Very moving story of Liverpool and its poor families before and during World War 1.

### **Enjoyable read**

It was good to read because it told the story of many families.

It would be good to read a story about Thomas and Dee.

Scotland road considered a "slum" in Liverpool is the well to do Chattertons new home after a spectacular fall from grace.

From a wealthy family and affluent lifestyle Dee has to learn to cope with a whole new lifestyle and get to know a whole different set of people.

Originally the local curiosity due to their aloof airs and posh accents the Chattertons slowly fit in to their new landscape and make good and new valued and trustworthy friends who are there for them when no one else for their previous life was but just as they start to get to grips with their new existence the shadow of war casts a cloud over the whole area as the world is plunged into devastation.

Who will survive the war and return to pick up the shattered remains of what once was?

A wonderful tale of love, loss, hope and dreams and how easily these things can be snatched from you by an outside force.

A must for any historical fiction fan.

This was a very educating book helping me to understand the hardships of war. I felt the pain the characters felt, and when Nancy died; I felt all of their pain and more. A gripping book, and a brilliant read.

Fantastic read. I've been reading Lyn Andrews books on and off over the years and have yet to be disappointed by one. However, I consider this to have been one of her best. The story draws you in immediately and doesn't let go. The characters are very real. World War I comes into it but it's mainly about how the people back home are coping but there are battles described and done very well. There's huge poverty in the street but it's a street that looks after it's own. During every disaster to occur, and there are

many, the families rally round and do their bit.  
Even with all the troubles it's a community I'd love to be part of.
