Great Books

Loved every one of these books! Ms. Rice character are well developed. The men are strong but tender. The women have minds of there own and no man is going to tell them what to do!

Pamela(AllHoney) says

The Dangerous series by Lisa Marie Rice. I have actually already read this series and wanted to reread so I downloaded the kindle version for convenience. I am not going to write another review for the books since I already did that.

Uhhhhh

These books are a little bit of romance, a little bit thriller, and a little bit sci-fi. The science being where the men are all cyborgs with STIs—what with their perma-erections and constant ability to go again and again and again without any sort of refractory period. Spewing buckets of come out of their “weeping” members. Yikes.
