## Linda says

Beautiful book with personal stories and very enticing recipes. Flipped through and flagged so many recipes I want to try. Already made her yogurt pancakes; probably the best pancakes I've ever made! Nice variety of family and entertaining recipes.

## Heidi says

This cookbook had beautiful photos and the book was very aesthetically pleasing to look at. Her recipes looked okay although she used a lot of all purpose flour she still seemed to use mostly whole ingredients. Her kids are adorable in the photos!

Reading **PULL UP A CHAIR** is more than a cookbook to me. It brings me back to my childhood and young adult self because I grew up watching Tiffani Thiessen on Saved By the Bell followed by the popular Beverly Hills 90210. Fast forward twenty-ish years later and Thiessen has penned a debut cookbook bringing families back to the dinner table connecting them with real food and dinner conversation.

As a mom of three cooking for a family of five I don't have time to waste experimenting with fad foods that require exotic ingredients and a lot of time in the kitchen. I'm also a mother of all girls and keenly aware that dieting and obsessing over weight is not the path I want my girl's to go down. I'm thrilled to see Thiessen's cookbook brimming with real recipes that are not fussy just honest to goodness plans.

I love that she goes back to the cooking roots to make jam – what a lost art, and sharing a simple lunch recipe such as fresh mozzarella, prosciutto & fig baguette requiring four ingredients as Thiessen aptly refers to as the 'Swiss Army knife of lunch' because of their portability and endless combinations. Dinner is comprised of the classic and humble bean & ham hock stew, which is one of my favorite comfort meals to the modernized beef & mushroom stroganoff with creamy polenta – this is not the stroganoff you grew up eating!

**PULL UP A CHAIR** has me wanting to slow down and enjoy family meal time and I think you will want to

do the same.

### **Laura Duvall says**

Love this cookbook! We made a number of the recipes and were not disappointed. My only complaint was that the recipes don't indicate how long it will take to make the item from beginning to end.

In production quality alone, this is a 5 ?? cookbook. The recipes are Southern California bright, the choices are mouth wateringly photographed and there are menu options to entice even the most fearing cooks into the kitchen! Reserving one star until I get cooking myself. I like to think Tiffani will convince me she's worth that extra star at first bite!

### **Valerie says**

---

### **Bianca says**

Love her show on Food Network. Her recipes are fun and easy, and her family stories are charming.

### **Laura says**

This is a beautiful, family-friendly cookbook. There's lots of fresh ingredients, great photos, and she gives the right amount of backstory to each recipe. The extensive breakfast section was probably my favorite; also her deserts are on the lighter side and are a little different.

While the ingredients are generally easy to find, many of these dishes are kind of time consuming to make, so I don't think this is an everyday cookbook. Otherwise, it's worth checking out for a modern twist on a lot of classics. Also, there's no nutritional information.

This cookbook caught my eye as it was from Tiffani Thiessen. After looking at this book, I found out that apparently she has a cooking show called "Dinner at Tiffani's." I had no idea. Like many others, I watched her in "Saved by the Bell," and then a few years ago on "White Collar."

What I like about this cookbook is the pictures. When I look at a cookbook, I really like to see pictures of the food, so I get an idea of what I'm trying to make. The pictures in this book are stunning.

After looking over the recipes, I marked several to give a try. I also like that the ingredients in the recipes seem like fairly normal ingredients. Sometimes I'll look at a cookbook and a recipe has a bunch of odd ingredients in them. I don't want to run to the store to buy a bunch of ingredients for one recipe that may or may not turn out. I like to make a recipe with ingredients I already have, or if it's something I need to purchase, it's something that I know I can use with something else.

In that past few days I have made the corn chowder soup on page 53, the four-bean chili on page 93, and the

corn bread on page 94. And yes, so far they have turned out. And I have several other pages I have marked to try later.

I borrowed this book from the library, but this is a book I might actually go out and buy a copy for myself.

Beautiful photographs for each recipe. Recipes use 'every day' ingredients.
