## **A.I. Battle Fleet** Vaughn Heppner

In a desperate fight, we captured one of the machine empire's factory planets. Can we now defeat an interstellar superpower that has exterminated thousands of sentient races across the galaxy and slaughtered billions of us in the Solar System?

Not bloody likely, but Captain Jon Hawkins is on a mission. Using new warships from the factory planet, he's searching for alien allies, more battle stations to storm and death machines to kill. He's buying us time to turn the Solar System into a fortress...if he can stay alive long enough.

A.I. BATTLE FLEET is the fifth book in the series chronicling humanity's grim war for survival against the galactic machine juggernaut.

The series starts with book 1, A.I. DESTROYER.

## **From Reader Review A.I. Battle Fleet for online ebook**

### **Paul Kennedy says**

#### **Keep em comin!**

Awesome read. The development of the characters and theme is great. Fascinating and enjoyable. Some concepts repeated but then that is the nature of war, especially when fighting an AI. Looking forward to the next instalment.

---

### **Kimberly Sparks says**

#### **The 5th book continues the story beautifully**

The 5th book is a great continuation of the series! We are introduced to new aliens and get to know the main characters better.

---

### **john dinsmore says**

Fast paced action. Cpt. Hawkins and crew have finally found an alien civilization to ally with. Together they defeat the AI fleet, however, the main AI escapes. Now with their new friends, they discover who the mysterious aliens that travel thru the Void" space. Hawkins finally marries the Mentalist, but with the ever present danger of the AIs, how long will the honeymoon last? Can hardly wait for the next installment.

---

### **Mike Reynolds says**

#### **A fun read that has many twists and turns. Waiting for the next book.**

Interest and exciting throughout. Seriously want to get the next installment for this most interesting story. What will the next crisis be.

---

### **Billy says**

#### **Great series on its own**

Great series, was reading another Heppner and took an audio detour to this series. Great work highly recommend this series

---

## **Tom says**

### **Still going and enjoyable!**

I find that this series keeps my attention. If you like hard science fiction, space opera, and military battles this series is for you.

---

## **Marjorie Echols says**

### **More**

The series is excellent. I need more! I want to know what happens next. Does Bast get to find more of his people. Do the fish people continue to control human government? I need closure!

---

## **Mike Abston says**

### **Great series**

I am looking forward to the next installment. Held my attention. 5 books are not enough. Please sir, may I have another.

---

## **Stephen Lee says**

The book moved the story along well enough and I enjoyed the read yet the first half of the book and the second half seemed a little disconnected. I had expected them to get back to Sol but we are not quite there yet.

---

## **Charles T. Haskell III says**

### **Excellent!!!**

Have completed the series and wish it were to continue. Highly recommend it to any SF readers. Starting on another series from this author.

---

## **Maury Breecher says**

### **Maybe a good book for teenagers discovering SciFi**

However the characters don't have a lot of depth and their dialogue often isn't interesting but weird present a

dismal future of AS!I actually come to consciousness

---

### **Vladimir Tsurkan says**

#### **Good read**

This is a great series. First couple of books were truly amazing. I think it now needs to introduce more technology and aliens. Waiting for continuation with great interest.

---

### **Brian Harber says**

#### **Really fun series**

I love binge reading and this series made that possible. I wonder if the author continues the series what will the timeline look like? Will we see Bast and John or will we see 1000 years from now as the void ship returns. Who knows, but what I do know is that I truly enjoyed the series and was happy it had an end.

---

### **jason kyle says**

#### **Great series and great writer.**

I have read many sci-fi books and Vaughn Heppner is one of my favorites. The A.I. series is one of his best, from the outset it is thrilling and hard to put down, a real page turner if you will. Looking forward to the next book in the series.

---

### **Andrew says**

#### **Keep em coming**

I must have missed a book , some references were a blank but knew enough to know I'd get the story line ,many thanks for a great read .....
