Loved it! ^ \_ ^

I think what I like most about this particular volume is that the friendship between the members of the Sanzo party (even though they would never admit it even under pain of death) comes shining through. It is after all why I love Saiyuki so much!

Hakkai, Gojyo and Goku have to fight to get Sanzo the help he needs after he has been poisoned by a youkai. This results in Goku taking some extreme measures and the Kougaiji party coming off worse in more ways than first appears...

First one that felt like a filler in the series.

This volume and the previous one got 2-stars for the transphobia.

Goku goes bezerk again in reaction to Kou's challenge, can our heroes replace his power limiters before he kills everyone? The last story is a be careful what you wish for scenario. Gojyo moans about his companions and comes home to find everyone murdered! Def have volume 7 on hand as this ends on a real cliff hanger.

Fabulous artowk and a fun action packed story, you can't ask for more than that. Great stuff!

*"Someday if you let go of this finger and desire for the distant sky, I'll kick your back and tell you laughingly, 'Hurry up and go.'"*

make me want to give Goku a big hug when he goes on rampant and attacking his friends. I might die,

though, because only sanzo who could tame him. and again, it's so sweet watching Goku apologizing to Sanzo afterward.

You know that Tumblr post that's like 'do you like that series?' 'well I certainly like the self-indulgent version of it that I've written in my head' ...well that is basically what this series is for me. It's so hard to write reviews for these because it's all like 'mmm there's a good base but I wish they would do something more interesting with it'. Also I originally started reading the manga because I thought it would be easier to follow than the anime but honestly I think I might prefer the anime over this. I'll probably do a rewatch when I'm done just to compare.

What a painfully typical volume. Haven't we done this basic plot before? Member A loses his shit, Sanzo nearly dies, everyone punches each other and then hugs it out the end. At least there was some progress in the background involving our villain set? Although I still hate the scientist character with the stuffed bunny. He is pretty much the worst, ugh. At least the next volume looks like it will be heavy on Gojyo's back story which will be great.

Another great volume, I can't get enough of Saiyuki! Goku is one scary monkey in this volume! It's always surprising, since he's the most immature and childlike of the four protagonists, but he really seems to be the strongest. Friendship also seemed to be a big theme in this book - Goku's vicious defense of Sanzo, Sanzo reluctantly realizing that he cares about Goku, Gojyo's concern for Hakkai, Gojyo comforting Goku (in his own violent, insulting way, of course), just to name a few instances. Then, of course, at the end, when Gojyo denies that the other three are his friends, his words have the consequence of the other three being injured by an unknown extent, by a strange new adversary, as the book ends in a cliff hanger. I wonder if Gojyo will be forced to admit his friendship in the next volume, at least to himself? I am also quite concerned about Lirin and Kougaiji, I'm pretty sure they are not in very good or mentally stable hands with Ni. Looking very forward to the next book, I'm on the edge of my seat here!

I ADORE this series. I have never found anything like. I have watched all of the anime, read the series over multiple times, and lots of fanfiction. I can't suggest this more. It is cute yet not lighthearted. The characters are great and I love them all so much (I ship Goku and Sanzo forever). If you like m/m then you will like this as the characters have plenty of "interesting" moments. If you simply like an adventure then you will like this. If you like retellings then you will like this. Overall, it's really good and you need to pick it up.

A much better volume than the previous one. Goku's transformation is entertaining. The plot with Ni and Kou's mother developed as a nice suspenseful pace. And the small story at the end with Gojyo and the boy became surprisingly serious and I'm interested to see where it goes in the next volume. I'm just glad this volume made more sense than the last one!
