretty much stays in the apartment building. The characters were well developed and dynamic. The one drawback for me was the amount of internal dialogue. I'm not a big fan of it and after a couple of paragraphs I start skimming. I know, it's strictly a personal thing.

Single and hunky dad, Logan, adores his 9 year old daughter, Erin and basically lives for her. Since his crazed ex-wife, Samantha gave birth and dumped them both he's been the best dad he could possibly be. But he's lonely. He hasn't dated in all those years although Ant , sibling, looks after Erin when necessary. Now Ant's BFF is Nina and she's moving into the same apartment building as Logan but Ant hasn't told either of them. Ant doesn't think they will suit each other as Logan's wary of women and Nina has always said that she didn't like children and has just got out of a bad breakup. But as she's moving in, Nina notices gorgeous Logan and he notices her and likes what he sees so he approaches and offers to help her move in. He is on the floor above and the chemistry between them is combustible! With all this sizzling between them they 'go with the flow' and have a magical passionate encounter that 'blows their minds'! But he has to

leave to pick up Erin. Nina, meanwhile, thinks he's just leaving as he must be a player and using her for s@x. But as Nina comes to know Erin she realises that she actually does like children [well certainly this child] and that Logan isn't the player Ant said he used to be. Ant, on the other hand, is not best pleased that they've met and then there is more drama when the vile ex-wife makes her presence felt! What's going to happen to Erin? Will Logan and Nina have a HEA? Will Ant speak to Logan and Nina again? What's going to happen to Samantha? Written with great characters by Sarah J. Brooks who never fails to bring them to life before your very eyes as you read her stories. Believable and empathetic so that I felt compelled to carry on reading till I'd finished the story in one go. This is a must have read and, I personally think, Sarah's best book yet. I received a reader's copy of this book and voluntarily leave my honest opinion of it here.

I loved reading this book. I read the whole thing in a matter of hours because I did not want to put it down! It was well paced and a very sweet story with a little steam!

Nina was moving into a new apartment when a hunky neighbor helps her out. She pays him back big time and never expects to see him again.

Logan has responsibilities he does not want to disclose to his new neighbor right away, and does not think he will see her again.

Plot twist! Logan is the brother of Nina's best friend. They do see each other again, several times, and eventually

I loved the ending of the story as well. I would have wanted a bit more, but I am pleased with it's wrapping up.

Sarah J Brooks takes the one time tryst with a stranger to intoxicating levels of pure sexiness!

Talk about an attention grabber- this one doesn't waste time on pleasantries, Nina and Logan, get right down to business!

Nina new to the building runs into Logan on moving day, when he helps her carry in all her boxes, one thing leads to another, and he is welcoming her to the neighborhood!

Thinking its all a one-time thing, she is a bit dejected but gets it.

When her best friend comes to help her unpack the next day Nina finds out she and Logan have more in common than one night of bliss.

Leading to a drama-laden, burning down the house heart of hearts story with an edgy twist you don't want to miss!

I loved the creative spin and the ways this story went off too!

Fun yet ferocious, with sass and massive amounts of love- I thoroughly enjoyed this book!

Bravo Sarah! Bravo! Another great story by Sarah J. Brooks. I absolutely love her books. Not only does she know how to write sexy hot, but she gives it meaning and heart.

Nina is starting over. New apartment as a newly single lady, all in result of her ex cheating on her. He was taking advantage of her generosity. So now she is starting over, which brings her bumping into a hot sexy neighbor on the move in day.

Logan is hot sexy neighbor, who is a single dad to a beautiful and smart 10 year old. His ex Samantha cut out on them when Erin was born and has been in and out for many years after. But after 10 years of being responsible feels a bit caged. He hasn't had a date or been laid in years and when he bumps into a sexy hot new neighbor, he can't help but offer assistance.

Nina has never just gone with it. But her gut is telling her to let this man touch her, make her feel. So she makes the first move. She won't ever have to see him again right? But what happens when small worlds collide and it threatens to tear apart her friendship with her best friend?

This book was no exception to the many excellent books by Sarah J. Brooks. It has everything we come to expect from her. Hot sexy characters and an amazing relatable story. I absolutely love her books. Nina is such a sweet girl. I love how she saves the day with Erin. Logan is your typical hot as sin single daddy. He is strong, sexy and dominating. These two characters together light up the pages with their love affair. Whew!!! They are hot!!!!

Overall this book is amazing. I love the characters and the story they live. I had a very hard time putting down this book. It was full of action and thrills. Not only will it get you hot, it will have you on the edge of your seat. I highly recommend this book to all you readers who love a dose of kinky hot scenes with a dose of loyalty and love.

There is an instant attraction between them and it isn't long before their acting on it, like on the very night

she moves in. I loved this book. Logan and Nina were off the charts hot together and their chemistry was sizzling. The book was well written and had a great storyline. It had drama, suspense, angst, a crazy ex, obstacles, passion and love. A fantastic read I highly recommend. I voluntarily received an advanced arc copy for an honest review.

One night stand

I was so surprised how much I enjoyed this book. I haven't read anything by this author. And at first how was a little confused how someone can jump in the bed with another person and then pick up their daughter but everything eventually works its way out.

The ending through me for a little spin but didn't take away from the story. Good characters, nice bit of drama, and some steamy scenes made for a really good romance story.

On side note, I hope Ant Logan's sister finds her own HEA and work through some of her problems from losing their parents while young. Not going to lie thought the excerpt for one night bride was going to be her story lol.

Happy reading
