Runic Awakening Clayton Taylor Wood

Runic Awakening is the first book in the Runic series, a contemporary epic fantasy series set in the world of Doma, where magical engineers called Runics rule the land. They are equaled in power only by Weavers, men and women that can manipulate the very fabric of the universe with their wills.

Kalibar is the greatest of the Weavers, magic-wielding soldiers who defend the Empire. Long retired, he is content to spend his final days studying magic in solitude. So when he finds a boy named Kyle bleeding to death on an abandoned road, Kalibar is reluctant to take him in. That is, until he discovers that the boy has incredible magic potential. There's only one problem...Kyle claims to be an alien from another planet.

A planet he calls Earth.

With no idea how Kyle got here, and no way to get him home, Kalibar takes the boy under his wing. Eager to train Kyle to use his incredible powers, Kalibar has no time to do it. Lethal assassins calling themselves Death Weavers are trying to kidnap Kyle. Led by a ruthless undead immortal known only as the Dead Man, the assassins plan to use Kyle's incredible abilities to destroy the Empire.

Time is running out...and Kyle may be the only one powerful enough stop the Dead Man. If he fails, the Empire will fall...and Kalibar will suffer a fate worse than death!

From Reader Review Runic Awakening for online ebook

Natalie says

Good start, fast paced with flashback/dreams and plenty of violence. Lost me a bit at Dead man. It's kind of a not again feeling. Interest quickly regained after that up to the end. Looking forward to reading the next one. Favourite character would probably be Darius.

Amith Somasekharan says

Good concepts of magic and excellent world building but the main character is incredibly annoying. One of the problems I have with a young protagonist is the fact that they often become a hindrance to action and plans rather than an asset, and this was the case with most if not all of Runic Awakening. Kyle is an underpowered and really young character who is the supporting cast insist has more power than anyone else in the rest of the world, but this power is never given any time to manifest as the plot is rushed forward to conclusion. Maybe the powers will be better showcased in later books, but I feel the way the author held back that plot point for later books affected this one negatively.

Jeremy Patrick says

Not terrible

This book had its fun parts. It kept me on the edge of my seat waiting for the MC to grow a pair.... which doesn't really happen. He gets a little lippy but never really DOES anything. A decent distraction.

patricia a. folks says

Very good.

Quite the enjoyable book. I'd say it can be safely read by children 10 and up although it does have some darker elements.

Moira says

18.4.2018 - 4*

D?vod, pro? jsem tomu stáhla hv?zdi?ku, nejspíše bude žánr sám. Obvykle se dokážu držet standard? žánru docela dobře a od YA neo?ekávám to stejné jako od epické fantasy. Ale autor to v tomto p?íb?hu míchal tak podivn? (místy to bylo vážn? jak kopnutí do zub?), že jsem to vnímala jako super fantasy (jelikož magie, sv?t, místy brutalita, intriky, my my ^^) s mladistvým hrdinou, který byl navrch strašpytel. Klobouk dol? pro Wooda, Kyle nebyl chodící klišé a dokonale vystihoval mladého klu?inu. Což ale byl problém sám o sob?,

aspo? pro m?. *smích* P?esto skv?lý p?fb?h. :)

Elinor says

I enjoyed reading this book, but it is a very confused world. The magic just doesn't make sense. I know, I know, it's magic, what do you expect? It's just that there seem to be so many crazy things happening that do not line up with each other. The unexplained events at the end where everything is magically better. Tada! There was one point where the main character was grieving for someone who died, who he hardly knew, and the author points out another character comforting them, that the second character didn't know the dead person. But they both had exactly the same amount of familiarity with the dead person. Made no sense. Also, this is a coming of age story, but it has disturbing violence, so be warned, it is not for kids. The things that made it enjoyable were that it was unpredictable, did not use the standard plot for coming of age and the pace was quick. It certainly kept me hooked. I'm debating whether to read the next book or not. I kind of want to know if the author explains the magic a little more.

Amanda Kern says

Picked up on whim

I picked this book up on a whim. I could not put it down. Now I Ryan would like the next one. There are so many unanswered questions. I like how it builds up a f I enjoyed the twists in the book.

Highly anticipating the next book.

Lurino says

It was supposed to be a fun read, then it grew heavier

What started off innocently as a typical young adult novel with coming-of-age theme grow twisted gritty with each passing page. Then, when you thought you had the plot figured out, it took another twist to something closer to a hero story, with a different hero than the one when the story started. Looking forward to read the next books, hoping that there would be more interesting developments with the Empire

brandon says

Meh

The plot was good very well done, the main character was a meek pathetic crybaby through out the entire story, in my opinion it ruined the story, their was no growth in the mc and It held back the story.

Jonathan says

I downloaded this book free on Amazon top 100. I went through every emotion possible with this book. To start off i really did not like Kyle.His character started off as weak but gradually grew into a hero. Saying that i enjoyed the book overall. I look forward to more books from this author and will start the 2nd book in this series as soon as i can. Give it a try.

lorikayhorsfall says

Wonderfully entertaining .?

This book took you on a magical journey of an intensely disturbing trip to a world of dangerous magic . With both good and evil and heroes to boot . All centered around a confused young boy .

Ron Brown says

A good read

I have to admit this book was a pleasure to read. I look forward to reading to next book of the series.

Lukas Lovas says

Not bad at all. Kind of original, humorous in some places, rather disturbing in others in regards to bodily harm....I am a bit confused about some things that happened here, as they seem plot breaking and I am curious to see the explanation. That said, I enjoyed reading this book and I laughed out loud a few times too :)

Christopher Johnson says

Kept my interest for the most part. Not a bad read by any means, the writing is a tad repetitive for my liking. Not sure if I will continue the series. The characters are all very fleshed out as well as the world, just hard to get through with the writing style

Ezekiel Alvarez says

Wonderful Writing

Classic coming of age story, with great prose and world building. This is a worthy read, looking forward to more very soon hopefully. New ideas and real life grit give a age old storyline everything you want to keep

you captivated!
