My Future Husband Karen Clarke

When Sasha meets Elliot a month before her wedding to Pete, the news he brings seems incredible. He claims to have arrived from the future, explaining that their timeline was knocked off course in 2010, preventing them from meeting, and begs her to find him in the present day.

But Sasha's wedding plans are underway and though she's curious, Elliot turns out to be feckless, rebellious, and engaged to a glamorous and pregnant Belle. He's not remotely her type and is instantly suspicious of Sasha's motives for tracking him down, convinced his disapproving father has sent her to spy on him.

Sasha decides to ahead with her wedding, but a previous connection with Elliot's father finds her doing the catering at a dinner party at his house. With the help of her best friend, Rosie, she soon discovers that Elliot has sadness in his past, and that Belle is up to no good . . .

Leigh says

Sasha receives a visit from Elliot, a man from the future, who urges her to seek out his present-day self, and convince him they need to be together, otherwise life will turn out terribly for both of them. The trouble is, Sasha is imminently due to marry rock-steady Pete (whom the internet told her is a perfect match), and playboy Elliot is engaged to Belle, who also happens to be expecting his child. Sasha's best friend (and partner in their catering business), Rosie, eggs her on, but it takes a certain brand of persuasion before Sasha takes interest in Elliot's cause.

There were a lot of laugh-out-loud moments in this book, particularly concerning Pete's snide-mouthed mother, Vivienne, and I found the humour natural and well-fitted to the story.

I read this book in 24h while travelling - finding it hard to put down. During what breaks I did take, I found myself keen to get back to it, wondering what happened next. Even when I'd come to the end, I carried on thinking about the characters for quite a while afterwards!

I found this novel hugely entertaining. It's a riot of lighthearted fun, with engaging, well-rounded characters and a well-paced plot.

Jayne Evanson says

sasha is going to marry pete, everthing is booked and her best friend and catering partner have everything in hand. a visit from a future elliott throws a spanner in the works as he wants sasha to change history. can sasha carry out elliotts request in time to say I do with pete? I loved this book it made me laugh out loud. would recommend as a great inbetweener

Saskia Jones says

This was such a fun read that made me laugh a lot, and I loved the time travel element which made it stand out. Great characters, I loved Sasha, and the future versions of them all were hilarious. I thought the awful mother-in-law was particularly well done, she made me cringe. I really think this book would make a good film and can't wait to read the writer's other books.

Sara Robertson says

A light hearted rom-com. Enjoyable and fast paced. A woman just months from her wedding day is accosted by a strange looking man who tells her that she is making a terrible mistake and she should be marrying him. A twist of fate meant that they had never met, they are all miserable in the future and he has come back to try to make things right. Not a book that I would read again but I would read more by this author.

F

Jennifer says

This was an alright book. It says it is like the time travelers wife, but I don't know that I agree with that, I loved that book and this was just....a guy travels back in time. I don't know, the main character was just stubborn for no reason. Like she is making out with another guy days before the wedding, yet she is still going to marry the same guy? Really? Maybe that is a sign that you shouldn't. It wasn't the worst book and it was a quick read.

Christine Blachford says

Naturally, my obsession with time travel led me towards this book but I thought it was an interesting take on the sci-fi trope, putting it into a slightly different context and genre. This time, we've got more of a rom-com feel going on, with our protagonist visited from the future and told that history has taken a bit of a wrong turn - things need to be corrected.

It took me a while to adjust to the concept, and you do have to hurdle over it being unbelievable. Somehow, it seems harder to swallow time travel when it's in the more mundane everyday, rom-com setting. But Clarke does a great job and sells it well, so that soon you forget about the setup and enjoy the story of the characters and how they wind their way through life as it is, hoping to get to how it should be.

Overall it was an enjoyable story, a good tale, with excellent time travel elements draped over what is a good drama to read in itself.

Kathy says

I needed an audio book for 14 miles of hiking and this one was recommended by a reviewer I follow. Enjoyable, funny quick read.

Raqui says

This was a fun read with lots of shocking twists and reveals. I loved that it is not too romance and yet not too sci-fi. There were some real laugh out loud moments in the book which made it even more enjoyable. I'm really glad I gave it a try. I would definitely recommend it.

Natalie TBGWP says

This, is honestly a must read.

It's a roller-coaster of quick wit, down to earthness, (is that even a word?) happiness, sadness, silliness, I think you get the picture.

It's marvellous! I loved how Elliot was something he wasn't, how like in real life circumstances past issues are the downfall in attitude and personality. A security blanket to stop the world seeing you. The no nonsense approach to Sasha making her instantly someone who you warm too and want to call a friend. Someone Who you will on to challenge Elliot and dump fiancé Pete, like its not a twosome consisting of her & her best friend Rosie, but a threesome that includes you.

I absolutely loved Mrs. Treadwell. she is the ultimate dragon of a mother-in-law. Also, the eeriness to Beatrice and her presence.

I really could write all day about this book. If I giggle loudly, tut, gasp or arr during reading, that's an indication of a good book. I am very hard to please, but credit where credits due Karen Clarke had me doing them all. This is as as its gonna get for me. It has everything I'm looking for in a book. A good quirky storyline, well thought out and balanced characters, honesty and power to absorb you into the pages.

5/5 stars

A definite read again.

Louise says

I started this book and then couldn't put it down. would have been nice to know how the future went.

Talli Roland says

A very enjoyable, entertaining read.

Heather says

This was a funny book. A bit of language, but it was a different concept than other things I've read, and it was pretty cute. Free on Amazon too, so not bad.

Elaine says

I didn't expect much from this book, to be honest: "a lightweight 'The Time Traveller's Wife'". But I thoroughly enjoyed it. Likeable characters (plus a couple of 'love to hate baddies'), good plot, and great humour (I laughed out loud several times).

Dee Dodgson says

A love story with a difference!

Yes it is a love story, but it's also humorous, exciting and well written.

Great holiday read and one to chill with, highly recommend.
