Could not put these books down until I finished all three!

I love this series. There are a lot of twists and turns in the plot to make a page Turner and just a little bit of romance to keep me intrigued. I love how Sarah has gone from an unhappy marriage and massage therapist to a budding PI.

My first review

I enjoyed Sarah Woods so much that I had to write a review. Defiantly a cozy read .I read 9 stories in 2 days. Some I could solve. No one was so offbeat to not be believable. Very little sex ,violence or swearing. So glad there are more to purchase.

Sarah woods is addictive!

I wasn't too much of a fan until this volume. I was so into the stories that I was finished before I knew it! The mysteries are thorough and done so well, you can't guess what will happen next. I like mine with more romance but this was good enough that I didn't miss it that much. There was a shift in Sarah's love life but it was the anchor of the stories. A must read!

At Dawn Came a Powerful Reality

Maybe I am just a romantic optimist, but I am also a person who knows all situations don't always end up in "forever after".

People often work together and form lasting, deep friendships, not necessarily romance.

This author has captured this, and conveyed it to her readers so very well, that even I became convinced that the next book would be involved with Max and Sarah's new world....until the very last page!

Jennings knows how to capture her readers... forward to the next novel. I am headed there now! Thanks, Jennifer, for a wild, but believable ride!

Great series

I give this series five stars. I really enjoyed the characters and the storyline. These books were believable and the characters likable. Those are the two most important elements for me. I would k d recommend this series to any one who likes a good mystery.

Sarah woods mysteries are great

Fast paced, easy fun read in one sitting. I like that one book follows the next and theatre is continuity

Series Was Great

The first 2 volumes in this Sarah Woods series is very good. The author has edited very well and it has a great storyline. But #3 was the best with a very good ending that while I suspected it, made me glad when it came about. No, not gonna tell, although anyone who has read the latest books already know.

Sarah Woods Mystery Series (Volume 3) — Jennifer L. Jennings (Sept. 17-19, 2018)

Contains #7-9 books in the series: “An Appetite for Revenge;” “A Date With Death;” “A Weapon of Choice.” Check individual titles for a more complete review.

Book 7: An Appetite for Revenge (19 chapters+Conclusion) Sept. 17, 2018 — Four stars

Sarah heads to Florida and finds Max spending a lot of times with his ex, Jennifer. While she stewes on what that might mean, Max’s client dies of a heart attack...was it natural or unnatural and why is ax with Jennifer so much?

Book 8: A Date With Death (23 chapters) Sept. 18, 2018 — Four stars

Sarah and Carter are asked to research three guys that a client is interested in dating, but doesn’t want to do the dating research herself. All three have skeletons in their closet. Are any of them bad to the bone? Meanwhile, Sarah has to make a decision in her personal life.

Book 9: A Weapon of Choice (29 chapters) Sept. 19, 2018 — Four stars

Sarah’s son Brian refers a college friend to Sarah to investigate whether her mother was killed by a woman

behind bars or if it was someone else. Carter reveals an important secret, causing Sarah's personal life to come to ahead and there is no turning back.

As this series has progressed, the stories either keep getting better, or rehashed plots are brought to life again. I'm glad I've stuck with this series. The author has done something wonderful with these characters, and though I didn't like how the first book turned out, I have really enjoyed the following ones. Sarah still comes off as a bit of a narrow-minded person, but she is slowly growing. And she is a good balance to Carter.

Four stars.

Denise says

This set was a great addition to a fantastic series. I love reading about Sarah and Carter. They make a great team and are usually very good at what they do. Each book has a good mystery and the story lines are intriguing. I love following Sarah on her journey of finding what makes her happy. She grows as each case unfolds. And with Carter by her side, she has found her purpose. A great add to your tbr list.
