Prison of Horrors Sonya Bateman

"Hell if I'd let some dead woman get the best of me."

It was supposed to be a break. A few days in Lightning Cove, Maine -- a very small town with a very old history -- and a chance to get to know Special Agent Calla Frost better. She swore it was just a routine check-in with a research team. No monsters, no magic.

But when Gideon arrives in Lightning Cove, things are just a little too perfect. And even before the first dead body -- the one that won't talk to him -- he realizes that nothing and no one is what it seems in this place.

Including Calla Frost.

This was truly an seating series!!! Adventures around every corner!!! Filled with mystery and wonder about what was going to happen next!! Always keeping me on the edge of my seat waiting for the next plot twist!!! I know I've said this with the other chapters to this series, but I would love to see the Deathspeaker turned into a television series!!!!

Loved it!

I haven't had time to review the others as I dove straight in to each next book. Just to say this is a fan series, I can't wait for the next one. I read the series through Kindle unlimited, but I will be purchasing them as they are definitely ones that I will read again. I am not one for explaining the story or giving critiques, I will just say they are well worth reading if you are fans of your urban fantasy with a sense of humour.

Fans of Butcher, Herne et all will love this series. X

Still having a good time. I hope you are enjoying this too. Bateman has a gift, and is sharing it with us.

Another great instalment to the series

I was so happy to be back in this world again, it was like I never left. It was another short and sweet instalment but with a little less of our usual characters. I would have loved too have seen more Eli as he was my favourite in the last book. I also felt that the main story was wrapped up a little too nice and neat but it led onto a potential plot for the next book. I really hope Sonya Bateman continues this series, I love it and can't believe I've read them all already.

Norma says

Entertaining series.

I have really loved following the exploits of the Deathspeaker and his friends and family. I just can't wait for the next book.

I like this series, but I can't give PoH a higher rating. It was just too short and *really* needed more fleshing out.

Calla Frost goes to visit her team in a small New England town. They've found a long lost artifact and she needs to check it out. Things go sideways of course.

It's too spoilery to give more details, but basically Calla asks Gideon to go to Lightning Cove with her for a few days. Since he could seriously use a vacation, and he's got a huge crush on her, he agrees to go.

We knew Calla and Gideon were attracted to each other in the last book and you felt a romance *could be* brewing. In PoH, we learn they've been talking and meeting for coffee occasionally since the end of book #5,(mostly talking shop) but they haven't had a first date yet and beyond the short kiss Calla gave him in the last book nothing physical has been going on. Not even hand holding. Ms. Bateman can write an entertaining story, but romance? Not so much. Be prepared to go from zero to an unbelievable sixty in 2.5 seconds...or 172 pages. (Nothing sexually graphic, FYI)

Of course things are not at all what they seem, and Gideon is again in a life or death situation...and tortured. AGAIN. Man, does this author love to torture our poor Gideon. And Gideon always seems resigned to just *take it* for the greater good. Or the plan. Or whatever. Maybe he feels he deserves the pain?? I'm beginning to wonder.

The whole (view spoiler) thing was downright confusing. I didn't understand why at one point they had to obey Malphas, and at another, they could choose not to. Maybe a longer page count could have helped with this issue? Instead it felt contradictory and contrived just to aid the plot.

The premise was interesting, but it felt like several scenes were just rushed through to get to the end. The details were lacking here and consequently, my emotions didn't get fully engaged.

Will I read the next one? Yes. I still really like Gideon.

Gideon stretches his wings

This is a fantastic read. It was nice to see Gideon away from his support system and having to rely on his own abilities. I feel that he grew as a character and became more likable as a result! Impatiently looking forward to the next book!

Another Spellbinding Book by Sonya Bateman!

This series just keeps getting better and better. The hard part for me is the trash talking about God and all of the cursing using the Lord's name in vain. A story can be just as exciting without an expletive every five minutes. I really enjoy the camaraderie Gideon has with his Brother, Sadie and Fae friends. I like the heart Sonya gives Gideon and the other characters. She truly does give the characters "souls". The cliffhanger at the end sounded intriguing and I'm ready for Gideon and the gang's next adventure!. I hope Sonya will continue the love story between Gideon and Frost. It's about time that he has someone who will love and care for him romantically. I began this book earlier this evening and couldn't put it down until I finished it. It is now 3:21am on Christmas Eve and I'm very sleepy. Obviously I highly recommend this book and series. Thank you Sonya Bateman for another amazing Gideon Black book! Happy Holidays!

Not released fast enough

Just when its getting really good; the story ends and I'm left wanting more. This series just keeps getting better and better. Cant wait for the next book in the series and learning more about this new player.

Nicole says

I love this series!

If you're looking for entertaining and quick reads, this series is for you. I'm never sure how Gideon will make it out alive, yet he always does.
