Oh, Baby!

Judy Baer

Oh, Baby! Judy Baer

From the moment we met, obstetrician Clay Reynolds scorned my profession as a birthing coach. His scathing remarks left me crying on the shoulder of my potbellied pig, Gertie! It seems only the handsome doc's eight-year-old son, who thinks I hung the moon, can make Clay be civil to me. Clay is a great doctor and loving father. And we're finding a lot in common as we volunteer together at a free clinic. But he's still frowning at me in the delivery room.

So how can I convince him God gave me skills that complement his own? Maybe with a little help from above I can change Clay's attitude toward doula's in general... and me in particular.

Oh, Baby! Details

Date : Published May 27th 2008 by Steeple Hill (first published January 1st 2008)

Diana says

Well... I didn't know this was Christian Fiction when I checked it out but I sure found out the hard way. I don't mind Christian Fiction, I actually enjoy the genre when it's not preachy. This... is very very very preachy. Almost too preachy but the love story was interesting so I finished it. I really didn't like Molly, the MC. She would tell someone not to be judgmental on page and then, on the very next page, she would be judgmental herself. I don't know... I will pass on this author from now on, just not my style.

Mackenzie says

Book 3 of 3

Laura says

2.5 stars

Just - The romance reader says

From the first book I read, I've been a huge fan of Judy Baer. I find Baer's books to be a bit on the predictable side when it comes to the endings. You'll always find a happy ending with the main characters finally realizing that eventhough they have butted heads they're in love and end up getting married (sorry for the spoiler). But Baer's books are fun and light reads. I usually fly through them quickly and wish for another one to read.

Lorraine says

Predictable Christian chick-lit, but loved the fact that it's about a doula and childbirth.

Christie says

This was a quick (and somewhat educational) read about a doula and her life and work at a hospital. The main problem I had was with the love interest. For a character that was portrayed as so logical, his reason for disliking the main character was completely illogical. For me, this was a major flaw in the plot.

Shanle says

I love the mixture of faith, laughs and romance. I think I have read one other book by Judy Baer and now I will have to find more!

Laurie says

Cute. Wanted more doula details, though.

Martha says

A great fiction book on doulas... Slightly cheesy and a little unrealistic, it does actually have some of the main facts correct when it comes to a doula/patient relationship. In this funny, chick lit book, romance between an unlikely doctor and doula is fun!

Ratforce says

Judy Baer is known for her fun and flirty inspirational romances. You may want to start with *Oh, Baby!*, which tells the story of a birthing coach and the single father she'd like to know better.

Carola says

It felt a bit too preachy for my taste, both on the Christian and the Doula theme. I didn't connect with either of the main characters. His reason for not liking or respecting her profession is really lame, and has nothing to do at all with being a doula. By his reasoning, he should have hated all doctors as well. I had to force myself to finish the book.

Barbara says

Usually, I like Judy Baer's books, but I am truly sick and tired of the plot device that states that the staid, uptight, logical person (in this book, Dr. Clay Reynolds, an OB-GYN) must shed that part of his persona and adopt the free-spirited ways of his love (here, doula Molly Cassidy, rescuer of pets).

Thinking and acting in a logical manner should not be a crime. It should be required of all individuals throughout their lives. Here, though, Clay has seemingly forgotten how to laugh and love. Never mind that he's lost his beloved wife in childbirth and may still be in mourning.

The book does have its funny moments, but overall I've read better.

Callie says

This was just a cute, quick read. Christian chic-lit, didn't require a lot of focus, which was perfect for middle-of-the-night feelings with my newborn. I liked it!

Richelle says

It was a very cute book!

But, Clay didn't make any sense to me! Molly was crazy to fall for him! I only liked him in the very beginning (when he sees the baby girl), and at the very VERY end (when he finally tells Molly why he has been such a jerk!).

Ugh.

There were a few typos, too. It was a very cute story line and I did like the main character. I just wanted her to stick up for herself.

Still, I am glad I read the book, and I will read more from this author. She puts her faith into her characters, and I LOVE IT!

Gwen Bryant says

Judy Baer books are lots of fun.
