**Even if love isn't part of the plan, it might be exactly what's needed!**

Molly Hennessy's future was planned long before she was even born. Too bad no one ever bothered to ask her opinion on the matter. If they had, they would have learned her deepest desire was *not* to become a nun, but to have a large, loud, loving family of her very own. When she finally decides to live the life *she* wants, she seeks the help of matchmaker Miss Hazel Hughes.

Law and order are the two most important things to Easton Cooper — especially order. As Commander of the Cougar Springs Mountie station in Alberta, Easton has worked hard to earn the respect of his men. When they start making noises about finding wives, they naturally turn to their commander to lead the way, even though getting married was never part of Easton's plan.

He's determined not to let his mail-order bride mess up his meticulous life. Of course, he doesn't count on a spunky ex-nun with a fiery temper and a generous spirit. When Molly manages to turn his life upside down, inside out, and every which way but normal, Easton wonders if he's made a mistake. But how can someone with such a good heart and such a sweet smile be a mistake? He fears he's falling for his whirlwind of a wife, which *definitely* wasn't part of the plan. But Easton is learning that some of the best things in life can't be put in their place.

*Mail Order Mounties is a multi-author series set in Canada during the early 1900s. Join authors Kirsten Osbourne, Kay P. Dawson, Cassie Hayes and Amelia Adams as they bring you stories of the Royal Northwest Mounted Police and the mail-order brides who love them.?*

I think this is my favourite book, so far, in the series! I just loved the characters and their story. Molly and Easton are so much fun to read about. She's a fiery red head and he's a fastidious Mountie, and when they come together, sparks fly! I love reading about the Canadian North West Territories and their beauty, too. It's a book (and a series) that just makes you feel good. If you want to escape for a little while from your every-day world, make sure you check out A Bride for Easton.

### YOU'RE SUCH A BRIGHT SPARK OF SUNSHINE IN MY LIFE

The stories are the creation of talented multi-authors and each focus on Miss Hazel Hughes, a self-appointed matchmaker and the mail-order brides she locates for single members of the Royal Northwest Mounted Police. Each story in this series will read as a standalone. The story is a clean historical situated in Canada with a great cast of characters and plenty of humor.

Molly Hennessy is a spunky spitfire of a woman, with a temper to match her flaming red hair. Being the oldest of fifteen children, she hasn't had the easiest of lives, but having her future determined by her mother's lineage just doesn't match what she wants for herself. At twenty-seven years of age, defying that order, she will leave the Convent and not take her final vows. Instead, she will become a mail-order bride to a Mountie. But with her choice will come bitter heartache too from her family.

Easton Cooper is the Commander for Cougar Springs and keeps order in the area along with three other Mounties. The area houses an Institute that is used by the wealthy because of the natural hot springs. Easton was orphaned at the age of four, with no siblings, and while he has been with the RNWMP for over ten years, he has never really settled down. His home and life are maintained in strict order, and he is OCD. Agreeing to a bride was to help the other three Mounties. Everything will work out fine, he will explain how it will be, and she will adapt to his ways—or will she?

The plot will bring two completely opposite people together, and that has its ups and downs. There are several laughing out loud moments as sparks fly between Easton and Molly along with heated words. For his calm and sterile order, she will bring her own style and flair, something he has trouble accepting. Molly is a vivacious individual but watch out about stirring up that Irish temper, because she doesn't hold back when she needs to blow.

The town of Cougar Springs will be blessed with a new female doctor, and Molly, a midwife. While she is calm and efficient in her skills as a midwife, a friend to the other mail-order brides, she will have her new husband questioning his decision as to why he married. A life and death situation, both with their appointed duties, him to keep the town safe, and she for her patient will bring them together for a rescue in a blizzard that will teach them humility and respect.

“Commander, I know you like to control every aspect of your life, but if you want this marriage to work, you're going to have to become a willow tree and bend until you both find your footing. Do you want this

marriage to work?"

The saying opposites attract would fit Easton and Molly, his order to her madness, his control to her free will, but in the end, they are just perfect for each other.

"You're the calm to my crazy, and I like to think I make your life just a little more exciting."

Bride for Easton

Molly is the mail order bride for Easton, they are both set in their ways. She has a temper and he wants things in his home to stay the same. Very interesting and enjoyable story, love this series and all the characters. Look forward to reading more. I received an advanced copy of the book from the author.

**Easton and Molly**

I enjoy this series. Loved the happily ever after for Commander Easton and Molly the almost nun. Molly is very talented caring woman who complicates Easton's carefully controlled world in the best way.

### **Anna says**

This was such a sweet and endearing read. Easton, as commander of the Mounties, likes things just so so. He has his quirks and way of doing things that make him a man of routine. But as leader he knows that his men won't send for brides if he doesn't. So off he sends for Molly and his life will never be the same again.

Molly has given up her life. Almost a nun, she turned away because her true calling is to be a wife, helpmeet and mother. And with Easton she hopes to fulfill every dream. But not without challenges. She is very outgoing and outspoken. Easton is very to himself. So when they meet they mix like oil and water. And with Molly being a midwife things get busy for her.

As they try to work out their differences a fast moving winter storm comes upon with no warning and Molly's pregnant patient is no where to be found. Getting caught out in the storm could be certain death. But with Easton by her side nothing is impossible.

Love the sweet and compassionate side of the story. The understanding and growth each of them go through is wonderful. A great short read.

Molly Hennessy has finally taken the steps to pursue the family and life she's always dreamed about. Her salvation from becoming a nun comes in the form of Easton Cooper, who's sent away for a mail-order bride, mainly to appease his fellow mounties who are also looking for partners. I love Molly's spirit and strength, she's the perfect match for Easton, even if he can't see it at first. Such a heartfelt book and a wonderful addition to the series!

Opposites attract to create the perfect match!

Bride for Easton is a well-written and unique story. The story line is fresh and moves along at a steady pace while being engaging, appealing and attention grabbing. This story hooked me from the very start and I could not put it down.

The characters are easy to connect with and well developed. I thoroughly enjoyed this story and like that the author doesn't make the relationship easy. The characters had to learn to live with each other with their differences. This is a story of two people that are opposites but together are the perfect match.

Cassie Hayes knows how to create a story with enough romance and action to keep the reader entertained and fascinated. This is another brilliant book from a remarkably talented author. Cassie Hayes is one of my go-to authors. She writes incredible stories that do not leave me disappointed. Even though this is part of a series, each book can be read as a stand-alone. I am anxiously waiting to read more in this series.

If you are looking for an outstanding romance then I recommend any book from Cassie Hayes. I recommend this book to anyone who enjoys a heartwarming and sweet romance with the happy-ending we come to expect.

### **Love Molly and Easton**

Well what can I say? This series keeps growing even more amazing. I can just picture Molly and Easton fighting over where things go. I love this couple. Easton is so uptight and Molly is a breath of fresh air in his life. They have come from two completely different backgrounds but have issues of never having had anything of their own. Watch as Cassie Hayes gives them both everything they ever wanted.

## **Cynthia says**

This was such a fun read that I totally enjoyed. Molly and Easton are totally the Opposite, Easton has to have order everything in a place and never moved out of that place. Molly is more of a homey person she loves color, trinkets, things that some would call trash but to her they mean the world as you will see between these pages. These two try to find common ground each willing to give a little but first they have to battle it out. There were times this was very cute and even funny and other times I would have liked to shake a few people. There isn't a boring moment it moves at a steady pace giving the reader hours of entertainment. The story line is refreshing, unique, a page turner I couldn't wait to see what these two would come up with next.

The characters are interesting both a little hot headed with tempters to match. Molly's hair should tell you about her tempter, it raises fast she sees red and her mouth just takes off. Easton likes his life the way he has it, he didn't want to marry but knew his men would not if he didn't. He is very pleased with his wife to be that is until she turns his well ordered life upside down leaving them butting heads. They cause each other a lot of pain but also bring each other lots of happiness. I really enjoyed the supporting characters they really liven this book up with their advice, picking and teasing.

This maybe a clean read but there is no doubt these two are attracted to each other with a lot of passion. I feel this is a story mother and daughter could read together giving them some bonding time. I really enjoyed the twists and turns, the unknown, uneasiness and the unsure of how the other feel or deal with issues. I did think Molly went a little over board when he admitted that he changed things. For me it was truly a heartwarming fun read that I totally enjoyed. It is one of those books I will be reading again. What made this a big winner for me was how the two interacted, problems yes but once cooling down they saw the error of their ways and worked at their marriage. I loved how the author showed the passion, the romance but in a way that kept the reader's attention. The buildup of the romance was delightful, steady and very real. I enjoyed watching them hit head on, dance around each other, bend but be strong. They are well matched and very easy to relate to. I loved the humor, the way the author twisted it around make it a very entertaining read. Very well written,

and making this a wonderful read that I couldn't put down.

I enjoyed visiting Cougar Springs again. Molly and Easton's story was really good. I could feel and understand their feelings about love and wanting to have some control in their lives. I found Easton to be a kind and gentle man and I think that is exactly what Molly needed. She also filled a need in his life that he didn't realize was missing.

This story will leave you with a happy heart.

### **Babs says**

Molly's mother has done what all the other generations in her family have expected and passed down. The first born girl will be a nun. Molly tires but in her heart she knows this life is not for her. She contacts Miss Hazel to see if she can help find a mountie of her own.

Easton loves his job and is very particular in his ways. He likes things the way he has them and doesn't want anyone messing with his things. He thinks his wife won't move any thing and do what she wants.

Molly is a sweet girl and wants her things too. Can these two come together and work this out or will Molly want out?

Love this series as the books keep getting better and better. Molly is sweet to read about and the head strong Easton is as well. It is fun at times to see these two clash but you can see the deep rooted love.

A great story to read.

### **Dorothy Roller says**

**The real hero in this story is the heroine.**

Wow what an emotional ride this story was. This one has first red headed Irish woman and she is so much packed into one small woman. I loved this story where the real hero is not the Mountie husband and commander of his team, his wife with the steal force of and attitude can really have an effect on her hero. Ups and downs, emotional outbursts and a horrible blizzard find these two fighting blinding snow to find a very pregnant woman and save her life and that of her hopefully still unborn child.

Boy this story is a must read in this RNWMP series even for men, strong men who think women should be protected and not go against all the others rules. Every marriage needs this story in their collection of marriage books. Each can really find out how wrong they can be, how stubborn they can be and how no matter what they go through good or bad to find the truth of themselves and the strengths of each other should look like. It also doesn't hurt to have a reindeer become a hero too.

Read this story and the rest of this wonderful and amazing series by four authors. You will love each story and the fun animals that are true helpers to the town and boy are they ever wild.
