Casey says

These are perfect read aloud books for my five and six year old boys.

Miguel Cervantes says

will kung pow defeat birdbrain and turn the zombies back to normal or fail?

The Brothers says

Dexter (8yo) read.

Barbara says

I'd never have considered looking for a book that combines a plot concerning a chicken with superpowers--Kung-Pow Chicken--and his faithful sidekick Egg Drop with chickens staggering through the school halls and the city streets. As Gordon Blue quickly surmises, there is mischief afoot, and the chickens have been turned into zombies in search of brains. This one works well for young readers since it is filled with colorful illustrations, humor, and small amounts of text. It might not be my thing, but it will easily find an audience.

Mandy Robek says

Interesting plot with a Super Hero chicken and Zombies. Trying to have a graphic novel format. Not my personal genre of choice to read but I enjoyed the book because I knew a student or two who would find the zombie concept with super hero chicken funny.

J. Jefferson says

A quick and entertaining read! A great book for reluctant readers who like humor.

Stephanie P says

I read this with my 4 year old son and he loved it. He really pays attention to and is interested in all the characters and what is happening in the story. He would have wanted to read the whole book straight through if we had time, because he kept begging for another chapter. He loves all the full page color pictures. He is sad there is only one book left in this series, but we'll different check out others in the Scholastic Branches line because I love how those are set up.

Jenn says

X likes them but these are very repetitive.

Celeste says

Great books for kids. The little ones love every second of it, and my first grader re-reads them all himself as soon as we finish reading them as a group. I only gave it three stars because I don't enjoy reading them with my kids like I do with some of the other Branches book series.

Pinky says

Kung Pow Chicken and Egg Drop fight bad guys. They are 1) a chicken who is in first grade and wears a tie and glasses and 2) a partially hatched egg with legs who is in kindergarten.

The teachers have been turned into zombies who screech BOK! BRAINS!

Could not possibly be more cute or more perfect for first graders.

Alex says

I enjoyed this book because I like heroes. I also enjoyed this book because I like to save the day. I also enjoyed this book because I like Kung Pow Chicken and Egg Drop.

Amy says

When his school and town starts filling up with zombie chickens, Gordon Blue must once again cast aside his everyday school life and save the day as the super here Kung Pow Chicken. With his trusty sidekick (and little brother) Eggdrop and some necessary but unwanted help from his friend Annie, Kung Pow foils the plan the evil Birdbrain who wants to turn the world into zombies so that he can be the smartest chicken. This early chapter book is an entertaining middle ground for readers not quite ready to let go of illustrations. The text is interspersed with full color illustrations. Recommended for purchase, ages 5-8

Barb Keister says

Third book in the Kung Pow Chicken series. Fun read for fans of unlikely super heroes and readers who like a mix of comic/text. Grades 2-3 for independent reading.
