Great race to find a murderer after Jake Lincoln is the suspect! Jake runs from the cops to try to find what really happened and why he was set-up. Very exciting scenes with wonderful characters who are along for the ride. Could not put this book down until I finished, the story line and great scenes kept me turning the pages! Another awesome story with Lincoln Investigations!!

The best one yet!

I really love this series and have read each and every one. It is really fun to read and this one certainly was exciting with all its twists and turns. I look forward to the next one, hopefully it will come out soon. Jake and Annie make a good team and their friends add much to the plot.

Another excellent book.

Raven T. Hill gave us another excellent story about Jack and Annie, can't wait for the next book in this series. This story again page turner, week in their trust love and Jack accused of something he didn't do. Everyone knows he is innocent, Annie has to help him to prove that he didn't. Can be read individually, but to get the full story start reading from the beginning. You'll love it.

Great read

What can be said in two words should not be required to be said in twenty words to meet the review requirements

Shirley Steiniger says

Wonderful series! A lot of mystery and bad guys. All the books had a different spin to the story but had the same characters throughout. The only people who changed were the bad guys!

Can't wait for book 11 to see where life leads Hank and Amelia!
