Obsession and Sacrifice Tiffany Carmouche

Obsession and Sacrifice is the second book in The Alaskan Heart Saga. A series about unexpected love and a woman's fight for survival.

When Nichole wakes up in the hospital room from a coma, she has no memory of who she is or how she got there. Only the scars on her body reveal some horrific event took place and she is lucky to be alive...alive...but could she still be in danger?

Her only hope to rediscover her past and avoid a killer's obsession lies in the hands of two men: sexy Dylan, her boyfriend, who used to captivate her and now prays she will remember how much they cared for one another, and Bradley, her charming best friend, who has secretly loved her all along. She feels safe around both men, but to her, they are strangers. Nicole must decide who to trust, not only with her heart, but with her life.

They are rivals--both men want to win her love. But they are allies as well. The two vow to give her a second chance at life and both will sacrifice everything to make sure she survives.

Love triangle at its best!

Love triangle used to be my favorite element in a book, but after all the years it just seemed overrated and lacking in the "WOW" factor, Tiffany Carmouche most definitely reminded me why I used to love Love Triangles in the first place, and the most surprising part, I love both the male characters (Dylan and Bradley) so much that I wanted Nicole to be with both of them (and I always pick sides). The twists and turns in book two definitely had me gasping and trying to get my head to process the sudden twist (especially for what happened with Dylan and Nicole's relationship). I have to admit, Dylan, Nicole and Bradley nearly reduced me to tears. I admire Dylan and Nicole's relationship because Dylan was so protective and caring towards Nicole, I love Bradley and Nicole's relationship because they are best friends. Decisions, Decisions.

Of course, the best thing about the series is the *goosebump* factor. If book one made you shiver, book 2 undoubtedly doubled the standards! That's how *psycho-ed* the killer is.

So glad that I received an Advance Reader's Copy (thank you so much for that!), Alaska has never been warmer! (that will be my tagline for the series!)

I finished the first in this series and could not wait to begin the next and if possible I loved it even more. I love jumping into a book where I already know the characters...the scenery... falling into this book was like returning home from vacation...an exhale as you know where you are. The book started off exactly where the first one ended... and the first few paragraphs you were holding your breath as the beeps of the machines hooked to Nicole are echoing behind Brad's words... you are in that hospital as he makes confessions and then Dylan coming upon the tender scene... it is angst written at it's best and the story just takes off from there. Then the medical situation that brings about a lot of the "meat" of the story... especially one scene in the book that I was absolutely dying for both Bradley and Dylan as Nicole is trying to ...*figure* things out about them and her feelings for them and that once again put into dilemma who I wanted her with...lol. (All I can say is that I could not stop reading, I am supposed to be packing up my baby to send to college TOMMORROW...instead I was hiding and reading...)

I do not give spoilers but I will state that the story is not over and I cannot wait to see where the next book takes us and how exactly everything will be brought to completion.

I'm not much of a reader, but I was so excited about the release of *Obsession & Sacrifice* (the second in trilogy) I couldn't wait to see what would happen with Nicole when I finished reading *The Imposter - A Love Story* (first in the trilogy.) I bought it the minute it was released. *Obsession & Sacrifice* had so many switches and unexpected turns I had to continue reading it until I was finished! Tiffany Carmouche kept up the unexpected surprises and thrills of genuine love for Nicole between two men - Dylan & Bradley - who want to help Nicole recover her past, while keeping her safe from a predator who put her in the hospital at the ending of her first book ~ *The Imposter*. The thrill ride continues. Another page turner!

Cathy Wade says

This book was super great! I cannot wait for book 3! I cried throughout this whole book! You once again can feel the emotions of the writer. I fell into a deeper love for both men and was confused myself on whom I want Nicole with. Have to say I'm still team Dylan but I want Bradley happy too! You can really feel the emotion all 3 are going through and I love that they all share their POV and what they are thinking. Dylan does piss me off during some of the story but you will forgive him. I just want to warn you that you will need a whole box of tissue when reading this book! I loved this book as well as the first and I don't know how I will survive until the next book!

This is the 2nd book in the romantic Alaska trilogy. *The Impostor* is the first book. This book starts out with Nicole waking up in the hospital with amnesia after being in a coma. Those two hot guys Brad (Bartender) and Dylan (Rock Star) are both there and they both love her. Now, due to the talent of the author, I'm still feeling like I'm Nicole as I go through these experiences with her. So, I'm not so excited about losing my memory or not being able to walk. However; the two hot guys fighting over me sure go a long way in making up for the negatives. Speaking of negatives, did I mention that there is still a serial killer after Nicole? Well, put on your seat belt because it's going to be a bumpy ride! You aren't going to want to miss the exciting journey as she tries to regain her memories as both men fight to win her love. Are you going to join Team Brad, or Team Dylan?

Bex 'n' Books says

Obsession and Sacrifice, by Tiffany Carmouche, is an intense follow-up to *The Imposter*. Immediately picking up where book one left, we follow Nicole's journey as she struggles to cope with the events of her past and her confused feelings about the two men in her life. Throughout Nicole's battles, she has the additional concern of fighting for survival in a world where she's not too sure who she can trust.

Once again the author, Tiffany Carmouche, takes the reader along a passionate, romance fueled adventure

filled with palpable suspense, drama and action. We closely follow the three main characters which successfully allows us to bond and identify with them all. It's impossible not to feel a connection with characters who are so creatively and realistically constructed.

Tiffany Carmouche impressively weaves together a narrative complete with heightened tension, compelling the reader to pick up the pace and turn the pages as quickly as possible to be able to keep up with the rollercoaster of action. The reader is left with an element of satisfaction, in addition to yet another cliffhanger that will no doubt leave the reader shouting a little at Tiffany Carmouche's signature ending.

Obsession and Sacrifice is a romantic suspense of epic proportions.

ARC (Advanced Readers Copy)

Excellent! - Obsession & Sacrifice is here & it did not disappoint! The second of the trilogy gives you a tiny re-cap of the last chapter from the 'The Impostor' & sets the atmosphere ready for the roller-coaster of a read that awaits you! Once again the authors' descriptive writing connects you right at the heart of the outstanding romance, intrigue, suspense & action. Yet again, Tiffany has written another book that I just couldn't put down. There are so many different aspects to this book & the author has succeeded in making every chapter progress & flow at an exhilarating pace. Overall it's a 10/10 from me & I'm here pacing the floor again, ready for the next book.

What a fantastic read!

Obsession and Sacrifice is the follow up in to The Imposter by Tiffany Carmouche. I'm so glad I read this book. Nicole has just woken up from a coma and dose not know any of the people around her,not even her sexy boyfriend Dylan or her friend Bradley. It's hard for Nicole to try and remember any thing but she is trying her best. I just loved this book as much as I did the first.The Suspense was killing me and I was so shocked at a few things that happened and i'm still saying to my self..say what!?! lol and it's got some really nice hot and steamy love scene's that will make you melt.Over all I give Obsession and Sacrifice a 5 out of 5 and I look forward to reading more of Tiffany Carmouche's work in the future.

I must be honest I had never read anything by author Tiffany Carmouche until now. I first read The Imposter and immediately thought WOW! Then I began reading the second in this series Obsession and Sacrifice and I was blown away! This book doesn't skip a beat it picks up right were The Imposter leaves off. I was

completely into this story. It has the right combination of suspense and romance without being over done. Obsession and Sacrifice did totally deliver for me. I was not disappointed in this story at all. Tiffany Carmouche does an awesome job of taking you through the story and making you want more. The characters in this book are so well written it's as though you are them going through all the frustration and sacrifices they each make. Nichole trying to regain her memory, Dylan wanting nothing more than for Nichole to remember how much he loves her, and Bradley who desperately wants to do the right thing but is caught up in his secret of the heart. I absolutely fell head over heels in love with this book. I could sit here and write for hours on how great Obsession and Sacrifice but, I won't as I am not going to give away any of it's secrets. You must discover them on your own. So what are you waiting for go pick up a copy or two of the series and discover The Alaska Trilogy for yourself.

WOW!!!!!! Tiffany has not let her readers down! I devoured Tiffany's first book "The Impostor" and "Obsession and Sacrifice" was no different! Tiffany made me feel like I was right in the book with the characters! I laughed out loud, cried and was even ready to throw my e-reader at a couple of parts. The main characters, Nicole, Dylan and Brad all have a very close relationship and you can feel the love between all of them! The twists had me on edge and ready to jump into the book and go after some of the characters myself! Tiffany is such a talented writer and when she tells her story, you feel as if you are apart of her books! Thank you so much for the wonderful book Tiffany! You have fast become one of my favorite authors! I love the cliffhanger endings that leave me wanting more!

I received this book free from the author in exchange for an honest review.

This is the second book in the amazing series by Tiffany Carmouche. This books starts off exactly where book one left off, Thank God. If it's even possible, this book is even more intense than the first. It's such a crazy thrill ride and I never want to get off. It's more gruesome, it's fast- paced and heart pounding. It was such a rush! I actually liked this book better because you got three different POV's and the background for why each character did what they did and their thoughts behind it. Little tidbit of information, you can't trust anyone, everyone has a secret agenda.

Nicole is gain a great lead character. But in this book because of her "handicap" she is a totally different person (laughing so hard at my witty comment). I like her better now because she has nothing holding her back from following her dreams. Dylan is still a great guy, minus a few times of him being a complete ass, but I still love him. Especially since he is willing to do anything to be with the woman he loves. I also liked Brad better in this book. I love that we got his POV because it clears up my issues with him from book one. I still am holding out for him in the last book.

Another amazing book by the awesome author Tiffany Carmouche. She definitely has a knack for writing great books. I can't wait to read more books by her. and Hello??? What was that ending? Predictable but yet a cliffhanger!! I NEED book three NOW!!!

First I have to say that Tiffany Carmouche pulled off something that is very hard in writing and that is she

has created a love triangle that has me torn between two men. So after reading the book I decided Nicole can have both men. Dylan can have Monday, Wednesday, Friday and Bradley can have Tuesday, Thursday, Saturday and Sunday will be girls night! Bawhahaha sounds like a solid plan to me :) But who knows what will happen. That is what is so good NO WAY GREAT about this book. You just don't know what poor Nicole is going to do. The story starts off right where Impostor ended and man oh man Nicole moved to Alaska to start a new life but what she got was a crazy stalker who wants her for himself.

Nicole wakes up from a coma and she does not remember who she is or where she is. Dylan her boyfriend and Bradley her best friend have never left her side and she is grateful for that because they are going to be the ones to fill in the blanks. All Nicole knows for sure is that she is in the hospital and she is covered with scars from what happened to her. As the guys fill her in and she gets glimpses of her life she starts to feel safe. She knows Dylan and Bradley would never hurt her. She feels very safe and secure with both of them but the thing is they both love her and they both want her for themselves.

It is hard for her because she loves both guys and wants to make both of them happy. What is a girl to do? A psycho killer is after her and she needs to stay one step ahead of this crazy bastard but who can she trust and where can she stay? Dylan and Bradley are rivals but they have one goal in common and that is to protect Nicole at all and any cost to them. They will lay down their life for her.

Man oh man what a great love triangle and to add to it both these swoon worthy boys holds a special place in her heart as she starts to remember her previous life.

This is the second book in Tiffany Carmouche series and the wait was so worth it. I do not put spoilers in my reviews and I still won't but the hotties in this book OMG. But the book is not just about hot guys, it is about struggles of life and overcoming those obstacles to get where you want to be and to me that is happiness.

There is a going to be a third book!! which I want right now but good things come to those who wait, or so I have been told... sigh.

Become a fan of Tiffany on FB, she is fantastic with her fans and is always there to answer questions and she appreciates her readers to no end, she also throws a kick ass release party!!!

If you have not read the first book The Impostor you must read it first, and just think if you do, you do not have to wait for the second book like I did and you will have instant gratification!!!

I wish I could give Tiffany Carmouche 100 star review as an author and a person, I believe her stories are for entertainment but also have a purpose, If you are or have been abused there is help out there for you and she wants you to know it.

Thanks Tiffany, I am a fan for life!!!

Shirley Buchanan says

Just how complicated can one person's life become? Plenty, Nicole discovers.

Confused, her mind blank with amnesia, Nicole has a life full of men. Two men, her "angels", love her, another hates and despises her, and a fourth stalks her. Grateful for the assistance of her "angels", Dylan and Bradley, she tries to negotiate this new minefield of her life, but each new discovery leaves her more

confused. Would her life ever be "normal" again?

Handsome and talented, Dylan has overhauled his life to win and keep the love of Nicole. Feeling guilty because he was not there during the attack, he continues to mold his actions to her needs. But things have changed. There are more actors on life's stage, and he is not sure he's ready. Will his love be enough or has he loved and lost?

Handsome, steady and reliable, Bradley has watched Nicole from afar, being only her friend, but with the attack, the total focus made a 180 degree turn. He's not sure being her friend only will be enough, and besides, Dylan is his best friend. Nicole and Dylan both need him. Can he change his focus one more time to only be their friend or will his love refuse to be subdued again?

Tiffany Carmouche has delivered another intense, suspenseful, emotional, and mind blowing book in this second installment. Well developed characters and intriguing plot. With the cliff hanger at the end, I can't wait for the next book.

Excellent Read! Highly Recommended!

5/5 stars Will she ever find normal again?

(I received a rough copy of the book for review)

This book starts off right where "The Impostor" left off, Nicole in a hospital bed unresponsive. The first few chapters were really hard on me as, the tears just kept coming out. My heart always skipped a beat when something upsetting happened, as I only wanted the best, and happy endings. Sarah I truly disliked that woman how can someone be so hurtful and mean? "I'm tired of waiting you need to go in there and make him realize he is wasting his time. Make him realize that this stupid bitch is just luggage. I wonder if there's a way to disconnect that machine. It's the only thing keeping her alive. How hard could it be to unplug it?" That truly pissed me off I mean doesn't the woman have ANY compassion! Dylan at times truly pissed me off as well, how can he be so kind and caring and worrying over her one minute and a complete ass the next? It's killing me to see Nicole in pain over Dylan. "I'm sorry Bradley." Her eyes lowered, breaking the connection building between the two of them. "I can't do this. Just hours ago I was throwing myself at Dylan, I can't do this I'm in love with him, and he doesn't want me. I hate him so much Bradley. I feel so stupid." I'm hoping there will be another book as although there was sort of a happy ending (have to read it for yourself) There is a lot I want to know more about.
