Forbidden Desire Artemis Hunt

Now lovers in every sense, former hotel maid, Liz Turner, and billionaire crown prince, Alexander Vassar, are in Indonesia for a much needed break. Alex has to figure out how to tell his father that he doesn't to be trapped in a politically-arranged marriage with the beautiful Lady Tatiana.

But when they receive an urgent call that says, "Come home now, your father has had a heart attack", Liz is hurled unprepared into a royal world where prejudices run high and the classes are clearly divided. Alex's mother, the Queen, and sister dislike her intensely. The European tabloids declare her a "gold-digger" and the cause for his father's ill health.

Can Liz and Alex survive the sudden and unpleasant thrust into the limelight?

FORBIDDEN DESIRE is a 17,000-word erotic romance novelette.

From Reader Review Forbidden Desire for online ebook

Kristy Mills says

The King falls ill and Alex and Liz have to leave Indonesia. Liz meets some of the royal family and realizes that being with Alex is not going to be easy. His family is not very welcoming.

This was almost painful to read. What a horrible position for Liz to be in. Everyone sees her as "the other woman." The one who broke up Alex and Tatiana's engagement. One thing I do like though was the shopping trip, it looks as though she will win over the commoners of Moldovia.

Sandie says

Still a good story. Had to buy book #3 right after I finished reading this one.

Periwinklepsyche says

still the author carry out the good and steamy love story from the book one.it gets more and more interesting.i've gone straight to the third book after reading this!

Jenny says

Liz is so sweet and Alex such an amazing boyfriend! Sexy couple and I love how supportive they are of each other! Steamy and romantic! 5 stars!

Carla Silva says

good book

iamGamz says

The king has had a heart attack and Alex and Liz travel to Moldavia. Liz is treated like a gold digger and realizes that the Royals dislike her immensely. So what's a girl to do ... Go shopping!!!! I would too dammit!
:D

Blzd says

My heart aches for Liz. Alex is just perfect. This installment is too short.

Krista says

I like this one too. I just think it could have been a whole book that was broken into parts.

Missy says

Another hot read.

The passion and love between Liz and Alex is still as hot and strong as ever.....but now they have more on their plate to deal with and to see if their love is strong enough or not.

Liz after reading Alex was engaged and feeling her heart break, takes a giant leap of faith when he appears at her door upset and asks her to go with him. She really proves you can be innocent and strong too.

A month alone helping others in need, both Alex and Liz discover how much they enjoy being together but will it be enough to stand what waits for them back home??

Alex really is a great guy with strong beliefs in what makes him happy and what is right....it is his belief in them that gives Liz the courage to fight for them, which they both will need. His family makes it tougher and tougher for her to believe she is good enough for him even through she loves him so much....the doubts start to get to her.....and she does something stupid.

The love and caring these two show is just so wonderful even with the hot sex scenes, this book reads like a romantic fairy tale. With all the emotion and turmoil in this series you really get to know Liz and Alex. The author has done a wonderful job creating some interesting characters and a sexy fairy tale.

Looking forward to the next book.

Raj says

AWWWWW

Gabriela Carreón Grahn says

I enjoyed the first book. It was okay and a good way to pass time. But this book was just horrible. No depth what so ever. You would think that the author would put in a little more distress between the couple considering the circumstances but no. Everything is hunky dory. Yawn.

Kadija Hargreaves says

once again not enough detail uggggghhhh it's like a chapter out of a 1st book of a trilogy I love this book but

the lack of detail is heart breaking :(
