Coming Attractions by Robin Jones Gunn is the second book in the Katie Weldon series. It's always hard picking up a book that comes near the end of a series you are unfamiliar with, as it was for me with Katie and her friends, but Gunn keeps the exposition to just the necessary minimum. Katie is gearing up for her college graduation and considering a life with her long-time crush and new boyfriend (finally!), Rick. But their plans seem to keep running in different directions, and with Eli giving her looks of more than friendship, Katie has no idea just what her future may hold. Katie is a fantastic character and completely refreshing in that she doesn't beat herself up trying to live for other people but listens to the Holy Spirit and starts to live the life of adventure He has for her. So many books aimed at young adults feature characters that flail around wildly frustrating the readers with stupid choices and actions, but Katie is just the opposite (although I get the impression that this attitude is a new one for the character). Her faith is amazing, and her character wonderful. The connection between Eli and Katie is electric, and I dare the reader to get through the final pages without tearing up! I hope that Gunn isn't finished with Katie, because I'd love to read more.

I started reading the first Christy Miller book my freshman year. I decided to stretch the entire series out my entire high school season. Looking back on this plan, I think it was more of a "God-thing" than it was me! Every time I've picked up one of these books, I have been blessed beyond what I can imagine! I just finished the third Katie Weldon book today! I laughed through the entire book (except for chapters 8-10) and cried at the end. Now that I have finished the series, it's like a season of my life is finally closing...I'm ready to see what God has in store for me in the future! I am so blessed to have been able to get my hands on these books! God is good and I am more than blessed to be a "victim of His grace"! Awesome books, incredible author, and an amazing God who always has an unique/cool/surprising blessing around every corner of my life!

Some of you may know Robin Gunn from her Sister Chicks series, or the Christy Miller Series. I really enjoy those. Robin has a very smooth writing style that will make you laugh and if you're anything like me you'll feel like she's reading your mind. She's quite funny!

The best part of the book was when Rick told Katie not to "go hormonal" on him. I had someone say that to me once, and I totally understood Katie's reaction. I love how Robin includes everyday and relate-able slang. There was more than one time I caught myself laughing out loud with this book. I was smiling, or giggling, or waiting for something good to happen. Robin definitely kept me turning pages!

The book is full of silly girl things that only girls can really understand and love! This is the kind of book that I would let any teenage girl read as well. It's full of characters that prove to be good examples and what friendship is about. I really love books that prove that. They put them in real dilemmas and struggles that we go through (or can live vicariously through lol). This book touches on subjects of the heart that most girls face at one point or another and you'll find you might even tear up a bit amongst the laughter.

If you're looking for a hilarious and heart warming read pick up a copy of Coming Attractions . I really had a hard time putting it down and loved all the different rides she took me on. You'll enjoy the tilt-a-whirly ride you go on!

Thanks Robin for giving me a good giggle! I truly enjoyed it.

This was an interesting book but I can't help but disagree about some things. I didn't like the characters and didn't feel for them at all. Especially since I was constantly angry with Katie and my anger built even more when I couldn't understand her as a character. To me the most important thing in books is that I personally "know" the characters, that even when I disagree with them I still understand them. The plot also had way too many predictable twists that were, just that, twists, and no story worth calling a plot. By making her main character of less intelligence was the only way the author was spinning a plot, because if Katie was smart and not as confused she would have seen her guy friend's love for her much earlier than we, the readers did. This withdraws the second most important problem I had with this book- Robin Jones Gunn claims that this book is christian but sorry this is another thing that I have to disagree with. I personally think that the only thing "christian" about this book is how her guy best friend constantly connected love with faith to hint to Katie that he loved her, which to me, was underestimating religion. The writing was good, but for Gunn, who I know can do a lot better it was an average of three stars. There are a lot of good christian fiction books but this one just wasn't enough for me. It's as if Jones Gunn is looking skin-deep, with no subplots and only one, single predictable plot in the story. I might recommend but look at it as what it is, just another romance story...

This was a fairy-tale, only happens in the movies kind of book, but boy did I love it. I think this has been my favorite book of Katie's journey so far. It's so wonderful to see her story finally playing out how I know it and to read about all the details of it. I almost cried at the end at how much of a God-thing this book really was and how right everything was at the end. Only one more book in the series and I am sad to say goodbye in this next one.

In the book, "Coming Attractions", Katie Weldon is a senior ready to graduate college, with no idea what she will do after graduation. She experiences conflict within herself, and with others such as her friend Rick, Eli, and her parents. Katie has self vs self conflict with deciding some things. She also has character vs character conflict with her parents and Rick.

Katie Weldon experiences self vs self conflict in this story. She is trying to decide what to do with her life after college. One example of something she has a conflict with, is whether she should date Rick or not. She doesn't know if he is too organized and punctual for her, or if he really is the right one. Katie doesn't know if she should go to Africa or not. She has self to self conflict when she is trying to decide to help er good friend, Eli, raise money for water in Africa, or if she should stay back home. She has to decide if she should invite her parents to her graduation. This is conflict because she has no relationship with her parents and they live far away, but Katie decides to invite them, even though they didn't really care about her. Although she did experience some self to self conflict, Katie sorted through her problems and made the best decisions for herself.

Katie also experiences character vs character conflict. She gets angry at people very quickly. An example would be when Rick, her boyfriend, asked her about her inheritance, and she ended up breaking up with him that night. This shows that she had conflict with Rick, because they were mad at each other, and this changed the rest of her life. Another example would be when her parents call her and have a short temper. Katie doesn't have a good relationship with them, so she argued with them, and they don't understand what she is going through. In the end, Katie got along with her parents and sorted through her problems, so she had no conflict with anyone.

Katie experiences self vs self conflict along with character vs character conflict in this book. She has to decide many things and get along with the people around her. This book keeps you guessing, and was great! I encourage anyone to read this book, because I am sure you will love it!

For more than half her life, Katie Weldon had dreamed of being Rick Doyle's girl. And now she was, and had been for a year and a half. So why was she feeling so uneasy about her relationship with Rick? Why did it seem such a struggle to see him? Sure they were both busy, she finishing up her last semester in college and he working hard to open two cafes with his brother. Still there was a uneasiness in the relationship.

When it hit her, being the ever impulsive person she was, she had to share with Rick right then. Their relationship was over, because they had gone as far as they could go in their hearts. They were not knit together in their hearts. Rick is angry, hurt and downright mad at her. She is trying to deal with her own emotions of an ending relationship.

Watch as Katie's friends help her through this sorrowful time, and help usher her into a relationship that she is very resistant to, but that is God ordained. Follow along as Katie, helps guide Rick into a new relationship with a close friend of hers. Be amazed at just how smoothly God works out this mangled and twisted relationship.

While this book is part of a series, and there are references to happenings from other books, this story totally stands alone. You will enjoy it on its own, or perhaps be inspired to check out more of the series. A wonderfully written book, a well presented story. A story of love and grace. 288 pages \$14.99 US

I grew up with Christy Miller and her friends, thanks to my mother buying the Christy books when I was a preteen. I was so happy to read the Katie Weldon series (although I wasn't too terribly fond of her in the Christy books, she really grew into her own in her series) to read more about the characters. Katie is an inspiration to me to live my life for God, and I love that Bible verses and faithful advice are incorporated into the stories (especially when Todd is giving the advice, the same old guy he was when he was 16!).

Some people have mentioned they didn't like the ending so much, but I LOVED it, mostly because I totally identify with Katie's choices. I would have made the exact same ones. I very much enjoyed this book!

The first thing I noticed when I got the book was that it was part of a series, the Katie Weldon series. I don't know about you, but I'd never heard of that series (or Gunn's other series, the Christy Miller series) before so I was intrigued. I'm a sucker for a good series so I was pretty excited when I first started reading the book.

And I was still excited the next day when I got to the last page of the book and Gunn left the ending somewhat open, like there will be another book in this series. I'm not sure if that's true or not, but if it is, I'll definitely pick it up.

Coming Attractions is about Katie Weldon. She's a senior in college, has great friends, the perfect boyfriend, and everything all laid out in straight lines to where she eventually wants to go. The problem is that Katie doesn't really like straight lines, she likes wavy ones. With the help of God and a boyfriend a little too eager to get married when he learns about her large inheritance, Katie figures out how to get back to the life she wants to lead instead of the one she thought she was supposed to.

Gunn's writing is easy to understand and read, her characters are extremely relatable (who hasn't wished their life were more spontaneous and less planned out), and the story moves along quickly. The only part of the book that could have been improved for me was that the plot was fairly predictable, but it ends happy, which I couldn't complain about. I knew what was going to happen from reading the back cover and the first chapter of the book.

With all of its positives and negatives, this is a good read if you have even a little bit of free time. Nothing ground-breaking, but a good positive story to help remind you to follow your heart even if it doesn't seem like the best decision to everyone else.

I am just loving this series. I love that Robin wrote a strong female lead. Christy was sweet and a great role model, but Sierra and Katie are awesome and are their own women. They are women of God examples. I bought every book just so I can have them to share!
