Adventures with the Baumgartners

Selena Kitt

Adventures with the Baumgartners Selena Kitt

The broad-minded Baumgartners are ready to open their arms—and their marriage—once again.

While Ronnie, their former flirtatious babysitter, is exploring her newfound naughty nature with her lover, Gretchen, Doc and Mrs. B have their sights set on old friends, Daphne and Ari Wilson.

Things really heat up when Ronnie and Gretchen take on an adventurous new roommate—and her boyfriend, too.

Everyone seems to be having a rousing good time—until romance sparks between Ronnie and her handsome personal trainer, Vince, and she needs to decide—does she really share all that well with others?

Nikky says

There's always an adventure when the Baumgartners are involved. The way they openly share themselves with others but not losing any of the love shared between themselves is amazing. They seem to attract some hot lovers and burn the sheets.

Delacey says

I've enjoyed several of the Baumgartner books, however, I felt this book was a little weaker than previous books (with the exception of Letters, I did not care for that one). I liked how this story fills in the gaps between Babysitting and Crazy/ Reunion. It's told in 3rd person from several different viewpoints. Lots of steamy scenes. So, why do I think it was weaker? Unlike the previous books, Adventures was written specifically to become an adult movie, and it read that way. Scenes seemed to focus more on changing positions and being able to check off the typical scenes expected in adult movies. That being said, the book was still an enjoyable addition to the series. *I received an ARC of this book and this is my voluntary and honest review.

Amber says

Another scorching hot book by Selena Kitt. I recommend making sure to have fresh batteries and all of your toys next to you when you read this book cause you will not want to put it down. Lots of detailed sex scenes with FF, FFF, FFM, MFM. I only wish there had been an MM or MMF scene to round out the action. I would have loved a scene between Doc and Ari. Another great book to the Baumgartners series. It is going to be a great movie. I voluntarily reviewed an advanced copy of this book.

Tiffany says

I love all the books I've read by this author and this is no exception. It was super hot!! There's lots of steamy action with lots of details between a variety of people combinations. I do wish there had been at least one mm or mmf scene as I enjoy those more than ff or ffm. However, I still really enjoyed this one.

I voluntarily reviewed an Advance Reader Copy of this book. This is my honest review.

Lamar says

Very exciting and extremely erotic with a great plot!

Sharon says

This is a steaming hot addition to The Baumgartners series that chronicles what happened to Ronnie once she stopped working for the family and focuses on her relationship with Gretchen. However the wind is blowing in old friends and new ones which are going to lead to some arresting developments. Leave it to Selena Kitt to get one's panties in a bunch, and then some.

I volunteered to read an arc for a review.

Dolores says

I received this book for Free to Give My True & Honest Review

I would tell you straight off, if you haven't read any of Selena's Baumgartners Series this WILL give you the best orgasm without actually ANYONE (including yourself) touching your nether regions as its another VERY HOT continuation of the very open relations the Baumgartners have with having Daphne & Ari Wilson back in their lives.... ????

Jo says

Hot, hot, hot!!!! This book fills in some backstory information. If you like girl on girl action with a guy character thrown in this is the book for you. It's the swinger lifestyle. It's obvious as well as shown in action and words how much the husbands love their wives. If you liked Ms. Kitt's other Baumgartners books you will love this one too!

Carly says

Another great installment in the Baumgartners series. Wickedly fun to read.

Received it free in exchange for a review!!!

Gladys says

This is another great addition to Selena Kitt's ever-growing The Baumgartners series. Sexy, fun and wickedly hot it is a great read. This book gives us details of what happened in Ronnie's life after she left the Baumgartners employ. A great read and an excellent addition to the series. Selena Kitt is a very talented author that never disappoints. I voluntarily reviewed an ARC copy of this book.

Michelle says

We return to the world of The Baumgartners in this novel - and beyond getting more Doc & Carrie, we get a ton more!

A hot, hot, hot read! I can't wait to get a chance to check out the movie!

Kay Brandt says

Loved it enough to make a movie from it. An excellent story of Ronnie and Gretchen, as well as Mr and Mrs. B, Daphne and Ari plus new characters.

C. Erani Kole says

4.5 stars of the newest installment about the sensual lives of all these fun people.

When I read books with sex in them it's either the wham-bams or actual good stories with a spicy flavor. This book definitely falls in the latter category. I've read two books of this series so far, but they were some of the best ones for me, since they were all about Ronnie and the Mr. and Mrs. Baumgartners. Sex was pretty hot, of course, but I really like that Kitt made her characters to be more than just back stories for the sexy times. A lot's obviously changed between now and the books I read last, but it was still enjoyable and I'm glad I still had that emotional tie to Ronnie and the way she chose to move forward in life. I definitely got attached to some of the other characters, and seriously, if I can shed some tears for a book that's now become a Motion Picture in the porn industry, you know something interesting is up. So check it out if you like what you're reading.

She Writes She Reads aka Thinking M & some other things... says

This is a great follow-up to the many polyamorous adventures led by Carrie and "Doc" Baumgartner. Selena Kitt is one of my favorite authors and I have read many of the Baumgartner series' Books. I was thrilled to have the chance to voluntarily read and review an arc copy of this book. This book really brings the series full circle, revisiting original characters and tying up some of the original relationships.

Four of the most important characters in the series are ready to settle down and make some lasting decisions. In the earliest book, Babysitting the Baumgartners, we meet Ronnie, the Baumgartners' babysitter who spends a spectacular polyamorous vacation with her employers. Even though the Baumgartners care about Ronnie, she later cuts off contact with them and eventually moves in with her girlfriend, Gretchen, who replaces her as the Baumgartners' nanny. Ronnie never seemed completely comfortable with polyamory so three or four years down the line, in this book, we see Ronnie facing the choice of whether to leave Gretchen for her new love, Vince, or form some other type of polyamorous arrangement.

Gretchen also sees her life changing as she sees herself losing Ronnie but also coming closer to realizing a longed-for triad relationship with the Baumgartners. Carrie Baumgartner is thankful for her many blessings

but realizes that she still longs to remain and mother and also that she really needs the presence of a female love/lover in her life.

It is really nice to revisit Ronnie, Gretchen, Carrie and Doc and to see that they are all growing and thriving, despite their sometimes unconventional open relationships. It was also nice to see that Ronnie was happy and healthy because she was very young when she had her affair with the Baumgartners and had mixed feelings about it so it was a nice follow-up for her story.

We also get to meet (or renew?) the Baumgartners' close relationship with Daphne and Ari. They have a spirited daughter named Paige who becomes Ronnie and Gretchen's roommate. Paige helps turn the heat way up between the three ladies and Paige's boyfriend, who she is happy to share!

If you aren't familiar with the Baumgartners, the characters get into a LOT of sexy explicit action. If that is NOT your thing, you should skip this! But if you like a lot of action, which reads like the script to an adult film with heart, then you will love this hot read!

Michelle says

One hot and delicious story Gretchen and Ronnie have moved in together and have a relationship and she is having the hots for her man trainer and she is having trouble with sharing her trainer with Gretchen she does not want to leave Gretchen but she wants it all lol and of course the rest of the Baumgartners are here and have fun with their old friends they are living with them and having a good time had all but it is good developments with the characters and good story line love Selena Kit's writing she is a great story teller and can't wait for the next book. I voluntarily reviewed an advanced reader copy of this book. Michelle
