I HAD IT FOR 2 YEAR'S THEN I LOST IT "CAN'T REMEMBER HOW I LOST THE BOOK" SO THEN IN 2008 I SAW THE BOOK AT ROSS DRESS FOR LESS STORE AND AT THAT TIME I WAS WORKING THERE SO ANYWAYS I BOUGHT THE BOOK SO NOW I BEEN HAVING THE BOOK FOR ABOUT SIX YEAR NOW. I REMEMBER THE MEAN'S OFF OF THE BACK OF MY HEAD SO I DON'T READ THE BOOK SO MUCH IN LESS IF NEVER DREAM ABOUT SOME THING THAT I NEVER DREAMED ABOUT. I HIGHLY RECOMMEND THIS BOOK!!!!

NzingaMarie says

This dictionary is helpful. Doesn't always have what I'm looking for, but for the most part it's pretty okay.

Karen says

On the rare occasion that I do sleep, I have seriously wacky dreams! Ever dreamt that all your teeth fell out? It means your boyfriend is a psychotic loser!

Alice says

This is one of the best Dream Interpretation books I've seen. A good investment.

Carolyn says

This is a dream analysis reference book. I refer to it often to analyze my dreams and sometimes the dreams of my best friends/relatives. Once I start reading through it, I usually can't put it down for an hour. The illustrations are thought provoking. I have given other copies of this book as a gift.

Natalie Pietro says

I got this book as a gift and I sure could use it. I have wacky dreams and this book really helps decode them. Easy to reference and has great colorful pictures. Plus is not to big so you can take it long with you If you

need a quick reference.

Jackie says

Good reference when I had a dream. Some dream meaning gives me a hint from this book.

Carolee says

Fun and colourful ... BUT, not to be taken too seriously.

Jewelz says

This is my 3rd dream dictionary, i really love it and it is illustrated! I use three other resources to analyze dreams and i have my own group for dreams if anyone is interested!

Karen E. Garcia says

This is a great book for fun and giggles, not for seriously trying to understand your dreams. The book is beautiful to look at but its interpretation of dreams is off. If you are seriously interested in learning about what your dreams mean then do get another book. If you don't much care for finding out or want something to laugh about, this book will do.

E. says

OMG!!! Deffinatly a MUST HAVE if you seriously want to know what your dreams mean. I bought this book about 12yrs ago, lost it and was extremely comforted when hubby found & bought mee another copy. Hits right on & easy to read. I have tons of Dream books and this is the best by far!!!

Miss says

This book is pretty cool. I did have a few moments when I'd dream about something and I'd pick up this book to see what my dream meant. And the book was actually right about some things to my surprise. I usually don't believe in these sorts of things, but this book was pretty accurate at times. It doesn't have all the answers, but the majority of the things you dream about will be in this book. Read the beginning as well though the introduction explains about reoccurring dreams which I was having awhile ago and I am now and I forgot what that meant and in fact the reasoning behind that is completely right. I believe I am having a reoccurring dream right now 'cause the thing I'm dreaming about constantly is not resolved. It will be resolved sometime in the future, but right now it just can't be helped so I may continue to dream about it. This book

will help you understand why you dream about certain things though.

Molly says

I keep this on my bed stand and even though alot of it painfully obvious symbolism i like it.

Mindee says

I love referring back this book after a long night of dreaming. The dream interpretations always relate to situations in my life. Its so interesting!

Monique says

This book frustrated me so much and sadly it was a gift from my mother because I frequently have detailed dreams so she purchased it thinking it would help...Almost everything in here had a negative meaning and most of it I feel like I couldn't relate too...I hate that...And to think I had so much hope for this book...smh...
